

Index

A

- Abduction, 56, 88–94, 96, 98–103, 227, 235–236, 291
- Abductive belief expansion, 88–90, 92–93, 99, 102
- Aggregate functions, 35
- AGM, 1–40, 44, 51, 68–71, 77–88, 90–91, 97–98, 105–106, 112, 114, 116, 120–122, 128–134, 163, 166–167, 174, 182, 184, 199, 207–208, 216–219, 222–224, 249, 256–260, 263, 266, 303, 305, 320–326, 355
- Arrow, Kenneth, 163, 171, 174, 207
- Artificial Intelligence (AI), 1–40, 98, 352–353

B

- Bayesian decision theory, 47
- Bayesian network, 340
- BDI, 24, 325, 352–356
- Bdi-stit logic, 305–326
- Belief
 - base revision, 77, 79–83, 87, 98
 - set, 50–51, 54, 105, 121, 174, 182, 184, 186, 188, 190, 198–199, 201–203, 205, 215–226, 236, 245, 249, 254, 256–257, 259, 265, 320–324, 326, 333, 341, 353
- Branching-time, 305, 307–309, 318
- Bush, George W., 329, 331, 338

C

- Choice space, 168–170, 172, 176, 178, 184–185, 200
- Climate change, 329–342
- Closure, 20, 60, 78, 82, 84, 88, 105–106, 111, 117–120, 122–124, 127, 155–162, 174, 179, 182, 198, 220, 239, 256, 318, 320–322
- Coherence theory, 330, 341
- Collection function, 216–223
- Conceptual closure, 155–162

- Conceptual space, 137–152
- Conjunctive Inclusion, 26
- Conjunctive overlap, 78
- Consensus merging function, 223
- Constraint, 14, 109–110, 129, 138, 143, 171, 177–179, 181, 191, 199, 207, 210, 236, 238, 334, 336, 339
- Contraction
 - core-protecting, 130
 - safe, 4, 7–8, 39
- Corrigibilism, 284–288
- Corroborated net, 123–127, 130
- Corroboration, 115, 123–131, 134
- Counterfactual conditional, 69
- Cut rule, 234, 238

D

- Database updating, 1, 13–16, 19, 22, 29
- Davidson, Donald, 289
- Decision theory, 38, 47, 164, 241, 337
- Deliberate expansion, 85, 90–91, 291, 295
- Description logics, 32, 37
- Desideratum, 229–230, 241
- Desire, 59, 177, 305–307, 353
- Disjunctive Overlap, 183
- Doxastic commitment, 284, 289–294, 297–299
- Dynamic doxastic logic (DDL), 106, 116, 304
- Dynamic epistemic logic, 305
- Dynamic modal logic, 107, 304

E

- ECHO, 332–336, 338–340
- Empirical claim, 107–113, 116–117, 128, 131, 140, 144–145
- Empirically progressive problemshift, 61
- Entrenchment, 8, 15, 17, 21, 28–29, 32, 39, 78–81, 98, 106, 114, 121–122, 128, 130, 133–134, 162, 215–217, 222, 225, 249, 251, 255, 261–263, 265
- Epistemic dictator function, 220

- Epistemic logic, 303, 305
 Epistemic majority voting function, 221–222
 Epistemic state, 105–106, 131, 161–162, 214, 216–218, 220, 222–223, 225, 265
 Expansion, 23, 31, 33, 35–36, 51–53, 55, 77–80, 84–85, 88–102, 105–106, 111–112, 115, 119–120, 128–129, 131–134, 139–140, 147, 161, 182, 218, 225–226, 228–229, 236–241, 243–245, 248–250, 256–257, 280–282, 286–287, 290–292, 294–296, 304–305, 320–322, 325–326, 334–335, 340
 Explanation, 8, 49–50, 52–53, 56–57, 62, 64–67, 72, 88–90, 93, 95–96, 99–102, 162, 193, 207, 262, 293, 332, 335, 337, 342
 Explanatory coherence, 330, 332–342
 Extensionality, 78, 89–90, 93–94, 96, 106, 120, 182, 198, 258, 260
 Extensive form, 226–227, 242–243, 247
- F**
 Factual abduction, 91, 93, 98–100
 Factual conditional, 69–70
 Fallback theory, 261
 Fallibilism, 284–288
 Falsificationism, 59–60
 Feyerabend, Paul, 59
 Fixation of belief, 48
 Formal learning theory, 33, 81, 86–87
 Fourier, Joseph, 330
 Full belief, 48, 192–193, 269–270, 272–292, 294–300
 Full meet contraction, 5
 Functionalism, 253–255, 264, 267
- G**
 Game theory, 1, 17, 38, 40, 47, 232, 241–242
 General relativity, 146
 Global warming, 329–332, 334–340
 Good successor theory, 65, 67, 70, 72
 Gore, Al, 331–332
- H**
 Hard core, 62, 64
 Hintikka, Jaakko, 17, 226, 228–235, 238, 250
 Holmes, Sherlock, 232, 234
 Homomorphism, 156, 159
- I**
 IMI, 235–236, 250
 Inclusion, 26, 46, 52–53, 78, 88, 105, 118, 123, 125, 127, 151, 168, 182, 191, 237, 239, 243, 257–258
 Incommensurability, 65, 146, 150–152, 160, 213
 Indicative conditional, 279
 Induction, 81, 90, 96, 161, 193, 235, 292, 318–319
 Inductive belief expansion, 96–98
 Inference to the best explanation, 52–53, 56–57, 335
 Informational value, 33, 255, 263–264, 266, 286–287, 291–292, 294, 300
 Integral dimensions, 141–143, 148, 150–151
 Intended applications, 38, 101, 107–117, 125, 130–134, 138, 140–141, 144–145, 148, 226
 Intention, 15–16, 225, 305–307, 353–354
 Interrogative logic, 234
- J**
 Jeffrey, Richard C., 47, 282, 284, 287
- K**
 Knowledge
 base, 2, 8, 16–17, 19, 23, 27–28, 98
 level, 3, 9–11, 18–20, 25–26, 38–39
 as True Full Belief Thesis, 275–276, 295, 296
