About the authors

**Prof. Dr. med. Dipl.-Psych. Borwin Bandelow**

Professor at the Department of Psychiatry and Psychotherapy at the University of Göttingen in Göttingen, Germany. Managing director of the department. Head of the Anxiety Disorders Unit. President of the German Society for Anxiety Research; Member of the AEP (Association of European Psychiatrists), ECNP (European College of Neuropsychopharmacology) and World Council on Anxiety Disorders.

Research interests are psychopharmacology, anxiety disorders (panic disorder and social phobia), depression, and schizophrenia.

**Prof. Dr. phil. Sven Barnow**

Professor of Clinical Psychology and Psychotherapy, Head of the Section Clinical Psychology, University of Heidelberg, Germany and Head of the Psychotherapy Outpatient Clinic and Centre for Psychological Psychotherapy. Member of the Advisory Board of “Psychotherapeutengesetz” (Ministry of Health) and “Treatment of Antisocial Personality Disorder” (Ministry of Social Welfare).

Research interests are emotion (dys-)regulation, personality and personality disorders (borderline, in particular), PTSD, alcoholism and psychotherapy.

**Prof. Donald H. Baucom**

Distinguished Professor at the Department of Psychology and Research Professor at the Department of Psychiatry, University of North Carolina, USA; Former Associate Editor, Behavior Therapy; Former Director of Clinical Psychology, UNC; Member of the Board, Klaus-Grawe-Foundation, Zürich, CH.

Research interests are cognitive-behavioral couple therapy, psychotherapy outcome research, and the interaction between individual psychological or medical distress and relationship functioning.
Anna K. Berkefeld, BSc

Bachelor of Science with a major in Biological Science and Psychobiology, Candidatus medicus at the Johannes Gutenberg University, Mainz, Germany. Former Research Assistant at Florida Atlantic University, Boca Raton, FL USA. Research Assistant at Department of Psychiatry and Psychotherapy, HSK, Dr. Horst Schmidt Clinic, Wiesbaden.

Research interests are perception and processing of emotions, emotional labelling of faces and impairments in emotional processing as part of the social brain.

Prof. Dr. med. Dieter F. Braus

Professor of Psychiatry at that the University Medicine Hamburg-Eppendorf, Senior Lecturer at the University Medicine Mainz (Johannes-Gutenberg University). State licensed as Specialist in Neurology, Psychiatry and Psychotherapy, Rehabilitation Medicine. Director of the Department of Psychiatry and Psychotherapy, HSK, Dr. Horst Schmidt Clinic, Wiesbaden.

Research interests are brain imaging in Psychiatry, Imaging Genomics, Psychopharmacology, the neurobiology of the reward and anxiety system as well as the social brain, translating science in society.

Prof. Ed Cairns, BA PhD, FBPsS

Professor of Psychology in the School of Psychology at the University of Ulster in Coleraine, Northern Ireland. Visiting scholar at the Universities of Florida, Cape Town, Melbourne and Massachusetts. He is a Fellow of the British Psychological Society, a Fellow of the American Psychological Association, and Past President of the Division of Peace Psychology (Division 48) of the American Psychological Association.

Research interests are the psychological aspects of political violence in relation to the conflict in Northern Ireland.

Prof. Patricia R. Casey, MD, MB, BCH, BAO, MRC Psych, FRC Psych

Professor of Psychiatry at Department of Psychiatry, UCD and the Mater Misericordiae University Hospital. Editor-in-Chief of the Quarterly Journal of Mental Health. Fellow of the Royal College of Psychiatrists, the Royal Society of Medicine, the Royal Irish Academy of Medicine. Member of the Medico-Legal Society of Ireland; Member of Board of International Study Group on Person-
ality Disorder, Member of Examinations Subcommittee, Royal College of Psychiatrists, London; Member of University and Research Committee, Royal College of Psychiatrists, London; Royal Irish Academy of Medicine, Assessor for the Senior Registrar Prize in research; Royal College of Psychiatrists – Public Education Committee. Spokesperson to the media on Personality Disorder.

Research Interests are adjustment disorders and their classification, parasuicide and suicide intent, deliberate self harm, depressive disorders, personality disorders.

Prof. Kenneth R. Conner, PsyD, MPH

Associate Professor of Psychiatry, University of Rochester Medical Center, Rochester, NY USA, Co-Director of the URMC Center for the Study and Prevention of Suicide, and Investigator, VISN2 Center of Excellence at the Canandaigua VA Medical Center, Canandaigua, NY USA. Licensed Psychologist, New York State Education Department. Chair, Treatment Improvement Protocol (TIP) Committee on Substance Use and Suicidal Behavior, Substance Abuse and Mental Health Serve Administration, Center for Substance Abuse Treatment. Member of the American Psychological Association, American Association of Suicidology, Research, Society on Alcoholism, and College on Problems of Drug Dependence.

Research interests are suicidal behaviour, aggression, alcoholism and other substance use disorders.

Marilyn A. Cornish, MS

Doctoral student in counseling psychology, Department of Psychology, Iowa State University, USA.

Research interests are the psychology of forgiveness and religion in clinical practice, especially factors that promote forgiveness, the efficacy of counseling interventions to promote forgiveness, and the integration of religion and spirituality in group and individual counseling.

Prof. Dr. rer. nat., rer. soc. habil. Claudia Dalbert

Research Interests are justice motive theory, coping with injustices, belief in a just world, uncertainty tolerance.

**Dipl.-Psych. Anja Dodek**

Doctoral fellow of Clinical Psychology and Psychotherapy, University of Heidelberg, Germany. Psychological psychotherapist at the Centre for Psychological Psychotherapy (ZPP), Heidelberg.

Research interests are emotion (dys)regulation, personality and personality disorders, alcoholism and psychotherapy.

**Prof. Michael B. First, MD**

Research interests are psychiatric diagnosis and assessment, nosology, clinical utility, DSM-ICD Harmonization, body integrity identity disorder.

**Dipl.-Psych. Ira Gäbler**

PhD student at the Department of Psychopathology and Clinical Intervention, University of Zurich, Switzerland.

Research interests are prediction of long-term PTSD, sequelae of political imprisonment in the GDR, psychological revenge phenomena after traumatization.

**Univ.-Prof. Mag. Dr. Judith Glück**

Professor of Developmental Psychology, Institute of Psychology, Alpen-Adria University Klagenfurt.

Research interests are conceptualization, measurement, and development of wisdom. learning from life; autobiographical memory, spatial cognition, gender issues, aging, memory and cognition.
Prof. Dr. phil. Kurt Hahlweg

Professor of Clinical Psychology, Psychotherapy and Assessment at the Technical University of Braunschweig, Institute of Psychology, State licensed Psychological Psychotherapist, Past reviewer for Clinical Psychology, Deutsche Forschungsgemeinschaft (DFG) Past editor, Zeitschrift für Klinische Psychologie und Psychotherapie Member of the Board, Klaus-Grawe-Foundation, Zürich, CH.

Research interests are behavioral marital therapy and prevention, behavioral observation, family care in schizophrenia, expressed emotion research, prevention of child behavior problems, and assessment of marital and family factors.

Prof. Changsu Han, MD, PhD, MHSc

Associate Professor at the Department of Psychiatry, College of Medicine, Korea University, Seoul, South Korea.

Research interests are stress and related physical symptoms, stress/depression and cognitive decline, clinical outcome research.

Dr. Astrid Grant Hay

Clinical and health psychologist, researcher at the Department of Psychiatry and Psychotherapy at the Medical University Vienna.
