Index

A
Agricultural purpose, 70
groundwater extraction for, 115
Agroclimatic zones, 111, 185, 198
Alluvial areas, 83
Amortization, 158
investment, 47, 116
Amortized cost, 20, 21, 47, 52
borewell, 101
Annual cost of irrigation, 100, 103, 116, 158
externality defined, 104
groundwater irrigation, cost of, 104
Average product (AP), 87, 90
case of, 91
extreme values, 88

B
Bargaining power
buyer, 170
seller, 170, 171

C
Canal command, 184
Capacity building, 20, 81, 193, 195, 199
Carbon footprint
groundwater, 17
Ceteris paribus, 92, 93
Common property resource, 15, 37, 48
Compensation, 27
Compounded cost, 98
Confined aquifer, 96
Conservation, 193
soil and water, 199, 201
Consumption function, 25, 96
Consumptive use, 8, 198
Control variable, 173
Conventional irrigation, 23, 132
groundwater use in, 103
Coping mechanisms, 26, 32, 34, 35, 76
Costing
irrigation, groundwater in, 100
irrigation water, 97
Credit supply, 121
Cumulative interference, 3, 11, 15, 26, 31, 38, 109, 110, 112
irrigation wells, 115
PRA, 32

D
De facto, 3, 16
De jure, 3, 14, 15, 16, 113
Demand function, 93
sand, 48, 66, 68, 69
Demand side, 18
emphasis on, 193
groundwater, 100
management, 191
Desiltation, 121, 172
Discriminant function, 136
Diviners, 32, 33, 35, 38
Division of labour, 90
Drip irrigation, 17, 75, 103, 122, 125, 134
adaption of, 137
case of, 23
investment behavior of, 135
Drought year, 141, 142, 144, 147, 148

E
Ecological cost, 12
Economic efficiency
water use of, 126, 132
Economic life, 100
borewell, 100, 104
of borewell, definition of, 100
Economic profile
farmers, 159, 160
