

ANNOUNCEMENT

THIRD INTERNATIONAL SYMPOSIUM ON ENVIRONMENTAL MANAGEMENT FOR DEVELOPING COUNTRIES

The Third International Symposium on Environmental Management for Developing Countries will take place in Istanbul, Turkey, between August 6-12, 1986.

The following subjects will be covered:

- Appropriate technology for liquid, solid and gaseous waste treatment and disposal in touristic areas
- Effects of industrial activities on tourism
- Effect of environmental conditions on tourism
- Effects of touristic activities on environment
- Rehabilitation of touristic areas destroyed by industrial and touristic activities
- Socio-economic aspects of tourism, industry and environment interaction
- Water supply and waste management throughout history (water and wastewater collection, treatment and disposal methods in old communities)
- Sanitation facilities in yachts, ships, etc. and harbours and marine
- Sampling, characterization and monitoring of hazardous wastes
- Environmental and health impacts of hazardous wastes
- Methods for minimizing hazardous waste generation
- Legislation and regulations related to hazardous waste treatment and disposal of hazardous and difficult to be handled solid, liquid and gaseous wastes
- Case studies.

Papers describing techniques appropriate for developing countries will have a priority.

Engineers and scientists of any nationality are welcome to submit papers or participate in the symposium. Authors are invited to submit a copy of a maximum 500-word abstract by December 15, 1985. For further information please contact:

Cable: ENVITEK-Kadıköy-Istanbul/TURKEY

ANNOUNCEMENT

Integrated Lake-Watershed Acidification

Please note that a hardbound edition of this special issue *Water, Air, and Soil Pollution*, Vol. 26, No. 4, (December 1985) is available from the publishers.

ISBN 90-277-2162-9

Prices: Dfl. 75,— \$29.50 £20.95
