Editors

Professor Jie Lu is the Head of School of Software in the Faculty of Engineering and Information Technology, and the Director of the Decision Systems and e-Service Intelligence Research Laboratory in the Centre for Quantum Computation & Intelligent Systems at the University of Technology, Sydney (UTS). She received her PhD from Curtin University of Technology in 2000. Her main research interests lie in the area of decision making modeling, decision support system tools, uncertain information

processing, recommender systems and e-Government and e-Service intelligence. She has published five research books and 270 papers in refereed journals and conference proceedings. She has won five Australian Research Council (ARC) discovery grants, an Australian Learning & Teaching Council grant, and 10 other research and industry linkage grants. She received the first UTS Research Excellent Medal for Teaching and Research Integration in 2010. She serves as Editor-In-Chief for *Knowledge-Based Systems* (Elsevier), Editor-In-Chief for *International Journal on Computational Intelligence Systems* (Atlantis), editor for book series on *Intelligent Information Systems* (World Scientific) and proceedings series on *Computer Engineering and Information Science* (World Scientific), and has served as a guest editor of six special issues for international journals, as well as having delivered five keynote speeches at international conferences.

Professor Lakhmi C. Jain is a Director/Founder of the Knowledge-Based Intelligent Engineering Systems (KES) Centre, located in the University of South Australia. He is a fellow of the Institution of Engineers Australia.

His interests focus on the artificial intelligence paradigms and their applications in complex systems, art-science fusion, e-education, e-healthcare, unmanned air vehicles and intelligent agents.

Guangquan Zhang is an Associate Professor and co-Director of the Decision Systems and e-Service Intelligence Research Laboratory in the Centre for Quantum Computation & Intelligent Systems in Faculty of Engineering and Information Technology at the University of Technology Sydney (UTS), Australia. He has a PhD in Applied Mathematics from Curtin University of Technology, Australia, and been awarded an Australian Research Council (ARC) QEII Fellow (2005-2010). He was with the Department of Mathematics, Hebei University, China, from 1979 to 1997, as a Lecturer, Associate Professor and Professor. His main research interests lie in the area of multi-objective, bilevel and group decision making, decision support system tools, fuzzy measure, fuzzy optimization and uncertain information processing. He has published four monographs, four reference books and over 200 papers in refereed journals and conference proceedings and book chapters. He has won four ARC Discovery grants and over 10 other research grants. He has served as a guest editor of three special issues for international journals.
