CONTENTS

	Page
Preface	3
1. Introductory Remarks	5
2. Fundamentals	7
2.1. Geometry of Masses	7
2.2. Classification of Gyros	10
2.3. Kinematic Relationships	14
2.4. Kinetic Relationships	18
3. The Interactions of Forces and Motions in a Gyro	21
3.1. Gyros influenced by Gravity	22
3.2. Self-excited Gyros	27
3.2.1. Self-excited symmetrical Gyros	28
3.2.2. Excitation by means of Torque Pulses	30
3.2.3. Unsymmetrical Gyros	31
3.3. Externally excited Gyros	33
4. Gyrostats and Cardanic Suspended Gyros	36
4.1. Gyrostats	36
4.1.1. The Equations of Motion of the Gyrostat	37
4.1.2. The Symmetrical Gyrostat without External Torques	40
4.1.3. Externally Excited Motions of Symmetrical Gyrostats	42
4.2. The Cardanic Suspended Gyro with a Symmetrical Rotor in- fluenced by Gravity	43
4.2.1. The General Solution	45
4.2.2. The Stability of the Cardanic Suspended Gyro when the Rotor Axis is vertical	49
4.3. Remarks about the Cardanic Suspended Gyro with an Unsymmetri- cal Rotor	52

5. Gyro Systems	55
5.1. Equations of Motion	55
5.1.1. Equations of Motion of the Lagrangian Type	55
5.1.2. The Equations of Motion according to Kelvin and Tait	58
5.1.3. Equations of Motion of the Eulerian Type	62
5.2. Approximations	65
5.2.1. Small Oscillations of Gyro Systems	65
5.2.2. Systems with Fast-Running Gyros	68
5.3. The Transient Behaviour of Gyro Systems	72
5.3.1. Theorems about the Stability of Linear Systems	72
5.3.2. The Dependency of the Eigenfrequencies on the Angular Mo- mentum	81
6. Friction Effects	88
6.1. The Effects produced by Friction in the Case of a Cardanic Suspended Gyro	88
6.1.1. Nutations in the Presence of Coulomb Friction	89
6.1.2. Gyro Collapse	92
6.2. Friction Effects in Gyros rotating on a Horizontal Plane	95
6.2.1. The Equations for the Toy Top	96
6.2.2. The Stability Conditions for the Toy Top	99
6.2.3. Conclusions from the Stability Diagram	102
7. Kinetic and Kinematic Indication Errors in Gyroscopic Instruments	104
7.1. Oscillation Effects	104
7.1.1. Effects of Gimbal Inertia	104
7.1.2. Pulsating Drive of the Rotor	114
7.1.3. The Effects of Elastic Deformation	115
7.2. Kinematic Indication Errors in Cardanic Suspended Positional Gyros	119
8. The Tuning of Gyroscopic Instruments	123
8.1. Pendulum and Gyro Pendulum	123
8.2. Gyro Platforms	132
8.2.1. The Tuning of a Synthetic Pendulum	133
8.2.2. The Horizontal Plattform Controlled by a Servo Loop	136
