## Subject Index

- absolute standards, 223  
 accountability, 163  
 administration and evaluation, 102, 117  
 administration of evaluation, 103  
 advance organizers, 234  
 adversary evaluation, 213, 265  
   pros and cons, 273  
 adversary technique, 213  
 advocacy teams technique, 174  
 agricultural-botany paradigm, 288  
 amateur and professional evaluation, 316  
 antecedents, 215, 217  
 application of findings, 127  
 applied research, 98  
 approaches to evaluation, 45, 120  
 arguments, preparation of, 272  
 assumptions for evaluation studies, 94, 126  
 audience identification, 11, 131  
 background information, 217, 296  
 bandwidth versus fidelity, 121  
 behaviorists versus humanistic evaluation, 121  
 bias control, 231, 299  
 case studies versus experimental studies, 137  
 CIPP model, 151, 153, 161  
   compared to countenance model, 162  
   compared to Scriven's approach, 162  
 client-centered evaluation, 53, 209  
 communicating findings, 135, 231, 233, 297  
 communication role in evaluation, 135  
 comparative versus noncomparative evaluation, 6, 7, 223  
 congruence analysis, 220  
 consumer-oriented evaluation, 55, 311  
 consumer-oriented studies, 55, 311  
 context evaluation, 156, 166, 169  
 contingency analysis, 220  
 convergent phase of planning an evaluation, 132  
 countenance model, 162, 209, 215  
 covert investigations, 48  
 criteria for judging information and communications, 11, 119  
 criteria of good evaluation, 11, 119  
 criteria of success, 3, 5, 96  
 criterion measures, 78

- data collection format, 216
- decision making, 160, 297
- decision types, 155
- decision-oriented studies, 52, 151, 297
- Delphi technique, 172
- description, 215
- design of evaluation and evaluation research, 100, 105, 121, 122, 179, 318
- design, flexibility, of, 137
- divergent phase of planning an evaluation, 130
- domains of evaluation, 123, 124, 127
- effects, 100
  - secondary, 102
  - unintended, 102
- efficiency, 97
- effort, 96
- epistemology, 240
- equity, 5
- evaluation as communication, 118, 119, 231
- evaluation as portrayal, 290
- evaluation case workers, 28
- evaluation checklist, 318
- evaluation client, 25
- evaluation clock, 235
- evaluation communications specialists, 30
- evaluation compared to research, 7, 91, 97, 160
- evaluation contracts and service agreements, 227
- evaluation coordinator, 27
- evaluation defined, 1, 3, 47, 70, 90, 91, 155, 160, 161, 162, 226, 291, 313
- evaluation design, 121, 122, 123, 179, 225, 230, 235
  - compromises in, 105
- evaluation designer, 26, 122
- evaluation developer, 33
- evaluation development, 33
- evaluation ideologies, 322
- evaluation impact, 138
- evaluation information specialists, 29
- evaluation journals, 23
- evaluation methodology, 97, 98, 230
- evaluation process, 99, 138, 161, 223, 235
- evaluation profession, 22, 33
- evaluation and program administration, 102, 117
- evaluation questions, 95, 96
- evaluation researcher, 32, 89, 91, 97
- evaluation respondents, 28
- evaluation services, scope of, 227
- evaluation societies, 23, 34
- evaluation technical support specialists, 28
- evaluation techniques, 8, 98, 230
- evaluation training, 32, 138, 225
  - needs in, 32, 225
- evaluation types, 46, 96, 153, 169
- evaluation versus research, 7, 91, 97, 160
- evaluation, alternative conceptualization, 46, 120, 226
- evaluation, conceptual aspects, 91
- evaluation, ESEA requirement, 153
- evaluation, ethics of, 241, 312
- evaluation, feasibility of, 5
- evaluation, formal versus informal, 8
- evaluation, formative, 162, 315
- evaluation, goal-based, 317
- evaluation, goal-free, 317
- evaluation, goal of, 102, 103, 119, 315
- evaluation, history, 15
- evaluation, holistic, 290
- evaluation, humanistic versus behavioristic, 121
- evaluation, illuminative, 285
- evaluation, improvement-oriented, 121, 151, 165
- evaluation, input, 156, 166, 173
- evaluation, internal versus external, 104
- evaluation, intrinsic, 316
- evaluation, methodological approaches, 98
- evaluation, multi-model of, 318
- evaluation, naturalistic versus scientific, 121
- evaluation, payoff, 316
- evaluation, politically controlled, 48
- evaluation, politics of, 117, 137
- evaluation, preordinate, 213, 232
  - versus responsive evaluation, 227, 232
- evaluation, problems in, 160
- evaluation, process, 103, 155, 168, 174
- evaluation, product, 155, 168, 176
- evaluation, professionalization of, 326
- evaluation, profitable, 118
- evaluation, promise of, 137
- evaluation, purposes, 91, 102, 116, 118, 161, 163, 227, 241, 266
- evaluation, questions-oriented versus values-oriented, 137
- evaluation, responsive, 53, 209, 225, 227, 291
  - versus preordinate evaluation, 227, 232
- evaluation, roles, 25, 118, 163, 216, 241, 299, 315
  - versus goal, 315
- evaluation, sampling in, 124
- evaluation, scientific versus naturalistic, 121
- evaluation, self referent, 322, 323
- evaluation, short term, 96

