names and chemical symbols, 109
patterns, 110
Recycle rates, 408–409
Regional Fisheries Management organizations
(RFMOs), 521, 523
Relative prediction error (RPE), 204
Remote Operating Vehicles (ROV), 160
Resin Casting-Solid Surface, 436
Reverse osmosis (RO), 353
Ribosomal RNA (rRNA), 474
Rising and Lifting System (RALS), 448
Root mean squared error (RMSE), 198
Rubber, 437

**S**
SAEC-cFP network, 326
Safety of Life at Sea (SOLAS), 495, 500
Sandpiper prospect, 181
Scripps Oceanographic Institute, 145
Sea nodules processing, 396
observations on efforts, 409–414
and sustainability issues, 409
Seabed system, 160
Seafloor massive sulfide (SMS), 259, 260,
262, 272, 275–277, 291, 293,
466, 508
age, 156
basaltic hosted hydrothermal fields, 153
discovery and study, 144
distribution of hydrothermal systems, 146
high-temperature, 144
hydrothermal vents, 143, 145
mid-ocean ridges, 147
minerals forming, 155
MOR system, 147
morphology, 150
recycling model, 158
VMS, 143
Seafloor Production Tools (SPTs), 448
Seamounts and guyots, 124
Seas minerals, 366
Sierra Leone Rise (SLR), 133
Slow-spreading ridges, 149
Smelting of Sea Nodules, 413
Soil temperature control, 352
SONAR image, 329
Species identification, 474–476
Stand-Alone Embedded Controller (SAEC), 325, 327
Strategic Innovation Promotion Program (SIP), 468
Submarine phosphorites, 167
Subsea Slurry Lift Pump (SSLP), 448
Subsidiary Bodies for Scientific, Technical and Technological Advice (SBSTTA), 452, 456
Subtropical convergence, 171, 172
Sulphide-oxidizing bacteria, 168
Super Short Baseline (SSBL) mode, 337, 338
Sustainability, 397–398
  factors affecting, 398
  and process development, 398–402
Sustainable development
  applications, 439
  environmental constraints, 423
  manganese nodule or crust, 424, 425
  manganese tailings, 424
  natural drainage system, 424
  natural systems, 424
  ocean mining industry, 423
  physical and chemical properties, 425
  seafloor polymetallic sulfides, 425
  tailings disposal, 424
  tailings management, 424
  tonnage applications, 425
Switch Mode Power Supply (SMPS), 334
Terrestrial sulfide Ni-Cu ores, 306
Tiles, 436–437
Tonga Offshore Mining Ltd. (TOML), 446
Trans-Atlantic Geotraverse project, 145
Tungsten, 96–97

U
UN Convention on the Law of the Sea (UNCLOS), 446, 454, 494, 509, 519
Underwater mining machine, 332
UN General Assembly (UNGA), 509, 520
The United Nations Informal Consultative Process on Ocean Affairs and the Law of the Sea (UNICPOLOS), 454, 457
The US National Oceanic and Atmospheric Administration (NOAA), 521
Upscaled Flow Sheet, 411–413
Urban mining, 399

V
Varimax factor analysis, 122
Volcanic arc systems, 146
Volcanogenic massive sulfide (VMS) deposits, 143

W
Water temperature, 347
Weibull probability distribution, 265
World Meteorological Organization (WMO), 495
World population, 346

X
X-ray diffraction pattern, 38

Y
Younger crust generation, 83
