Springer Series in Synergetics

Synergetics An Introduction 3rd Edition
By H. Haken

Synergetics A Workshop
Editor: H. Haken

Synergetics Far from Equilibrium
Editors: A. Pacault, C. Vidal

Structural Stability in Physics
Editors: W. Güttinger, H. Eikemeier

**Pattern Formation by Dynamic Systems
and Pattern Recognition**
Editor: H. Haken

Dynamics of Synergetic Systems
Editor: H. Haken

Problems of Biological Physics
By L. A. Blumenfeld

Stochastic Nonlinear Systems
in Physics, Chemistry, and Biology
Editors: L. Arnold, R. Lefever

**Numerical Methods in the Study
of Critical Phenomena**
Editors: J. Della Dora, J. Demongeot,
B. Lacolle

**The Kinetic Theory of Electromagnetic
Processes** By Yu. L. Klimontovich

Chaos and Order in Nature
Editor: H. Haken

**Nonlinear Phenomena in Chemical
Dynamics** Editors: C. Vidal, A. Pacault

Handbook of Stochastic Methods
for Physics, Chemistry, and the Natural
Sciences 3rd Edition
By C.W. Gardiner

**Concepts and Models of a Quantitative
Sociology** The Dynamics of Interacting
Populations By W. Weidlich, G. Haag

Noise-Induced Transitions Theory and
Applications in Physics, Chemistry, and
Biology By W. Horsthemke, R. Lefever

Physics of Bioenergetic Processes
By L. A. Blumenfeld

Evolution of Order and Chaos
in Physics, Chemistry, and Biology
Editor: H. Haken

The Fokker-Planck Equation
2nd Edition By H. Risken

**Chemical Oscillations, Waves, and
Turbulence** By Y. Kuramoto

Advanced Synergetics
2nd Edition By H. Haken

**Stochastic Phenomena and Chaotic
Behaviour in Complex Systems**
Editor: P. Schuster

**Synergetics – From Microscopic to
Macroscopic Order** Editor: E. Frehland

Synergetics of the Brain
Editors: E. Başar, H. Flohr, H. Haken,
A. J. Mandell

Chaos and Statistical Methods
Editor: Y. Kuramoto

Dynamics of Hierarchical Systems
An Evolutionary Approach
By J. S. Nicolis

**Self-Organization and Management
of Social Systems** Editors: H. Ulrich,
G. J. B. Probst

**Non-Equilibrium Dynamics
in Chemical Systems**
Editors: C. Vidal, A. Pacault

Self-Organization Autowaves and
Structures Far from Equilibrium
Editor: V. I. Krinsky

Temporal Order Editors: L. Rensing,
N. I. Jaeger

Dynamical Problems in Soliton Systems
Editor: S. Takeno

**Complex Systems – Operational
Approaches** in Neurobiology, Physics,
and Computers Editor: H. Haken

**Dimensions and Entropies in Chaotic
Systems** Quantification of Complex
Behavior 2nd Corr. Printing
Editor: G. Mayer-Kress

**Selforganization by Nonlinear
Irreversible Processes**
Editors: W. Ebeling, H. Ulbricht

Instabilities and Chaos in Quantum Optics
Editors: F. T. Arecchi, R. G. Harrison

**Nonequilibrium Phase Transitions
in Semiconductors** Self-Organization
Induced by Generation and
Recombination Processes By E. Schöll

**Temporal Disorder
in Human Oscillatory Systems**

Editors: L. Rensing, U. an der Heiden,
M. C. Mackey

**The Physics of Structure Formation
Theory and Simulation**

Editors: W. Güttinger, G. Dangelmayr

**Computational Systems – Natural and
Artificial** Editor: H. Haken

From Chemical to Biological

Organization Editors: M. Markus,
S. C. Müller, G. Nicolis

Information and Self-Organization

A Macroscopic Approach to Complex
Systems 2nd Edition By H. Haken

Propagation in Systems Far from

Equilibrium Editors: J. E. Wesfreid,
H. R. Brand, P. Manneville, G. Albinet,
N. Boccara

