

# Index

## A

Abortion data, 136  
Abortion rate, 135–138  
Abortion ratio, 136, 137  
Abridged life table  
    Fergany method, 158, 159  
    Greville method, 158  
Absolute number, 210, 279, 305  
Administrative records, 17, 177, 185  
Age distribution, 7, 47, 51, 70–72, 76,  
    79, 80, 83, 120, 124, 149, 181,  
    183, 238, 243, 244, 256–258, 268,  
    271, 279–281, 284–292, 305  
Age pyramid, 256  
Age ratio, 261  
Age ratio score, 261–263  
Age-sex specific mortality rates, 125, 126  
Age-specific birth rates, 237  
Age specific death rate, 144–147, 150,  
    227, 256  
Age specific fertility rate, 98–101, 103,  
    104, 109, 111, 112, 115–120, 138,  
    284, 305  
Age specific mortality rate, 80, 85, 124–128,  
    135, 143, 144, 146, 279, 286  
Age structure, 247, 266, 279, 297, 305  
AIDS, 140, 242, 299  
Applied demography, 2, 11  
ARIMA, 250  
Arithmetic mean, 29–30, 52, 106, 266, 267

## B

Balancing equation, 59–61, 210  
Basic statistical measures, 21–57  
Birth(s), 1, 7, 26, 59, 97, 123, 144, 173,  
    194, 217, 237, 256, 279, 305

Birth rates, 27, 28, 98, 115, 137, 150, 237,  
    256, 284, 285, 292, 295, 300  
Blended population, 257, 259, 260

## C

Cause specific death rates, 129  
Census survival ratio, 185–186  
Centre of gravity of population, 189–190  
Child to old ratio, 72–73  
Child-woman ratio, 70–71, 244  
Coefficient of determination, 51, 55, 188  
Coefficient of variation, 51  
Cohort-change method, 243–248  
Cohort component method, 4, 236–243, 246,  
    247, 288, 297  
Cohort-progression method, 248–249  
Complete life table, 145–155  
Concentration, 42–47, 74–75  
Constant growth rate, 232  
Correlation, 23, 47–57, 117  
Cross-sectional, 66, 98–103, 123–126, 224  
Cross-sectional approach, 66, 97,  
    100, 126  
Crude birth rate, 98, 115, 150, 284  
Crude death rate, 79–81, 86, 123–124, 129,  
    138, 150, 242  
Crude divorce rate, 196  
Crude marriage rate, 194, 195

## D

Deaths, 1, 7, 26, 59, 123, 143, 173, 194, 215,  
    238, 256, 284, 305  
Deciles, 38–44  
Decrement  
    decrement rates, 215

*De facto*, 9, 10, 12, 15, 174, 197  
*De jure*, 9, 12, 15, 174  
 Demograph(y), 1–4, 7, 11, 28, 59, 66,  
 76, 159, 233, 265, 299  
 Demographic and Health Surveys, 15, 135  
 Demographic events and characteristics  
 analysis, 193–212  
 Demographic information, 3, 4, 7–18, 23  
 Demographic software, 303–306  
 Density, 73–75  
 Dependency ratio, 71–72  
 Descriptive, 23  
 Dispersion, 21, 23, 36  
 Digital preference, 257–261, 305  
 Direct standardization, 77–80, 138  
 Distributions, 1, 7, 23–25, 30, 32–47, 51,  
 70–76, 79–83, 85, 100, 106,  
 113–115, 120, 124, 128–130, 148,  
 149, 176, 181, 183, 196, 206, 238,  
 243, 244, 256–258, 260, 263,  
 265–269, 271, 279–281,  
 284–293, 305  
 Divorce, 10, 15–16, 66, 139, 193–198,  
 224–226  
 Divorce rate, 196–197  
 Doubling time, 64–65

## E

Economic activity, 17, 201  
 Educational attainment, 2, 204–205, 246  
 Elements of demographic analysis, 59–94  
 Employed persons, 247–248  
 Endogenous, 134  
 Enrolment, 17, 187–189, 200, 203, 224,  
 248–249  
 Enrolment ratio, 202–203  
 Epidemiology or Epidemiological, 76, 160  
 Error, 12, 13, 36, 51, 255–256, 265, 266,  
 269, 277  
 Errors of coverage, 12, 255, 256  
 Estimated resident population, 107  
 Expectation of life, 217  
 Expected births, 115, 240  
 Expected deaths, 79, 80  
 Exponential model, 233, 305  
 Exponential population growth rate,  
 62–63  
 Extrapolation, 63–64, 246, 250, 269

## F

Family size, 97  
 Family type, 198, 250  
 Fecundity, 8–9, 97

Fertility, 3, 4, 7–9, 12, 14, 15, 61, 66, 70,  
 77, 82, 83, 97–120, 123, 136, 237,  
 241, 242, 246, 252, 256, 267, 286,  
 288, 289, 292, 297, 299, 305, 306  
 Fertility rates, 66, 98–101, 103–105,  
 108–112, 115–120, 137, 138, 238,  
 240, 241, 252, 284, 285, 289, 305  
 Flow or flows, 4, 10, 59, 65–66, 174, 210–211  
 Foetal mortality, 118  
 Frequency distribution, 23–25, 30, 37, 39, 106

