Hunting
Middle Pleistocene, 1, 229
by Neanderthals, 2
specialized hunting, 1
Hystrix, H. cf. indica, 225

I
Impact fractures, 97, 230
Invertebrates, 21, 223
See also Crustaceans, crabs; Mollusks

J
Jordan River, 3–4, 6–10, 12, 233
Jordan Valley, 1–2, 27, 231

K
Kill site, 228
Knapping, 4–5, 234
L
Lake
Lake Hula, see Hula Lake/(paleo-)Lake Hula
Margin, 5, 63, 216, 230–232, 247–248
paleo-, 5, 9, 19, 226, 229, 246–247
Lepus, L. capensis, 225
Levant
biogeographical signal of, 223
Levant Corridor, 3, 223–225
Levantine fauna, 223
Lithic
assemblages, 2, 5–6, 12, 223, 232–237, 244–246
taphonomic history, 232–237
techno-typological characteristics, 233
Long bone
abrasion of, 99
breakage, 76–77, 238
cut marks, 75
flake scars, 76
fragments, 19, 38, 49–51, 77, 98, 143, 151, 199, 203, 215, 238
percussion marks, 75–77, 81, 97, 238
striations, 44, 94, 99
See also Striations
Lower Paleolithic, 22, 30–31, 230
Levantine, 22, 31
M
Malacological assemblage, 9, 19
See also Mollusks
Mammalian taxa, 245
African, 6, 21
Eurasian, 6, 21
Marrow
extraction, 1, 44, 75–77, 83, 85, 97, 143, 227–228, 230, 246–247
extraction diagnostic traces, 75
extraction undiagnostic traces, 75
indices, 82
processing, 2, 76
splitting/split, 216
Matuyama-Brunhes Boundary, 5–6, 226
MAU, see Skeletal-element representation
Mauremys caspica, 226, 229
See also Turtle, Chelonians
Meat
drying—biltong, 232
stripped meat, 232
utility indices, 16
Mediterranean
flora, 246
species, 224, 226
Mega fauna, 75–76, 229
Megaloceros
Megalocerine, 31, 224
Megalocerini sp., 21
Megaloceros sp., 21–22, 31–32, 76, 226
MGUI, 16, 65–66, 228
See also Nutritional value
Microartifacts
and fire, 240
basalt, 240, 247
burned flint microartifacts, 83, 240, 242–243
spatial organization, spatial distribution, 240
Micromammalian/Micromammals
Mimomys cf. ostromensis, 225
M. savini-M. ostromensis, 225
Microtus guentheri, 225
Mus macedonicus, 225
Spalax ehrenbergi, 225
Middle Paleolithic, 21
MNE, see Skeletal-element representation
MNI, 15, 45, 47–50, 58, 60–61
ageing, see Age, ageing
sexing, 47
Mobility, 5, 216, 232, 247
Modern humans, 228
Modifications
animal, 18, 70, 87, 227
animal and hominin, 87–88
anthropogenic bone damage, 75
biotic, 67, 227
bone flakes, 75–76
carnivore damage, 19
conical fractures, conical impact fracture, conical impact marks, 190
cut marks, see Cut marks
digested bones, digestion, 68
gnawing, gnaw marks, gnawing marks, 17–18, 101, 226–227
See also Gnawing, gnaw marks
hack marks, 83–84, 246
hominin, 89
hominin-induced, 75, 88
impact marks, 18, 97, 190
jagged edges, 18
microstriations, 18
See also Striations
percussion marks, 18, 75–77, 228, 246
pitting, 17, 68, 157
puncture marks, 18, 192, 208
retouches, 18
scratches, 17
tooth marks, tooth pits, 17
Mollusks
fragmentation, 18, 41, 140, 150, 227
See also Experiments, trampling
Melanopsis, 9, 97–98, 143, 232
scratches, 97
See also Experiments, scratching
Theodoxus, 9, 232
V. apamaea galileea and Bellamya sp., 7, 232
Viviparus, 4, 7, 10, 97–98, 143, 229, 232
Mortality profiles
natural death sites, 2
natural mortality, 2
Mousterian, 21, 230

N
Neanderthals, 2, 228, 230
hunting by, see Hunting
Niche
reconstruction, 225
requirements, 225
NISP, see Skeletal-element representation
Nutritional values
Binford's normed utility indices, 65
Bos sp., 65
correlation with %percussion marks, 66
Dama, 65
See also Dama
deer, 66
elephant, 65
See also Elephant
equids, 66
See also Equus, horse, Equids
GUI (General Utility Index), 66
See also Utility indices
hippopotamus, 65
See also Hippopotamus/Hippopotamus
MGUI (Modified General Utility Index), 65–66
See also Utility indices
of marrow and grease, 65
See also Utility indices
Nuts (cracking), 75

