Index

A
Abdominal incision, 117
Abdominal surgery, 164
Aberrant duct, 33
Ablation, 51, 141
Ablation therapies, 271
About staging laparoscopies, 217
Accessory duct, 33
Accessory hepatic veins, 80
Accuracy, 222
Adhesions, 15, 51, 125
Agreement between the two procedures, 222
Air bubbles, 129
Anatomical resection, 268
Anatomic structure, 219
Anechoic, 43
Anesthesiologist, 56
Anterior approach, 150, 271
Arantius ligament, 125
Arterial elements, 25
Arterial phase, 57
Artifacts, 28

B
Background liver, 125
Balloon catheter, 141
Barcelona Clinic Liver Cancer (BCLC), 231
Bare area, 122
Bile duct, 18, 33, 219
Bile duct dilation, 77
Bile duct drainage, 169
Bile duct resection, 169
Bile ducts are dilatated, 219
Bile leak, 203, 253
Biliary, 169
Biliary complications, 169, 203
Biliary elements, 25
Bilobar liver metastases, 254
Biopsy, 45
Black-hole effect, 60
Bright liver, 62
Brisbane terminology, 17, 25

C
Calcified pattern, 49
Camera system, 250
Cantlie’s line, 143
Capsulated HCC, 77
Carbon dioxide, 55
Caudate lobe, 130
Caval confluence, 16, 269
Characterization, 218
Chemotherapy, 48, 62
Cirrhotic appearance, 55
Cirrhotic liver, 15, 51, 128
Clamping, 80
Clots, 148
Color flow modes (CFIOUS), 10, 87, 268
Color-Doppler, 9
Colorectal liver metastases (CLM), 45, 55, 79, 126, 249, 268
Communicating veins (CV), 79
Compression maneuvers, 10
Computed tomography (CT), 158, 268
Condoms, 52
Congestion, 268
Contrast agent, 9, 267
Contrast-enhanced IOUS (CEIOUS), 4, 45, 267
Contrast-enhanced laparoscopic ultrasound, 244
Contrast enhancement, 43
Convex, 5
Cooling technique, 232
Corkscrew technique, 260
Coronary ligament, 125
Counterstaining technique, 130
Cut surfaces, 148
Cystic lesions, 62

D
Da Vinci Si platform, 251
Detection, 43
Detection of known lesions, 218
Diastolic flow, 185
Differentiation, 43
Disclosure of additional nodules, 218
Dissection plane, 63
Dissection plans, 271
Domino transplantation, 197
3D screen, 251
Ducts, 33
Dysplastic nodules, 57

E
Early HCC, 59
Echoes, 3
Echogenic line, 148
Echogenicity, 59
Echoprobes, 4
Elastography, 45, 267
Electrocautery, 131
Electromagnetic sensor, 164
Endoscopic column, 250
EndoWrist bipolar precise forceps, 257
EndoWrist instruments, 250
Expert surgeons, 121
Exposure, 117
Extranodular growth, 127

F
Falciform ligament, 15, 28, 141
Finger compressing, 80
Finger compression, 125
Flashlight display, 252
Flex Focus 800 Ultrasound system, 252
Flexible tip, 8
Fluorescent imaging, 52, 267
Focus level, 43
Free-hand technique, 128
Gray scale, 43
Guidance to surgical procedures, 217

H
HA stenosis, 189
Hanging, 117
Hanging maneuver, 271
Head-and-neck surgery, 164
Hemangioma, 45
Hepatic artery, 130
Hepatic artery complications, 185
Hepatic hilum, 125
Hepatic vein, 15, 25, 78, 269
Hepatic veins confluence, 222
Hepatocaval confluence, 25, 254
Hepatocellular Carcinoma (HCC), 45, 55, 76, 126, 231, 249, 268
Hepatofugal blood flow, 80
Hepatopetal, 80
Hepatospecific, 12, 55
High-frequency probe, 16
Hilar dissection, 143
Hitachi Aloka, 252
Hooking, 130
Hooking technique, 141
HV stenosis or thrombosis, 197
Hyperechoic shadow, 43
Hypoechoic, 43, 55

