A

Acrylic splints
“bite-block” portion, 487
description, 486
gunning splint, 487, 490
mixing, sticky paste, 486–487, 490
occlusal surface, 487, 490

Aduss, H., 369–380

Advanced Trauma Life Support (ATLS), 141–143, 145, 149, 151, 225, 248, 259

Aesthetic abnormalities, 192

Ahmed, M.K., 49–63

Airway management
facial injuries
ATLS primary survey, 141
cervical spine, 141
cricothyroidotomy, 142
endotracheal intubation, 142
larynx/trachea, 141
maneuvers, 141
gunshot wounds, 259
panfacial fractures
intracranial injury, 249–250
nasal and oral airways, 249
tracheostomy, 249

Alginate impressions
dental, 484, 485
graduated water vial, 483, 484
plastic scoop, 483, 484
potassium, 483
in rubber bowl, 484, 485
viscous gum, 483

Allan, B.J., 313–318

Allogenic bone grafts, 131

ALT flap. See Anterolateral thigh (ALT) flap

Angle, E.H., 54, 59, 60

Angle fractures, 180, 286

Angle’s classification, 176

Anterolateral thigh (ALT) flap
advantages and disadvantages, 274, 317
blood supply, 272
descending and medial branch, 273–274
donor site, 274
Doppler probe, 274
exposed titanium mesh cranioplasty, 273
harvest, 315
head and neck reconstruction, 315
history, 272
lateral femoral circumflex artery, 273
lateral femoral cutaneous nerve harvest, 272
musculocutaneous flap, 274
oromandibular defects, 316
tubular structures reconstruction, 313
vascular pedicle and flap dimensions, 273

Anthropometry, 3D
anatomical landmarks, 351
definition, 350
internal Cartesian coordinate system, 351
virtual 2D cephalogram, 352

Antony, A.K., 131–149

ATLS. See Advanced Trauma Life Support (ATLS)

ATN block. See Auriculotemporal nerve (ATN) block

Attaie, A.B., 49–63

Auriculotemporal nerve (ATN) block, 87

Autologous bone graft
allogenic, 131
calvarium, 124–127
description, 120
iliac, 120–125
mandible, 128–131
osteoconductive lattices, 300
rib, 127–129
secondary bone reconstruction, 299
tibia, 122, 124, 126
vascularized, 132
xenogenic, 132

Ayoub, A.F., 67
