

## 6 Subject Index

- Abcess of the liver 70
- Acoustic window 94, 114
- Acoustic shadow 27, 28, 35, 100
- Acute pancreatitis 132
- Adenoma of the liver 70
- Arantius fissure 37, 56
  
- Bidimensional sonography 12, 34
- Biliary lithiasis 99, 105, 106
- Biliary tract 89
  - dilatation 98, 102
  - drainage 102
  - , technical exploration 93
  - , traps in exploration 96
  - , ultrasound findings 94
- Blind zone 53
  
- Calcifications of the pancreas 121, 122, 130
- Calculus
  - biliary 99
  - , common bile duct 106
  - , gallbladder 100, 105
  - pancreatic 119
- Cancer
  - , common bile duct 102, 107
  - , gallbladder 102, 105
  - , hepatocarcinoma 83
  - , hilum 102, 108
  - , liver metastases 75
  - , pancreas 124
- Chronic pancreatitis 119, 130
- Common bile duct
  - , anatomy 89, 111
  - , cancer 102, 107
  - , lithiasis 100, 106
  - , technical exploration 93
  - , ultrasound findings 94
- Cystic duct 92
- Cysts of the pancreas 119, 124, 130
  
- Echo amplitude 10
- Echogenicity 27, 34, 35
  
- Echotomography 12
  - , real-time 14
- Endocrine pancreatic tumors 128, 131
- Exocrine pancreatic cancers 124, 130
  
- Falciform ligament 53, 40, 47
- Focal nodular hyperplasia 70
- Focusing 19
  - , electronic scanning 23
  
- Gain 10-32
- Gallbladder
  - , anatomy 92
  - , cancer 102, 105
  - , lithiasis 100, 105
  - , technical exploration 93
  - , ultrasound findings 94
- Gastrinoma 131
  
- Hemangiomas 70
- Hepatic
  - artery 44, 54
  - veins 46, 54, 83
- Hepatic hilum
  - , anatomy 89
  - , cancer 102
  - , ultrasound finding 96
- Hepatic metastases
  - , applications in treatment 78
  - , ultrasound findings 75
- Hepatic pedicle 91, 94
- Hepatocarcinoma 83
  
- Impedance 4
- Insulinoma 128, 131
- Interface 4
- Intrahepatic biliary ducts 44, 54, 96
  
- Ligamentum tenes 37, 56
- Ligamentum venosum 37, 56

Liver

- , benign lesions 70
- , echostructure 54
- , guided puncture 59
- , hepatocarcinoma 83
- metastases 75
- segmentation 42
- , sonographic anatomical sections (atlas) 48
- , technical exploration 53, 56

Metastases (liver)

- , application in treatment 78
- , ultrasound findings 75

Pancreas

- , acute pancreatitis 132
- , calculus 119
- , chronic pancreatitis 119, 130
- cysts 119
- , echostructure 116
- endocrine tumors 128, 131
- endocrine cancer 124, 130
- , technical exploration 114
- , ultrasound findings 115

Pancreatic ducts

- , anatomy 110
- , dilatation 124
- , echography 115, 119
- , puncture 124

Portal veins 44, 54, 94, 111, 115, 127

Probe

- , mechanical scanning 14
- , electronic scanning 14
- , intraoperative 30

Puncture

- , biliary tract 102
- , liver 59
- , pancreatic duct 124
- , pancreatic tumor 125, 131
- technique and material 32

Recess of Rex 44

Reflection 4, 5, 7

Reinforcement (posterior) 27

Resolution

- , axial 22, 23
- , spatial 19, 25

Scanning mode

- , linear 14
- , sectorial 14
- Scale of gray 11
- Sludge 100, 105
- Sonography
- , A mode 7
- , bidimensional 12
- , B mode 7, 11
- , real-time 12

Stones

- , biliary 99
- , common bile duct 106
- , gallstones 100, 105
- , intrahepatic 105
- , pancreatic 119

Technical exploration

- , biliary tract 93
- , liver 53, 56
- , pancreas 114
- Transducer 7
- Tumor thrombus
- , hepatic vein 83
- , portal vein 127

Ultrasound 4

- , acoustic energy 21
- , beam 16
- , emission 7
- , frequency and pulse 4, 20
