Index

A
automated guided vehicle (AGV) 30, 37, 38, 75–77, 222, 230, 387
automatic stacking crane see rail-mounted gantry crane

B
barge shuttle service 320
barge terminal 3, 9, 17
berth allocation 142, 151
block design problem (BDP) 233
block relocation 265
blocks relocation
blocks relocation problem (BRP) 251, 257, 261
transformation (BRP) to (RMP) 262

C
certified ship planner 125, 126
cold-ironing 67
competence management system 122, 123, 128
competence profile 123
job profile 123
coning platform 184
container handling system see operations system
container location problem 255
container stacking (RMG) 277
cradle-to-cradle approach 63, 65
crane scheduling (RMG) 286

drayage 326

eco-effectiveness 63
eco-efficiency 63
eco-indicators 77
emulation 95, 96, 108–110
environmental impact 3, 54–56, 111
equipment
landside 30, 226
seaside 29, 221
statistic 224
yard 30, 223
estimated time of arrival (ETA) 353
estimated time of departure (ETD) 280, 353
European qualifications framework 118
European Rail Traffic Management System (ERTMS) 412
EUROSTAT 400

gate
capacity 309
pre-gate (OCR) 318
process 308, 316
slot booking system 317
greedy algorithm 276

hinterland 213, 369, 370, 400

J. W. Böse (ed.), Handbook of Terminal Planning.
Operations Research/Computer Science Interfaces Series 49,
I

inland terminal  see dry port
inland waterway  413
intermodality  402, 405, 410, 426
interoperability  410

K

key performance indicator  99, 407

L

layout
quayside (AGV)  190
quayside (auto. SC)  191
yard (auto. RMG)  75, 79, 274
yard (auto. RMG/RTG)  228
yard (auto. RMG/RTG/SC)  225
yard (RTG)  78, 221
life cycle concept
port  369–371
product  364–368
life cycle cost  62, 80, 81
location splitting  371

M

maritime network  346, 348
megahub  391, 392
metaheuristic  266
model  11, 84, 101
modeling  84, 85, 97
modeling cycle  87
monomodal  382
multi-trailer  30, 72
multimodal  382
multimodality  402, 410

N

net slot capacity  197
network information management  347

O

offline algorithm  276
online algorithm  276
online optimization  266, 277
Out of Gauge (OOG)  181
overhead bridge cranes (OHBC)  30

P

port development  360, 362
port logistics specialist  123, 124
pre-/main/on-carriage  196, 213, 351
premarshalling  256, 257, 265
premarshalling problem (PMP)  251, 258
process innovation  370
public private partnership  384

Q

quay crane (QC)  29, 50, 92, 99, 111, 164,
173, 185
assignment  150, 162
backreach  186
capacity  157, 159
portal  184, 185
productivity  163
tandem  184
twin lift  183

R

rail-mounted gantry crane (RMG)  30, 33,
35, 36, 38, 43, 44, 53, 71–75, 78
RMG & AGV  37, 79, 187, 188, 190
RMG & SC  182, 187, 191
RMG & ShC  37, 42, 51, 53–55
RMG & TTU  36
single/twin/double/triple system  274
railway corridor  411
remarshalling  250, 256, 257, 265
remarshalling problem (RMP)  251, 257
requirements engineering  5, 17
River Information Services (RIS)  413
round trip  197
performance  211
return on investment  209
rubber-tyred gantry crane (RTG)  30, 38, 46,
71–73, 75, 223–225, 228, 229, 335
RTG & TTU  34, 45, 53–55, 78
zero emission RTG  47

S

satellite terminals  387–389
ship-to-shore crane  see quay crane
simulation  12, 48–51, 84, 86, 94, 103, 104,
249, 329
berth simulation  88, 89, 137–139
capacity simulation  106
day-to-day operation  96, 108
evaluation ecological impacts  111
system analysis  89, 107, 108
slot booking system  317
space allocation problem  255
straddle carrier (SC)  27, 30, 32–34, 38, 71,
75, 76
sustainability 63, 80
carrier terminal 64, 65, 67
design 63, 64, 76