## G

General abortion rate (GAR), 136, 138  
 General fertility rate, 98–100, 111  
 Geometric mean (GM), 30–32, 52  
 Gini coefficient, 42–46  
 Gravity model, 4, 186–189  
 Gross difference rate, 263  
 Gross enrolment ratio, 202–203  
 Gross reproduction rate (GRR), 104, 105,  
 107–110, 285, 295  
 Grouped data, 24, 29, 30, 32, 37, 39–42,  
 107–109  
 Growth rate, 28, 61–63, 65, 150, 200, 210,  
 232, 242, 279, 297  
 GRR. *See* Gross reproduction rate (GRR)

## H

Hamilton-Perry method, 243, 244  
 Harmonic mean, 28, 30–33, 266, 267  
 Headship rate, 199, 200  
 HIV, 140, 242  
 Hours worked, 205, 271  
 Household, 7, 11, 12, 14, 45, 46, 52,  
 198–200, 205, 224, 250, 256, 263  
 Household size, 14, 198–200  
 Household type, 200  
 Human development index (HDI),  
 117, 118, 132, 133

## I

ID. *See* Index of dissimilarity (ID)  
 Immigrants, 59, 60, 174, 175  
 Immigration, 10, 66, 67, 176, 186, 265  
 Incidence of abortion, 118  
 Index of concentration, 74–75  
 Index of dissimilarity (ID), 46–48  
 Index of inconsistency, 265  
 Index of redistribution, 74  
 Index of relative difference (IRD), 47, 48  
 Index of stability, 264  
 Indigenous, 115, 116

Indirect standardization, 78, 80–81, 115  
 Induced abortion, 113, 135, 136  
 Industry, 160, 211–212  
 Inequality, 42–47  
 Infant mortality rate, 134, 135  
 Inferential, 23  
 In-migration, 174, 175, 178, 179, 181  
 Intermediate variables, 118  
 Internal migration, 173–175, 179, 181, 185  
 Interpolation, 63–64, 269–277, 298, 305  
 Interval, 21, 22, 24, 39, 42, 49, 81, 105, 107, 109, 132, 136, 141, 149, 158, 183, 234, 243, 293, 295, 296  
 Intrinsic rate of natural increase (IRNI), 282, 292

**J**

Job creation, 209  
 Joint score, 263

**L**

Labour force, 12, 14, 34, 97, 205–211, 222–224, 227–229, 246, 247, 271  
 Labour force participation rate, 205–208, 222, 223, 247  
 Launch year, 237, 242, 245, 246, 249  
 Life expectancy, 3, 9–10, 66, 140, 143, 144, 148–149, 152, 155, 158, 160, 161, 216–222, 229, 238, 242, 285, 293  
 Life tables, 144, 149–150, 183, 184, 238, 281  
 Linear, 47, 187, 232, 233, 257, 268, 298, 304, 305  
     linear regression model, 53–57  
 Literacy, 201–202  
 Live births, 9, 10, 15, 33, 69, 98–100, 107, 112, 123, 131–136, 147, 177  
 Logarithms, 31, 126, 128, 233, 282, 303  
 Logistic, 3, 233–236, 305  
 Longitudinal, 66, 97, 100–103, 126–128, 224  
 Longitudinal approach, 66, 100, 103, 127

**M**

Marital status, 2, 9, 10, 12, 14–16, 21, 68, 78, 111, 116, 118, 126, 138–140, 159, 194, 197, 206, 277  
 Marriage(s), 3, 10, 15–16, 47, 49, 57, 66, 77, 118, 119, 193–198, 200, 215, 221, 224, 247  
 Marriage rates, 194–196, 224  
 Masculinity ratio, 68  
 Maternal mortality, 130–133

Maternal mortality rate, 131, 132  
 Mathematical models, 232–233, 266  
 Maximum biological fertility, 118–120  
 Mean length of generation, 105–106, 109, 282, 284  
 Median, 23, 29, 32–35, 38–40, 76, 111, 195–197, 212, 266, 298  
 Migration, 1, 2, 4, 7, 10, 12, 16, 17, 28, 61, 66, 83, 103, 107, 138, 144, 145, 149, 150, 160, 173–190, 237–242, 246, 251, 252, 256, 257, 265, 279, 280, 282, 284, 286, 288, 289, 297, 300, 305  
 Migration rates, 174–177, 181, 182, 185, 237–240, 242, 252, 300  
 Mode, 3, 29, 33–35  
 Model life tables, 293–299  
 Mortality, 3, 8, 61, 104, 123, 143, 181, 197, 218, 233, 256, 279, 305  
 MORTPAK, 306  
 Moving averages, 266–267  
 Multiple decrement tables, 3, 215, 216, 222  
 Multipliers, 269–277, 298  
 Multistate life table, 215, 216, 224, 226–229  
 Multistate models, 224–226  
 Myers' index of digital preference, 257, 260, 305