O
Organic remains, 3, 243
Out of Africa, 2–3, 225

P
Pachyderm, 75, 138
See also Elephant, Hippopotamus/Hippopotamus
Paleoclimate reconstruction, 225–227
Paleoecology, 225
See also Climate
paleo-Lake Hula, see Hula Lake/(paleo-)Lake Hula
Palaeoloxodon antiquus, see Elephant
Patina, 236
Pelorovis, 30, 55, 224
P. turkanensis, 30
Percussion mark, 18, 75–77, 81–83, 85, 89, 93, 97, 215, 222, 228, 230, 233, 238, 246
Periosteum
preservation, 110, 199, 205, 209, 231
removal, 97, 100, 113, 115, 117, 125, 138, 143, 182, 190, 192, 199–203, 205–208, 211, 215, 231
Phalanges, 27, 34, 47, 53, 63, 77, 80, 83, 246
splitting, 216, 228
Phantom hearths, 5, 240, 247
See also hearth
Pitted stones, 5, 75
Pollen, 246
Porcupine, 17–18
See also Hystrix, H. cf. indica
post-depositional processes, 16, 232, 236–237, 240, 242, 244, 247
Preservation, see Bone preservation
Prey
Availability, 223
choice strategies, 223
density, 229
exploitation, 223, 231
-predator relationships, 229
Proboscidean, see Elephant
Procavia syriaca, 225
Protein, 2
See also Nutritional values

R
Raw material, 1, 5, 50, 87, 93, 233–236, 240, 242, 247
basalt, see Basalt
flint, see Flint
limestone, see Limestone
of butchering tools, 87
Refitting, 238–240
of bones, 238
See also Conjoining bone fragments
of stone artifacts, 240
Retouch, 18, 237
Return rate, 223
gnawing, see Gnawing, gnaw marks
tooth pits, 87
See also Micromammal/Micromammals
Subject Index

S
Scavenging, 2, 216, 247
  opportunistic scavengers, 1
Scratching, 20, 94
  Experiment, 97–98, 199
Seasonality, 47, 88, 229–230
  season of occupation, 88–89, 245
  seasonal differences, 88
Sedimentology, 1
  sediment composition, 151, 227, 230
  sediment movement, 19–20, 138
  sedimentological setting, 245
Sex profiles, 88–89
Sexual dimorphism, 25
Shell, 5, 19, 94, 99, 143, 150, 199, 203, 240
  preservation, 143
  See also Mollusks
Site formation processes, 1, 2, 63, 93–222, 231–232, 245
Size sorting, 233
Skeletal elements, calculation of
  MAU, calculation, 16
  MNE, calculation, 15, 50
  MNI, calculation, 15, 47, 58, 60
  NISP values, calculation, 15
Social
  behavioral patterns, 232
  interaction, 223
  organization, 1
Spatial distribution, Spatial arrangement, Spatial
  organization
  of burned flint, 242
  of crab remains, 242
  of different raw materials, 242
  of mammal bones, 242
  of microartifacts, see Microartifacts
Spearman’s rho correlations, 66
Specialized hunting, see Hunting
Stone artifacts, see Artifacts, lithic artifacts, flint artifacts
Striations
  agents responsible for, 213
  clusters of, 213
  criteria for differentiating, 70
  experimental studies, 222
  flat-based, 43–44, 95
  formation, 20, 94, 151, 201, 203, 211, 213, 222–223, 227, 231, 247
  See also Experiments, tumbling; Experiments, trampling
  frequency, 44–45, 89, 227, 247
  on buried bones, 231
  “micro-striations”, 43–44
  overlapping, 192, 213
  “peeling striations”, 157
  striated bones, 17, 44–46, 89, 91
  tapering striation, 192
  u-shaped, 44–45, 125, 132
  v-shaped, 157, 165, 171, 203
Subsistence strategies, 1–2, 215, 227–232, 247
  hunting, see Hunting
  marrow-processing, see Marrow
  scavenging, see Scavenging
Sus
  age determination, 53, 89
  period of death, 89
  skeletal elements, 27
T
Taphonomy
  biotic agents, 41
  bone damage, 41, 75
  See also Modifications
  non-biotic agents, 41
  taphonomic agents, 227, 229, 232, 234, 242, 246
  taphonomic biases, 16
  taphonomic experiments, see Experiments
  taphonomic reconstruction, 55
Tectonic activity, 3, 10
Teeth
  age analysis, age determination, 47
  eruption, 15–16, 37, 47, 60
  measurements, 27, 31, 33
  sex analysis, sex determination, 16
  wear, 47, 55
Thanatocoenosis, 41, 70
Transport, 2, 5, 16, 63–64, 215, 228–229, 231, 242, 247
  bone transport, see Bone, transport
  Tumbling experiment, 20, 99–149, 199–203, 205, 230–231
Turtle, 6, 21, 223, 226, 229, 245
  freshwater (Mauremys caspica), 226, 229
  See also Chelonia
U
UNM, 21–22, 41–42, 45–46, 70–71, 73, 75, 90
Upper Paleolithic, 84, 230
Ursus, bear, 21–22, 25, 61, 223, 226
  Ursus sp., 21–22, 25, 226
Utility indices
  Grease utility index, 16
Subject Index

Marrow utility index, 16, 66, 228
Marrow utility index, 16
Modified general utility index (MGUI), 16, 65–66, 228

See also Nutritional values

V
Vertebrates, 21, 223
Viviparus, see Mollusks
Vulpes, 223
Vulpes sp., 21–22, 25

W
Waterlogged deposits, 41
nature, 5, 18, 227
Weathering
around the edges of the bones, 43
climatically induced, 157, 165, 176, 203, 205, 222, 231
post-depositional, 238, 240
See also Bone, preservation; Experiments, trampling
Winnowing, 63, 67, 227, 233, 246
See also Fluvial, transport
Wood, 4–5, 9–10, 12, 237, 243, 246
See also Gesher Benot Ya’aqov (GBY)

Z
Zebra, 28, 66–67, 88
Equus burchelli antiquarum, 29
marrow, 67
