

# Index

## A

- Actuarial (analysis, approach), 14, 16, 26, 32–33, 36, 45, 54, 55
- Adaptive (capacity, management, measure, process), 81, 100, 129, 172, 182, 246
  - Monte Carlo Optimization (*see* Monte Carlo simulation)
- Agriculture, agricultural (activity, damage, exposure), 59, 74, 82, 150–151, 163–164, 166, 167, 173–174, 176, 191–193, 200
- Aid (governmental, external, foreign), 63, 69, 86, 96, 108–109, 120, 125, 126, 133, 137, 149, 160, 166, 207, 211.
  - See also* Financial aid
- Aleatory uncertainty, 10, 15–17, 26
- Attachment point, layer (for risk transfer), 23, 127, 137, 274, 277

## B

- Bac Hung Hai polder, region, 11, 53–54, 59, 63
- Basin (retention, detention), 10, 13, 17, 19, 21, 24, 26, 27, 174
  - River (*see* Tisza river; Vienna river)
- Bereg, 172, 176, 181, 184–196, 220
- Biodiversity, 9, 122, 174, 183, 200
- Bodrogeköz, 176, 183–194, 196
- Bond (catastrophe), 8, 23, 35, 100, 109, 112, 116, 126, 132, 133, 137, 141, 152, 154, 159, 160, 247
- Borrowing (contingent, ex-post), 23, 24, 26, 31, 35, 42, 43, 56, 63, 64, 103, 104, 108–113, 115, 124, 132, 133, 147, 154, 159–160, 181, 185, 189, 194–197, 247, 248, 254

- Business (interruption. losses), 31, 95, 115, 124, 161, 206

## C

- Capital (accumulation, movement, exposed, reserve etc.), 4, 5, 29, 35, 37, 48, 74, 79, 80, 82, 97, 99, 102, 104–106, 108, 109, 113–115, 120–121, 127, 130–131, 133, 137–139, 155–159, 162–163, 167, 173, 246–248, 253, 260
- Caribbean, 14
- Caribbean Catastrophe Risk Insurance Facility (CCRIF), 8
- Cascading events, failures, 6, 30, 249
- Case study, 1, 11, 14, 29, 31, 32, 34, 36, 43–50, 53, 58–60, 76, 82, 84–86, 90, 140, 181–197, 231, 255
- Catastrophe fund. *See* Fund
- Catastrophe insurance. *See* Insurance
- Catastrophe model(s), modeling, 3–11, 13–14, 17, 20, 29, 31, 33–37, 50, 76, 81–84, 113, 115, 118, 122, 165, 171–172, 176–177, 199, 201, 215, 217–218, 245, 247–251, 261, 264–265
- CATastrophe SIMulation (CATSIM), 8, 100, 119–141, 145–167, 264, 265, 278
- Catchment models, 18, 267
- CGE. *See* Computable general equilibrium (CGE)
- China, 75
- Climate change, 4, 5, 8, 18, 30, 120, 121, 131, 171, 172, 174, 177, 182, 236, 263–264, 269–272, 277–278
  - adaptation, 263, 264, 272, 273, 277, 278

- Commerce, commercial service, 164, 167, 173
- Commitment, 76, 88–89, 214
- Compensation  
 and insurance system, 172, 175  
 of losses, 29, 35, 38–39, 45–46, 56, 59,  
 62–63, 66, 77, 81, 85, 170, 172,  
 175–178, 200, 201, 203, 209–213,  
 215, 221–226, 228, 232, 234–235,  
 243, 245–248, 252–253, 255,  
 257, 260
- Complementary Cumulative Distribution  
 Function (CCDF), 10, 17, 26
- Computable general equilibrium (CGE), 96–98
- Concepts of risk, 14–17
- Conditional Value-at-Risk (CVaR), 29, 32, 40,  
 41, 76, 245, 248, 254, 255
- Conflict (resolution), 7–8, 172
- Contingency liability planning, 150, 166
- Contingent credit(s), 29, 31, 35, 39, 126, 132,  
 135–137, 141, 152, 177, 245,  
 247–248, 253–260
- Cost(s)  
 and benefits, 17, 79–81, 86, 87, 89, 119,  
 120, 128, 133, 150, 152, 172,  
 273, 276  
 catastrophe, disaster, 5, 8, 99, 104, 115,  
 124, 150, 232  
 mitigation, maintenance, prevention, total,  
 10, 13, 14, 17, 22–27, 59, 63, 64, 77,  
 79, 84, 89, 135, 152, 175, 237, 246,  
 276–277  
 risk financing, loan, transaction, transfer,  
 8, 24, 31, 35, 39, 48, 123, 124,  
 126, 127, 132, 136, 141, 154, 159,  
 175, 210, 254, 275
- Cost exceedance curves, 24–27
- Creative destruction hypothesis, 99
- Credit(s)(domestic, foreign), 38, 100, 132–134,  
 137, 154, 160, 245, 253, 273.
