
Subject Index

A

activation domain 33
alternatively spliced Env mRNA 114
assembly 90–94, 96–99, 105

B

B/D-type 90, 93
Bet 115
– protein 43, 47
Bovine Foamy Virus (BFV) 197–198,
200, 204–207
budding 117, 119, 122–124, 126
– domain 123–124
– process 122

C

cap site 34, 36–37, 42
capsid assembly 122
CASII 104
cell surface expression 118, 122
cis-acting packaging sequence 103
cleavage product 113, 115, 123
constitutive mRNA transport element,
CTE 46
Cys-His box 92, 104
cytoplasmic targeting-retention
signal 93

E

Equine Foamy Virus (EFV) 116–117,
198–199, 201, 203–207
Env-Bet Fusion Protein 116
Env cell surface transport 117
Env-Bet protein 115–116
Env-ORF-2 116
ER 96, 98, 105

– retrieval signal 117–118, 123, 125
Experimental infection 162

F

Feline Foamy Virus (FFV) 116,
197–198, 200–201, 203–207
fusion activity 117, 120–121
– peptide 117, 120–121
– – 112, 117, 123–124, 126
FV Env 112–114, 117–118, 120–126

G

Gag 91, 93–94, 96, 98–99, 102–105
– cleavage 73–75, 77
Gag-Env interaction 97
Gag Gag interaction 92, 98
genomic transcript 43–44, 47
gp48TM 116
gp80SU 116
gp130Env 112, 115–117, 119–122,
124–126
gp170Env-Bet 115
GR boxes 94, 104

H

hepadnavirus 96, 100, 104–105

I

I domain 92–93, 96
immune response 162, 171–173, 175
internal promoter 29, 51–52

L

L domain 92, 96
leader peptide (LP) 117–119, 123–124,
126

M

M domain 92, 94
membrane fusion 120–121

N

nuclear export 45–46, 52
– localization signal 94
– retention 44, 46–47

O

oligomeric organization 119

P

p57Kip2 34, 49–50
Packaging Cell Line 146
– signal 141, 145–146
particle-associated glycoprotein 116
phylogenetic difference 162
precursor glycoprotein 113, 121, 124
protease 63–64, 66, 68–69, 79, 81,
83–84
Proteolytic processing 64, 73, 75–78,
80, 83–84
proviral integration 13–14
 ψ -helix domain 121

R

retro sequence 121
retroviral vector 132, 134, 139–141,
146, 150
Reverse Transcription 2, 4–5, 8, 10, 13
Rex protein 44, 46, 51–52

S

Simian Foamy Virus (SFV) 181–182
subviral particles (SVP) 124

T

Tas binding site, TBE 29, 34
– response element, TRE 29, 35–36
– transactivator 31, 34, 36, 38–39, 43,
45, 49, 53

V

viral DNA 4, 6, 8–10, 12
– particle release 122
– RNA 7
virus-like particle (VLP) 122
