

Index

A

Advanced emotion, 223–230
Affects, 3, 4, 7, 12
Agents, 208
Aggression, 23
Animal emotions, 278
Animal personality
 coding, 72
 rating, 72, 73
Anthropomorphic, 71
Apes, 113–126
Arginine vasopressin (AVP), 27
Arginine vasotocin (AVT), 28
AVP. *See* Arginine vasopressin (AVP)
AVT. *See* Arginine vasotocin (AVT)
Awareness, 125

B

Beauty, 130–132, 144, 146–147, 151, 156
Binary notation, 266, 267, 272–273, 275
Bonobo, 116
Brain-imaging, 68, 69

C

Category, 132, 137, 139, 146, 147
Chimpanzee, 116
Cichlids, 24
Clade, 125
Co-construction, 125
Code, 271, 272, 274–275
Coding, 123
Cognitive processing, 50
Comparative, 279
Comparative cognition, 129–157

Comprehension, 121

Computers, 266, 267, 271–273, 275
Concept, 130–132, 142, 145–147, 149
Conscious, 278
Consciousness, 245–264
Consonance, 134, 139, 140, 142
Continuities, 114
Cultural scaffolding, 115

D

Darwin, C., 64, 66
Darwinian aesthetics, 131, 132
Declarative, 123
Developmental cybernetics, 208
Discriminative property, 129, 132, 145–146
Dissonance, 134, 139, 140

E

Emotional awareness, 165–198
Emotional phenotype, 3, 4
Emotional reflection, 278
Emotional responses, 50
Emotions, 87–106, 207–220
 behavioral measures (*see also*
 expressions of dolphin emotion)
 facial expressions, 68–70
 postures, 69, 70
 vocalizations, 69, 70
 definition, 64, 65, 72, 80
 expression, 63–80
 lateralization of, 70, 71
 physiological measures
 brain-imaging, 68, 69
 heart-rate, 68, 69

Emotion symbols, 113–126
 Episodic memory, 245–264
 Evolution, 245–264
 Experimental aesthetics,
 130–133
 Expressions of dolphin emotion
 facial, 69
 postural, 76
 S-posture, 75, 76
 tactile, 76
 vocalizations, 74, 75

F

False-belief task, 208
 Functional autonomy, 133, 152,
 154–157
 Functional neuroimaging, 223–225

G

Generalization, 138–142,
 145–149
 Gesture, 118
 Global, 147, 148
 Goal-directed actions, 211
 Grey parrots, 49
 Grief
 in dolphins, 71, 77
 in elephants, 77

H

Happy, 114
 Hurt, 114

I

Internal state, 114
 Isotocin, 28

K

Keyboard, 117

L

Language, 266–269, 271–275
 Lateralization of emotion, 70
 Lexigrams, 117
 Local, 135, 147–150

M

Mad, 114
 Medial prefrontal cortex, 166, 172–174, 196,
 224–226, 228, 230–232, 235, 237,
 238
 Memory, 265–275
 Mentalizing, 207–220
 Mesotocin, 28
 Motor skill, 129, 131, 132, 151, 152, 154–157
 Music, 130, 132–144, 151, 155, 157

N

Negotiation, 125

O

Oxytocin, 27

P

Personality, 223–238
 Phylogenetic contingency, 151
 Play, 87–106
 Play signals, 95, 98–102
 Positive affect, 96, 105, 106
 Positive emotion, 88, 93, 95, 96, 103, 106
 Primary emotions, 115
 Primates, 114, 167, 174, 175, 178–183, 185,
 190–193, 195, 196

R

Reinforcing property, 129, 130, 132–137, 143,
 144, 155–157
 Representation, 152–154
 Robot, 279

S

Scared, 114
 Secondary emotion, 115
 Self-recognition, 218
 Self-reinforcement, 130, 133, 143, 152,
 155–157
 Sensory reinforcement, 130, 132, 133,
 144, 157
 Social interaction, 49
 Social organization, 278
 Social play, 88, 90, 91, 93, 95–100, 103, 105
 Symbolic capacity, 115

T

Teleost, 23–42

Temperament, 3, 4, 13–14

Theory-of-mind, 174, 178, 209, 224, 225, 228,
230–232, 234–237

Tinbergian levels, 4

U

Uncanny valley, 279

V

Value based words, 114
