

---

## Subject Index

- ACE-inhibitors 33
- ACTION 58
- activation, neurohormonal 22
- afterload 34
- amlodipine 57
- angina pectoris 22
- arginine vasopressin 41
- arteries
  - coronary 9
  - internal mammary 9
- asynchrony 38
- atrial natriuretic factor 41
  
- bioavailability 16
- blood flow, myocardial 26
- blood pressure 20
- calcium channels, L-type 5
- calcium overload 26
- circulation, coronary 22
  
- DEFIANT I 48
- DEFIANT II 48
- depolarisation 6
- diltiazem 57
- dobutamine echocardiography 27
- Doppler flow 48
- dysfunction
  - diastolic 26
  - endothelial 9
  - left ventricular 31
  - systolic 33
- echocardiography 48
- ejection fraction 33
  - regional 38
- endothelin (ET-1) 2
- exercise capacity 51
  
- function
  - global 35
  - left ventricular 26
  - regional left ventricular 35
- heart failure, congestive 21
- heart rate 19
- hypertension 10
- hypertrophy, left ventricular 42
- hypoperfusion 30
  
- infarction, myocardial 25
- ischemia, myocardial 34
  
- L-type calcium channels 5
  
- muscle, vascular smooth 19
- myocardium
  - hibernating 31
  - viable 25

- nicardipine 37
- norepinephrine 41
  
- peak filling rate 36
  - regional 38
- perfusion, myocardial 40
- pharmacokinetics 17
- plasma renin 41
- positron emission tomography (PET) 25
  
- relaxation rate 38
- remodeling, ventricular 43
  
- selectivity
  - vascular 2
  - tissue 3, 7
- single photon emission computed tomography (SPECT) 25
  
- viability 25
  
- wall motion 29