I
Indigo carmine dye, 128
Indocyanine green dye, 253
Indocyanine green (ICG), 52
Indocyanine green (ICG) fluorescence imaging, 174
Inferior right hepatic vein (IRHV), 25, 80
Inferior vena cava (IVC), 88, 123, 222
Inflow, 16, 75
Infrared-based optical line, 158
Infrared camera, 175
Inspection, 15
Intercostal space, 253
Interdigital, 5
Intermittent inflow occlusion, 256
Intermittent Pringle maneuver, 257
Interstitial treatments, 226
Interventional procedure, 231
Intrahepatic biliary tree, 31
Intrahepatic vascular occlusion, 241
Intraoperative cholangiography (IOC), 169
Intraoperative planning of the operation, 222
Intraoperative ultrasonography, 250
Intraoperative ultrasound (IOUS), 3
Intravascular contrast agents, 55
Intravascular procedures, 271
Isoechogetic, 60
Isoechogenicity, 60
Isoechoic, 48, 55
IVC stenosis or thrombosis, 197

J
J-shaped laparotomy, 121
J-shaped thoracophrenolaparotomy, 121
J-shaped thoracophrenolapatotomic, 90

K
Kelly crush-clamp technique, 257, 264
Keyboard, 10, 15
Kupffer cells, 55

L
Laparoscopic cholecystectomy, 174
Laparoscopic liver resection, 251
Laparoscopic liver surgery, 217
Laparoscopic port, 8
Laparoscopic surgery, 249
Laparoscopic transducers, 8
Laparoscopic ultrasonography, 217
Laparoscopic ultrasound (LUS), 9, 231
Large incisions, 271
Late phase, 57
LCD monitors, 251
Left bile duct, 169
Left hand, 117
Left hemiliver, 131
Left hepatectomy, 33, 47
Left hepatic vein (LHV), 25, 87
The left lateral sectionectomy, 222
Left portal pedicles, 254
Left portal vein (LPV), 143
Left-sided hepatectomies, 169
Linear, 5
Liver anatomy, 222
Liver exposure, 75
Liver function, 268
Liver metastases, 232
Liver mobilization, 117
Liver outflow, 268
Liver stiffness, 267
Liver surgery, 232
Liver tunnel, 78
Liver vascular skeleton, 75
Lower inferior hepatectomy, 78

M
Main portal bifurcation, 28
Magnetic resonance (MRI), 158, 268
Major hepatectomy, 75, 169, 249, 269
Major liver surgery, 264
Median incision, 121
Medical robotics, 250
Mesenteric vein, 141
Microbubbles, 11, 55
Microconvex, 5
Microwave (MWA), 231
Mid-low-frequency probe, 16
Middle hepatic vein, 226
Middle hepatic vein (MHV), 87, 155, 266
Middle inferior right hepatic vein (MIRHV), 25
Minimal invasive procedure, 269
Minimally invasive surgery, 250
Mirror effect, 43
Mobilization, 75, 271
Mortality, 269
Mosaic, 45
Multinodularity, 60
Multiple bilobar CLM, 269

N
Navigation systems, 267
2nd order portal branch, 28
Near-infrared imaging, 252
Neo-vascularity, 59
New detected lesions, 218
New nodules, 217, 222
Nonanatomical resection, 225

O
Operative decision making, 59, 75
Optical, 158
Outflow, 17, 75

P
P5-8, 88
Palpation, 15, 75
Paracaval portion, 117
Parachute technique, 146
Parenchymal sparing resections, 75
The parenchymal transection, 222
Patient-side Cart, 250
Percutaneous contrast-enhanced ultrasound (CE-US), 57
Perfluorobutane, 12
Picture-in-picture display, 252
Piezoelectric crystals, 3
P4inf, 88
Planning the liver resection, 224
Plug and play, 267
Portal bifurcation, 254
Portal branch, 15, 29, 80, 222
Portal elements, 25
Portal vein complications, 190
Portal vein (PV), 192
Power-Doppler, 9
Pringle maneuver, 256
ProART Robotic Transducer Type 8826, 252
Probes, 117
Pseudoaneurysms, 189
PVE, 269
### R
- Radiation risk, 174
- Radical but conservative, 271
- Radiofrequency (RFA), 231
- 3rd order portal branch, 28
- Regenerative nodules, 57
