Subject Index

- Administrative expense, 79, 84
- Adverse selection, 291, 383
 - and market equilibrium, 291
 - and moral hazard combined, 311
 - and risk type, 291
 - and social insurance, 354
 - consequences of, 267
 - death spiral property, 267
 - definition of, 267
 - efficiency loss subadditive, 312
 - empirical evidence, 299, 300
 - estimate of welfare loss, 302
 - in a multi-period context, 303, 304
 - in a single-period context, 291, 292, 295
 - in health insurance, 300
 - triggered by change, 300
 - unsustainable pooling contract, 292
 - unsustainable pooling equilibrium, 291, 295
- Alternative risk transfer
 - and capital market, 414
 - and catastrophic loss, 414
 - vs reinsurance, 414
- Arbitrage, 132
- Arbitrage pricing theory, 130, 131
- Asset, 3, 21, 26, 72, 111, 116, 135, 229
 - and private insurance, 362
 - and social insurance, 362
 - claims against, 230
 - classes in capital investment, 200
 - present value of, 229
 - redistribution of claims against, 236
 - stochastic disturbance, 231
 - systematic change, 231
- Asset and liability
 - discrepancy in maturity, 344
 - maturity matching, 344
- Asset-liability ratio
 - and globalization, 395
- Asymmetric information
 - and adverse selection, 265, 291, 417
 - and adverse selection and moral hazard combined, 311
 - and cost of acquiring information, 265
 - and observability of behavior, 287
 - and rationing of coverage, 295, 304, 356
 - basic assumption, 266
 - concerning preventive behavior, 266
 - concerning risk type, 266
 - moral hazard, 265, 417
- Banks, 6, 8
- Barriers to entry, 79
- Bernoulli principle, 36, 38, 74
- Beta
 - of firm's assets, 140
 - of insurance company, 225
 - of security, 125, 126, 128, 224
 - of underwriting, 140, 143, 144, 225, 226
- Binary prospect, 41, 45
- Black-Scholes formula, 232
- Broker, 173, 175
- Call option, 134
- Capital asset pricing model, 124, 128, 222
 - applied to insurance, 226, 228
 - critique of, 228
- Capital investment policy, 197, 198
 - and funding rate, 199
 - and optimal liability hedging, 202
 - asset-only optimization, 201
 - efficiency frontier of, 199
- Capital market, 111, 224, 225
 - and alternative risk transfer, 414
 - and return on investment, 342
 - and risk diversification, 116
 - efficient, 233

- equilibrium on, 129
 - regulation of, 343
- Capital market line, 123, 124, 127
- Capital user cost
 - and capital asset pricing model, 247
- Cash-flow underwriting, 166, 223
- Catastrophic event
 - and copulas, 410
 - frequency of, 408
 - severity of, 408
- Catastrophic risk
 - and alternative risk transfer, 413
- Certainty equivalent, 39, 42, 43
 - of option value, 191
- Certainty line, 78, 300
- Certainty preference, 35
- Chebyshev's inequality, 215
- Claim
 - aggregate, 211, 212
- Claim process, 207
 - and loss distribution, 206
 - uncertain amount of a claim, 206
 - uncertain number of claims, 206
- Coefficient of variation, 217
- Combined ratio, 144
 - in life insurance, 158
 - in non-life insurance, 158
- Comparative-static analysis, 90, 92, 192, 273, 277, 286, 382
- Competition, 178
 - and market equilibrium, 279
 - and no information exchange, 279
 - and product innovation, 421
 - prohibition of collusion, 422
- Consequence, 36, 74, 75
 - death, 29, 32
 - severity of, 29
 - subjective valuation of, 34
 - valuation of, 36, 74
- Consumer surplus, 9, 302
 - affected by regulation, 329
- Consumer's optimum, 80
- Contingent claim, 74
- Contract
 - pooling, 293, 295
 - pooling, first period, 307
 - renegotiation-proof, 304, 307
 - separating, 296, 298, 304, 355, 402
 - separating, implementation of, 298
 - separating, open to challenge, 298
 - separating, second period, 307
 - type of, 86
- Convolution, 405
- Copula
 - and catastrophic events, 410
 - and lower tail dependence, 412
 - and tail dependence, 416
 - and upper tail dependence, 412
 - and "value at risk", 412
 - for combining distribution functions, 412
- Corporate demand for insurance, 139
- Correlation
 - between catastrophic events, 411
 - between deviations of benefits, 370
 - between returns, 117, 119, 120
 - between returns on assets and liabilities, 236
 - between risk units, 112
 - between risks in the tails, 411
 - between securities, 120
 - between total and retained loss, 187
 - coefficient, 119
 - degree of coverage and losses paid, 266
 - instantaneous, 231
 - lack of, 120
 - of catastrophic risks, 410
 - of losses, 185
 - with market portfolio, 124
- Cost of capital, 129, 140, 141, 199
- Cost-benefit analysis, 61, 62
 - human capital approach, 63
 - willingness-to-pay approach, 63
- Cost-effectiveness analysis, 62
- Cost-utility analysis, 62
- Cumulative distribution function
 - joint, 412
 - partial, 412
- Data envelopment analysis, 244, 256
 - and economies of scale, 256
 - and economies of scope, 244
 - and efficiency measurement, 256
 - applied to life insurance, 244
 - applied to non-life insurance, 244
 - compared to stochastic frontier analysis, 256
- Deadweight loss
 - due to adverse selection, 302
- Decision rule under uncertainty, 73
 - expected utility criterion, 74
- Decision under uncertainty, 36, 37
- Deductible, 86, 95
- Demand for insurance, 15, 76, 82
 - and degree of coverage, 91
 - and capital asset pricing model, 143, 145
 - and degree of coverage, 90

- and genetic information, 399
- and imperfect agency, 146
- and one-person households, 418
- and premium rate, 89
- and prevention, 101
- and quasi rents, 147
- and risk aversion, 88
- and sunk costs, 147
- corporate, 141
- degree of coverage, 96
- dependent on price, 18
- dependent on wealth, 15
- excessive coverage, 99
- full coverage, 88, 97
- household, 72
- income elasticity of, 19, 20
- irreplaceable asset, 81–83
- multiple risks, 96
- no coverage, 86, 88, 100
- partial coverage, 88
- price elasticity, 19, 20, 207
- Demand for reinsurance
 - and correlation between investments and claims, 193
 - and cost of insolvency, 189
 - and leverage, 193
 - and “longer-tail” lines, 193
 - and surplus, 191
 - and taxation, 192, 193
 - based on option pricing theory, 188, 189, 194–196
 - empirical evidence, 194–196
 - funds generating factor, 190
- Demographic change
 - aging of population, 416
 - and demand for insurance, 418
 - and life cycle decisions, 418
 - and life insurance, 419
 - and one-person households, 418
 - and social insurance, 419
 - challenge to insurance, 416
 - life expectancy, 416
- Dependent agent, 176
- Deregulation, 222
 - and capital asset pricing model, 406
 - and economies of scope, 406
 - challenge to insurance, 406
 - in the European Union, 322
 - in the United States, 332
- Derivative, 132
- Direct selling, 173
- Direct writer, 171
 - insurance technology, 170
