Index

A
Active paradigms, 150
AEP. See Auditory evoked potential (AEP)
Alpha-band oscillations, 127
Alpha coma, 61
Amplifiers, 15
Anesthesia, 130
Anesthetics, 43
Antidepressants, 65
Antiepileptic treatment, 42
Auditory discrimination, 86–88
Auditory evoked potential (AEP), 20, 83
Automated EEG softwares. See Monitoring (EEG)

B
Benzodiazepines, 42, 48, 65
Bereitschaftspotential. See Readiness potential (RP)
Beta-band oscillations, 127
Bilateral independent periodic lateralized epileptiform discharges (BiPLEDs), 28–29
Brain-computer interface (BCI), 134
Brain injury, 129–130
“Breach” rhythm, 26
Burst-suppression, 56, 57

C
Cardiac arrest, 2
Coma, 1
Coma Near Coma (CNC), 98
Coma Recovery Scale-Revised (CRS-R), 97, 98, 100
Confounding factors, 76–77
Contingent negative variation (CNV), 111, 115
Cortical excitability, 126

D
Data storage, 16
Default mode network (DMN), 153, 154
Definition of SE. See Status epilepticus (SE), definition of
Delirium, 2

E
EEG Monitoring. See Monitoring (EEG)
Electrodes, 8–10
intracerebral, 66–67
Electromagnetic induction, 126
Ethical challenges, 101–102
Event-related potentials (ERP), 108
Executive control network, 154

F
Filters, 15
Frontal intermittent rhythmic delta activity (FIRDA), 30, 59, 65
Functional magnetic resonance imaging (fMRI), 136, 138, 140, 150, 152, 154

G
Gamma-band oscillations, 127
General anesthesia, 129
Generalized periodic discharges (GPDs), or Generalized Periodic Epileptiform Discharges (GPEDs), 27–30, 35, 44, 52, 57–59

H
Hemorrhage, 2, 64, 65
Hypothermia, 82

I
Impedance, 8
International 10–20 system, 9–11
T
Temporal intermittent rhythmic delta activity (TIRDA), 30
Theta coma, 61
10-20 system, 9–11
Transcranial magnetic stimulation (TMS), 126
Transcranial magnetic stimulation and electroencephalography (TMS-EEG), 126, 127, 129, 130
Traumatic brain injury, 2, 61, 66, 78
Treatment, 101
Triphasic transients, 65
Triphasic waves, 29, 57, 58, 65

U
Unresponsive wakefulness syndrome (UWS).
See Vegetative state/unresponsive wakefulness syndrome

V
Vasospasm, 64
Vegetative state (VS). See Vegetative state/unresponsive wakefulness syndrome

Video recording, 16
Visual pursuit, 97
Voltage topographies, 87

W
Wakefulness, 126–127, 129
Wessex Head Injury Matrix (WHIM), 98
Western Neuro Sensory Stimulation Profile (WNSSP), 99
Working memory, 135

Y
Young criteria (electrographic seizures).
See Electrographic seizures (Young criteria)
