Anderson, Alan Ross, ix
Anschutz, R. P., 77
ARG criterion, 17
Argument, 43–46
  abductive, 181
  analysis, 154
  associated conditional, 175, 177, 180–181, 187, 190
  core argument, 149
  evaluation, 154
  generalized conditional, 176–178
  inductive, 181
  logical cogency of, 43
  non–demonstrative, 181
Argument as process, 12, 44, 85
Argument as product, 12, 14, 44–45, 48, 52, 60–61, 63, 77, 79–80, 85, 88, 147
Argument by analogy, 138
Argument structure, 3
  convergent, 16, 90–98, 101, 103–105
  divergent, 16
  hybrid, 150
  linked, 15, 90–98, 101, 103–105
  serial, 13
Argumentation
  co–ordinatively compound, 143
  multiple, 143, 199
  Associated generalization, 190

Carroll, Lewis, 137
Castaneda, Hector Neri, 66
Categorical proposition, 64, 76, 78–79
Challenger, 40, 85
Clark, Romane, 60, 74–75
Complementary argument, 148
Conclusion, 66–67
Conditional argument, 50, 84
Conditional proof, 81
Conditional statement, 60, 63, 69–76, 78–79
Conductive argument, 133
Conjunction, 80, 83, 93, 133–134
Conway, David A., 158–159
Copi, Irving M., 147, 178
Counter (to defeater), 149
Counter–rebuttal, 25
Cowan, Joseph. L., 60
Criterion for linked structure, 139

D
Defeater, 20, 23, 37
  rebutting defeater, 20, 24, 27, 35
  undercutting defeater, 21, 35
Definite consequence
  generic conception, 180
Demonstration, 46, 48–50
Description involving inference, 79
Dialectical question
  basic dialectical question, 95
  first ground adequacy question, 95–97, 100
  relevance question, 95–97, 100
Dialectical situation, 39–46, 53–54, 57–58, 147
  basic dialectical situation, 40, 42–45, 47, 49–54, 58, 60, 85
Dialectical tier, 149
Dialogical situation, 39
Disjunctive syllogism, 80, 83–84, 135
Distinction, 38
Double negation, 84

E
Eemeren, Frans H. van, 40–41, 45
Ennis, Robert H., 190
Entailment, ix, 73
Enthymematic consequence, 180
counterexample, 186
Enthymeme, 167, 175
first–order, 183, 185
second–order, 183–185, 187
standard approach, 173–174

F
Fallacy of Four Terms, 141
Fisher, Alec, 158

G
General proposition, 64–65, 67–70, 76–79, 100
Gentzen, Gerhard, 135
Goddu, G. C., 160
Goodwin, Jean, 31–34
Govier, Trudy, 28, 94, 131, 158
Gratton, Claude, 154
Grootendorst, Rob, 40–41

H
Hitchcock, David, 175, 190
phenomenological argument, 178–179
phenomenological test, 137, 182
Hypothetical syllogism, 81
pure, 134–135

I
Immediate inference, 81
Inductive generalization, 67, 81, 92, 98, 133, 136, 143
Inference, 50–52
Inference graphs, 34–37
nodes, 34
defeater, 35
inference links, 34
Inference habit, 130, 155–156
canonical set, 130
causal characterization, 179
formal inference rule, 83, 87
material inference rule, 83
Instrumentalism, 68–69

J
Johnson, Ralph H., 46, 50–52, 95

L
Layout of arguments, 80
backing, 17, 64, 66, 68–69, 77–78, 80, 85, 131
claims, 80, 82, 87
data, 60–62, 66–67, 75, 77, 80–83, 85, 87
modal qualifier, 17, 80, 85
rebuttals, 80, 85, 104
warrants, 14, 17, 60–62, 64, 66–69, 75, 77–82, 84–85, 87–88, 131, 173, 180–181
Leading principle, 14, 78, 130

M
Macrostructure, 1
Mediating component, 134
Mediating element, 136–139, 142
Memorandum interpretation, 76–77, 79
Microstructure, 1
Mill, John Stuart, 76–79
Modality, 19, 94–96, 98–103
modal “ linkage”, 157–158
Modus ponens, 135
Modus tollens, 135

N
Nagel, Ernest, 69, 78–79, 188–189
Nolt, John Eric, 98–99, 102

O
Olbrechts–Tyteca, L., 46–47, 49
Ordinary sum formula, 145
Original contract, 43

P
Peirce, Charles Sanders, 14, 78, 129–130
Perelman, Chaim, 46–47, 49
Pinto, Robert C., 148
Premise, 66, 78–79, 82–83, 87, 180–181
identifying non–explicit, 188
Prima facie duty, 149
Probability, 202
epistemic, 18
inductive, 18
Proponent, 40, 132, 154
Provisoed assertion, 38

R
Rational judge, 40, 43
Reductio ad absurdum, 41, 50, 81, 84
Register interpretation, 76–77, 79
