**Articles from Xiboliya Yanjiu (西伯利亚研究)**

Articles from Zhongya Xinxi (中亚信息)

Further Chinese Language Sources

Translations of Chinese titles by this author where not otherwise indicated.

Some articles downloaded from the CAJ database did not contain page numbers. Article descriptions did not include information regarding which pages of the journal were occupied, and some publishing institutions do not provide this information either (especially for older articles). In these cases, this author has therefore chosen to refer to the pages of the downloaded pdf-document. This will be signified by putting the page numbers in rectangular brackets.