Neural and Synergetic Computers

Editor: H. Haken

Cooperative Dynamics in Complex

Physical Systems Editor: H. Takayama

Optimal Structures in Heterogeneous

Reaction Systems Editor: P. J. Plath

Synergetics of Cognition

Editors: H. Haken, M. Stadler

Theories of Immune Networks

Editors: H. Atlan, I. R. Cohen

Relative Information Theories
and Applications By G. Jumarie

**Dissipative Structures in Transport
Processes and Combustion**

Editor: D. Meinköhn

Neuronal Cooperativity

Editor: J. Krüger

Synergetic Computers and Cognition

A Top-Down Approach to Neural Nets
2nd edition By H. Haken

Foundations of Synergetics I

Distributed Active Systems 2nd Edition
By A. S. Mikhailov

Foundations of Synergetics II

Complex Patterns 2nd Edition
By A. S. Mikhailov, A. Yu. Loskutov

Synergetic Economics By W.-B. Zhang

Quantum Signatures of Chaos

2nd Edition By F. Haake

Rhythms in Physiological Systems

Editors: H. Haken, H. P. Koepchen

Quantum Noise 3rd Edition

By C.W. Gardiner, P. Zoller

Nonlinear Nonequilibrium

Thermodynamics I Linear and Nonlinear

Fluctuation-Dissipation Theorems

By R. Stratonovich

Self-organization and Clinical

Psychology Empirical Approaches

to Synergetics in Psychology

Editors: W. Tschacher, G. Schiepek,

E. J. Brunner

Nonlinear Nonequilibrium

Thermodynamics II Advanced Theory

By R. Stratonovich

Limits of Predictability

Editor: Yu. A. Kravtsov

On Self-Organization

An Interdisciplinary Search

for a Unifying Principle

Editors: R. K. Mishra, D. Maaß, E. Zwierlein

**Interdisciplinary Approaches
to Nonlinear Complex Systems**

Editors: H. Haken, A. Mikhailov

Inside Versus Outside

Endo- and Exo-Concepts of Observation
and Knowledge in Physics, Philosophy
and Cognitive Science

Editors: H. Atmanspacher, G. J. Dalenoort

Ambiguity in Mind and Nature

Multistable Cognitive Phenomena

Editors: P. Kruse, M. Stadler

Modelling the Dynamics

of Biological Systems

Editors: E. Mosekilde, O. G. Mouritsen

Self-Organization in Optical Systems

and Applications in Information

Technology 2nd Edition

Editors: M. A. Vorontsov, W. B. Miller

Principles of Brain Functioning

A Synergetic Approach to Brain Activity,

Behavior and Cognition

By H. Haken

Synergetics of Measurement, Prediction

and Control By I. Grabec, W. Sachse

Predictability of Complex Dynamical Systems

By Yu.A. Kravtsov, J. B. Kadtko

Interfacial Wave Theory of Pattern Formation

Selection of Dendritic Growth and Viscous
Fingerings in Hele-Shaw Flow By Jian-Jun Xu

**Asymptotic Approaches in Nonlinear
Dynamics** New Trends and Applications

By J. Awrejcewicz, I. V. Andrianov,
L. I. Manevitch

Brain Function and Oscillations

Volume I: Brain Oscillations.
Principles and Approaches
Volume II: Integrative Brain Function.
Neurophysiology and Cognitive Processes
By E. Başar

**Asymptotic Methods for the Fokker-Planck
Equation and the Exit Problem in Applications**

By J. Grasman, O. A. van Herwaarden

**Analysis of Neurophysiological Brain
Functioning** Editor: Ch. Uhl

Phase Resetting in Medicine and Biology

Stochastic Modelling and Data Analysis
By P. A. Tass

Self-Organization and the City By J. Portugali

Critical Phenomena in Natural Sciences

Chaos, Fractals, Selforganization and Disorder:
Concepts and Tools 2nd Edition By D. Sornette
Spatial Hysteresis and Optical Patterns
By N. N. Rosanov

**Nonlinear Dynamics of Chaotic and Stochastic
Systems** Tutorial and Modern Developments

By V. S. Anishchenko, V. V. Astakhov,
A. B. Neiman, T. E. Vadivasova,
L. Schimansky-Geier

Synergetic Phenomena in Active Lattices

Patterns, Waves, Solitons, Chaos
By V. I. Nekorkin, M. G. Velarde

Brain Dynamics

Synchronization and Activity Patterns
in Pulse-Coupled Neural Nets with Delays
and Noise By H. Haken

From Cells to Societies

Models of Complex Coherent Action
By A. S. Mikhailov, V. Calenbuhr

Brownian Agents and Active Particles

Collective Dynamics in the Natural and Social
Sciences By F. Schweitzer

**Nonlinear Dynamics of the Lithosphere
and Earthquake Prediction**

By V. I. Keilis-Borok, A.A. Soloviev (Eds.)

Nonlinear Fokker-Planck Equations

Fundamentals and Applications
By T.D. Frank

**Patterns and Interfaces
in Dissipative Dynamics**

By L.M. Pismen