**N**

Neonatal mortality rate, 133, 134  
 Net difference rate, 263  
 Net enrolment ratio, 203  
 Net reproduction rate, 4, 103–105, 109, 282  
 Nominal, 21–23, 25, 29, 36, 47  
 Non-sampling errors, 256

**O**

Occupation, 2, 7, 12, 15, 46, 97, 111, 126, 211–212  
 Occupation classification, 212  
 Ordinal, 21–25, 29, 36, 42, 46, 47

**P**

Parabolic model, 268, 293  
 Parity progression ratio, 113–115  
 Participation, 14, 97, 205–208, 221–223, 247  
 Participation rate method, 247–248, 250  
 Percentage, 23–27, 41, 43, 44, 46, 61, 64, 65, 74, 75, 81–83, 87, 113, 128, 129, 177, 196, 202, 203, 205, 207–208, 210, 260, 261, 263, 277, 285, 290  
 Perinatal mortality rate, 134, 135  
 Population analysis spreadsheets (PAS), 305

- Population census, 12, 17, 110, 145, 197,  
     224, 236, 238, 241, 242, 246, 251  
 Population density, 73–75  
 Population growth rate, 61–65, 232, 242  
 Population projections, 159, 231–252, 297,  
     305, 306  
 Population pyramids, 81–84, 86–84, 256, 305  
 Population registers, 3, 16–17, 145, 174,  
     178, 181, 186  
 Post neonatal mortality rate, 134  
 Potential years of life lost, 140–141  
 Probability, 3, 13, 14, 28, 105, 106, 109,  
     136, 137, 146–147, 155, 183, 215,  
     217, 228, 269, 284, 285, 288  
 Probability of dying, 3, 146–147, 155, 215, 217  
 Probability of surviving, 147  
 Projecting school enrolments, 248–249  
 Proportions, 14, 24–26, 38, 40, 42–45, 51,  
     52, 60, 72, 82, 83, 105, 109, 113,  
     118–120, 128, 129, 132, 133, 136,  
     159, 183, 204, 208, 216, 220, 224,  
     227, 240, 264, 265, 277, 279–281,  
     284–288, 292–296  
 Proximate determinants of fertility, 4  
 Push and pull factors, 2, 186
- Q**
- Quantiles, 36, 38–44, 46  
 Quartiles, 38–43  
 Quasi-stable population, 286  
 Quintiles, 38–46
- R**
- Radix of the life table, 148, 154, 285  
 Random, 14, 126, 256, 266  
 Rate of natural increase, 61  
 Regression, 23, 36, 47–57, 187, 188, 293, 304  
 Response errors, 255, 256, 265  
 Retention, 204
- S**
- Sample surveys, 13–15, 65, 110, 113, 115,  
     128, 145, 194, 205, 255, 260, 299  
 Sampling, 2, 13, 14  
     cluster sampling, 14  
     multistage sampling, 14  
     random sampling, 14  
     stratified sampling, 14  
     systematic sampling, 14  
 Sampling errors, 13, 256, 265  
 Sex ratio, 68–70, 81, 108, 197, 205,  
     212, 256, 261, 262, 284, 289  
 Sex ratio at birth, 69–70, 104, 109,  
     237, 240, 241, 284, 289  
 Sex ratio score, 261–263  
 Socio-economic projections, 246–250  
 Software, 56, 303–306  
 Specific rates, 68–73, 75, 77, 111, 138  
 Spontaneous abortion, 132, 133, 136  
 Sprague's multipliers, 269–271, 276  
 Spreadsheets, 303–306  
 Stable age distribution, 286, 287, 292  
 Stable birth rate (SBR), 284, 285, 292  
 Stable death rate (SDR), 284, 285  
 Stable population, 279–288, 292–300, 305  
 Stable population model, 3, 279–300  
 Standardization, 4, 76–81, 85–86, 115, 138  
 Standardized birth rate, 115  
 Standardized death rate, 138, 139  
 Standardized mortality ratio (SMR), 80  
 Stationary population, 150, 183, 279  
 Still births, 9, 10, 15, 132–134, 136  
 Survival ratio, 159, 183–185  
 Synthetic measures, 66, 103–110, 114
- T**
- Testing the quality and smoothing of  
     demographic data, 255–277  
 Tools for demographic estimation, 305  
 Total abortion rate (TAR), 136–138  
 Total fertility rate (TFR), 66,  
     103–105, 107, 117–119, 137, 138,  
     238, 252
- V**
- Vital events, 3, 4, 7, 9, 16, 66–68, 76,  
     176, 193, 194, 241, 242  
 Vital registration, 3, 299
- W**
- Working life table, 160, 222–224, 228  
 World Fertility Survey, 15
