- optic capture, 71
- PC-IOL (see Posterior chamber intraocular lens (PC-IOL))
  - posterior capsule support, 106
- PPCCC, 63–64
- scleral-fixated IOL, 183–184
  - ab interno/ab externo surgical approach, 221–222
  - haptic suturing, 222–224
  - indications, 182–183
  - prerequisites, 183
  - selection of, 183
  - sutures complications, 224–225
- secondary IOL implantation, outcomes of, 185
  - selection and placement, 86–87
  - site and technique of, 51
  - small central PCR, 105
  - small peripheral PCR, 105
- sulcus-fixated IOL
  - complications, 182
  - indications, 181
  - prerequisites, 181
  - selection of, 182

Intraocular pressure (IOP), 7, 236

Intraoperative factors
- fluid imbalance, 29–30
- radial tear, 29
- small capsulorhexis, capsulorhexis block, 29
- topical anesthesia, corneal epithelial toxicity of, 28, 29

Intraoperative floppy iris syndrome (IFIS), 26

Intraoperative management
- anterior chamber (AC)
  - large nuclear lens fragment, 125
  - small nuclear lens fragment, 124–125
  - soft lens matter, 124
- anterior vitrectomy
  - aim of, 121
  - low-volume local anesthetic (LA) block, 122
  - peripheral clear corneal wound, 122
  - phaco wounds, 122
  - radial vitrector wounds, 122
  - self-retaining AC maintainer, 122
  - triamcinolone, diluted suspension of, 122–123
  - vitrector wounds, 123
- cellulose sponges, 123
- dispersive OVDs, 121
- dropped nuclear fragments, vitreous cavity, 125
- IOL, 125–126
- operating room/theater staff, 121, 123
- posterior segment complications, 254–256
- vitreoretinal (VR) surgeon, 121
- INTREPID AutoSert IOL Injector handpiece, 39
- Iridectomy, 192, 194, 199–201
- Iris claw intraocular lens, 205
  - fixation of, 208, 209
  - long-term results, 209–210
  - pediatric cases, primary surgery, 206–207
  - postoperative problems, 209
  - primary implantation, long oval capsulotomy, 207–208
- secondary iris claw lens implantation, 207–208
- Iris-sutured intraocular lens, 211
  - “ab externo” approach, 212
  - advantages, 214
  - disadvantages, 214–215
  - Kuglen hook, 212, 213
  - learning curve, 214