- evaluation, social and ethical responsibilities, 241, 312
- evaluation, standards for, 9, 11, 100, 119, 183, 242
- evaluation, summative, 163, 315
- evaluation, symptoms of poor, 157
- evaluation, systematic, 8
- evaluation, systems approach to, 165
- evaluation, true, 45, 52
- evaluation, types of, 46, 96
- evaluation, Tylerian, 69, 74, 154
- evaluation, ultimate, 96
- evaluation, uses, 7, 163, 216, 241, 299, 315
- evaluation, validity of, 123
- evaluator orientations, 230
- evaluator skills, 138, 222, 299
- evaluator, role of, 33, 95, 118, 135, 136
- evaluators' communications, 135, 138, 231
- evaluators' qualifications, 138, 222, 298, 299
- evaluators' social and ethical responsibilities, 241
- evaluators, skills of, 138, 222, 299
- evaluators, training of, 32, 138, 225
- experimental bias, 299
- experimental designs, problems of use, 21
- experimental studies, 21, 137
- experimental versus case studies, 137
- experimental versus naturalistic evaluation, 227
- extrapolating from findings, 120, 136
  
- feasibility of evaluation, 5
- feedback, 72
- fidelity versus bandwidth, 121
- formative evaluation, 162, 315
  
- goal-based evaluation, 316
- goal-free evaluation, 317
  
- hearings, 272
- holistic evaluation, 290
- humanistic versus behavioristic evaluation, 121
  
- illuminative evaluation, 285, 294
  - problems of, 298
- implementation decisions, 155
- improvement-oriented evaluation, 121, 151, 165
- inference, 136
- input evaluation, 156, 166, 173
- instructional system, 292
- internal versus external evaluation, 104
- interpretation of results, 125, 131, 136, 138, 165, 231, 317
  
- interviews, 296
- intrinsic evaluation, 316
- issue generation, 272
- issue selection, 272
  
- Joint Committee standards, 9
- judgment, 216, 222
- judicial model, 265, 271
- justified conclusions, 121
  
- key evaluation checklist, 318
  
- learning milieu, 293
- levels problem, 126
- leverage of information, 133
  
- management by objectives approach, 73
- managerial ideology, 324
- measurement of effects, 100
- measurement of reliability, 101
- measurement validity, 101
- merit, 4
- metaevaluation, 24, 34, 183, 235, 319, 321
- metaevaluator, 34, 183
- multimodel of evaluation, 318
- multiple realities, 132, 234, 240
  
- naturalistic versus scientific evaluation, 121
- need, 318
- needs assessment, 166, 169, 317
- noncomparative versus comparative evaluation, 6
  
- objectives-based studies, 69, 71, 76
- observation procedures, 295
- outcomes, 132
  - long term, 132
  
- payoff evaluation, 316
- performance, 97
