Lecture Notes in Control and Information Sciences

Edited by A. V. Balakrishnan and M. Thoma

Vol. 1: Distributed Parameter Systems: Modelling and Identification
Proceedings of the IFIP Working Conference, Rome, Italy, June 21–26, 1976
Edited by A. Ruberti
V, 458 pages. 1978

Vol. 2: New Trends in Systems Analysis
International Symposium, Versailles, December 13–17, 1976
Edited by A. Bensoussan and J. L. Lions
VII, 759 pages. 1977

Vol. 3: Differential Games and Applications
Proceedings of a Workshop, Enschede, Netherlands, March 16–25, 1977
Edited by P. Hagedorn, H. W. Knobloch, and G. J. Olsder
XII, 236 pages. 1977

Vol. 4: M. A. Crane, A. J. Lemoine
An Introduction to the Regenerative Method for Simulation Analysis
VII, 111 pages. 1977

Vol. 5: David J. Clements, Brian D. O. Anderson
Singular Optimal Control: The Linear Quadratic Problem
V, 93 pages. 1978

Vol. 6: Optimization Techniques
Proceedings of the 8th IFIP Conference on Optimization Techniques, Würzburg, September 5–9, 1977
Part 1
Edited by J. Stoer
XIII, 528 pages. 1978

Vol. 7: Optimization Techniques
Proceedings of the 8th IFIP Conference on Optimization Techniques, Würzburg, September 5–9, 1977
Part 2
Edited by J. Stoer
XIII, 512 pages. 1978

Vol. 8: R. F. Curtain, A. J. Pritchard
Infinite Dimensional Linear Systems Theory
VII, 298 pages. 1978

Vol. 9: Y. M. El-Fattah, C. Foulard
Learning Systems:
Decision, Simulation, and Control
VII, 119 pages. 1978

Vol. 10: J. M. Maciejowski
The Modelling of Systems with Small Observation Sets
VII, 241 pages. 1978

Vol. 11: Y. Sawaragi, T. Soeda, S. Omatu
Modeling, Estimation, and Their Applications for Distributed Parameter Systems
VI, 269 pages. 1978

Lecture Notes in Economics and Mathematical Systems

-

This series aims to report new developments in the fields of control and information sciences – quickly, informally and at a high level. The type of material considered for publication includes:

1. Preliminary drafts of monographs and advanced textbooks
2. Lectures on a new field, or presenting a new angle on a classical field
3. Research reports
4. Reports of meetings, provided they are
 - a) of exceptional interest and
 - b) devoted to a specific topic.

The timeliness of a manuscript is more important than its form, which may be unfinished or tentative. If possible, a subject index should be included. Publication of Lecture Notes is intended as a service to the international scientific and engineering community, in that a commercial publisher, Springer-Verlag, can offer a wider distribution to documents which would otherwise have a restricted readership. Once published and copyrighted, they can be documented in the scientific literature.

Manuscripts

Manuscripts should comprise not less than 100 pages. They are reproduced by a photographic process and therefore must be typed with extreme care. Symbols not on the typewriter should be inserted by hand in indelible black ink. Corrections to the typescripts should be made by pasting the amended text over the old one, or by obliterating errors with white correcting fluid. Authors receive 75 complimentary copies and are free to use the material in other publications. The typescript is reduced slightly in size in the process of reproduction. Best results will not be obtained unless the text on any one page is kept within the overall limit of 18 x 26,5 cm (7 x 10½ inches). The publishers will be pleased to supply on request special typing sheets with the typing area outlined.

Manuscripts, preferably in English, should be sent to Prof. Dr. A. V. Balakrishnan, Department of System Science, University of California, 4531 Boelter Hall, Los Angeles, Ca. 90024, Professor Dr.-Ing. M. Thoma, Institut für Regelungstechnik, Technische Universität, Appelstrasse 11, D-3000 Hannover, or directly to Springer-Verlag Berlin.
