

The Executive Board of the Kurt Gödel Society

President:

Daniele Mundici
Università degli Studi di Milano
Dept. of Computer Science
via Comelico 39-41
I-20135 Milano

Archivist:

Hans-Dominik Schwabl
Universität Wien
Fachbibliothek für Mathematik
Strudlhofgasse 4
A-1090 Wien

Vice President:

Alexander Leitsch
Technische Universität Wien
Institut für Computersprachen 185/2
Resselgasse 3/I/3
A-1040 Wien

Chairman of the Organizing
Committee of the lecture series
"Collegium Logicum":

Helmut Veith
Technische Universität Wien
Institut für Informationssysteme 184/2
Paniglgasse 16
A-1040 Wien

Secretary:

Karin Hörwein
Technische Universität Wien
Institut für Computersprachen 185/2
Resselgasse 3/I/3
A-1040 Wien

Members at Large:

Maurice Boffa
Université de l'État à Mons
Ministère de l'éducation nationale
17, Place Warocque
B-7000 Mons

Deputy Secretary:

Klaus Dethloff
Universität Wien
Institut für Philosophie
Universitätsstraße 7
A-1010 Wien

Georg Gottlob
Technische Universität Wien
Institut für Informationssysteme 184/2
Paniglgasse 16
A-1040 Wien

Treasurer:

Albert Kriegshaber
Technische Universität Wien
Institut für Computersprachen 185/2
Resselgasse 3/I/3
A-1040 Wien

Martin Goldstern
Technische Universität Wien
Institut für Computersprachen 185/2
Resselgasse 3/I/3
A-1040 Wien

Deputy Treasurer:

Matthias Baaz
Technische Universität Wien
Institut für Algebra und diskrete
Mathematik 118/2
Wiedner Hauptstraße 8-10
A-1040 Wien

Call for Papers and Instructions to Authors

Besides invited papers and articles directly communicated by the Editorial Board, the Annals of the KGS also publish submitted research or survey papers, as well as short research notes and reviews.

The Annals welcome contributions in the areas of mathematical logic, philosophical logic, computational logic, theoretical computer science, philosophy of physics, knowledge representation, history of logic, and related fields.

Papers submitted for publication must be original and should not be submitted elsewhere. Three copies of the submitted paper should be sent to the Editor in Chief or to any appropriate member of the Editorial Board. The Editorial Board consists of the members of the Executive Board of the Kurt Gödel Society, the Editor in Chief is Alexander Leitsch, the Managing Editor is Katrin Seyr.

Preferably, manuscripts should be written in English, but French and German are admitted too. Manuscripts should be formatted in LaTeX with the macro package llncs.sty available from <http://logic.tuwien.ac.at/kgs/annals.html> or by e-mail from kgs@logic.tuwien.ac.at. Otherwise, final versions of accepted manuscripts should comply with the format instructions available from the Kurt Gödel Society, Technische Universität Wien, Institut für Computersprachen E 185/2, Resselgasse 3/I/3, A-1040 Wien.

Electronic submissions in postscript format are also welcome. They should be sent to leitsch@logic.tuwien.ac.at with an accompanying email explaining to which member of the Editorial Board they are directed.

All submissions are refereed by peer scientists. It is understood that the submission of a paper is approved by all its authors and that all authors of the paper agree to grant the copyright for this paper in its widest sense to the publishing company publishing the Annals of the KGS.

Collegium Logicum

Annals of the Kurt Gödel Society

Collegium Logicum covers a wide range of topics ranging from mathematical to philosophical logic, including logic in computer science, physics and philosophy of science. All articles are carefully refereed to guarantee a high level of scientific content and presentation. The main policy is to publish new results in a style combining mathematical precision with conceptual depth.

Vol. 1

1995. 2 figures. VII, 122 pages.

Soft cover DM 64,-, öS 450,-

ISBN 3-211-82646-7

Contents: P. Vihani: The Last Months of Gerhard Gentzen in Prague. - F.A. Rodríguez-Consuegra: Some Issues on Gödel's Unpublished Philosophical Manuscripts. - D.D. Spalt: Vollständigkeit als Ziel historischer Explikation. Eine Fallstudie. - E. Engeler: Existenz und Negation in Mathematik und Logik. - W.J. Gutjahr: Paradoxien der Prognose und der Evaluation: Eine fixpunkttheoretische Analyse. - R. Hähnle: Automated Deduction and Integer Programming. - M. Baaz, A. Leitsch: Methods of Functional Extension.

Hans Hahn

Gesammelte Abhandlungen / Collected Works

Leopold Schmetterer, Karl Sigmund (Hrsg./eds.)

Mit einem Geleitwort von / With a Foreword by Karl Popper

Like Descartes and Pascal, Hans Hahn (1879-1934) was both an eminent mathematician and a highly influential philosopher. He founded the Vienna Circle and was the teacher of both Kurt Gödel and Karl Popper. His seminal contributions to functional analysis and general topology had a huge impact on the development of modern analysis. Hahn's passionate interest in the foundations of mathematics, vividly described in Sir Karl Popper's foreword (which became his last essay) had a decisive influence upon Kurt Gödel. Like Freud, Musil or Schönberg, Hahn became a pivotal figure in the feverish intellectual climate of Vienna between the two wars.

Bd. 1 / Vol. 1: 1995. XII, 511 pages. Cloth DM 198,-, öS 1386,-. ISBN 3-211-82682-3

The first volume contains Hahn's path-breaking contributions to functional analysis, the theory of curves, and ordered groups. These papers are commented by Harro Heuser, Hans Sagan, and Laszlo Fuchs.

Bd. 2 / Vol. 2: 1996. Approx. 480 pages. Cloth DM 198,-, öS 1386,-. ISBN 3-211-82750-1

The second volume of Hahn's Collected Works deals with functional analysis, real analysis and hydrodynamics. The commentaries are written by Wilhelm Frank, Davis Preiss, and Alfred Kluwick.

Bd. 3 / Vol. 3: Approx. 480 pages. ISBN 3-211-82781-1. Will be published in Fall 1996.

In the third volume, Hahn's writings on harmonic analysis, measure and integration, complex analysis and philosophy are collected and commented by Jean-Pierre Kahane, Heinz Bauer, Lutger Kaup, and Wolfgang Thiel. This volume also contains excerpts of letters of Hahn and accounts by students and colleagues.

Subscription price (only valid when taking all three volumes): 20 % price reduction
