Index

A
Associated
chart, 107
coordinates, 108
fibred chart, 218, 220, 221
smooth structure, 107

B
Bianchi identity, 207

C
Canonical
decomposition, 225
jet projection, 220
variational completion, 188
Cartan
tensor, 33
Cartan formula, 220
Chart
associated, 107, 218
fibred, 218
subordinate, 112
fibred, 218
Christoffel symbols, 273
Class
Euler–Lagrange, 131
Lagrange, 126
Classes of forms, 142
Compatibility condition, 64
Component
contact, 122
horizontal, 122, 221, 225
k-contact, 225
of differential form, 225
principal, 233
Condition
compatibility, 64
Frobenius integrability, 37, 154, 276
Helmholtz, 39, 41, 152, 181
Mathisson–Pirani, 86
Zermelo, 158, 160
Conservation law, 266
Conserved
current, 265
Conserved quantities, 137
Contact
basis, 224
component
of differential form, 122, 228
of tangent vector, 223
element, 113
form, 117, 174, 224
ideal, 119
subsequence, 141, 241
symmetry, 264
Contraction, 219
Coordinates
associated, 108
Co-vector potential, 280
Current
conserved, 265
Curvature tensor, 272

D
Decomposition
canonical, 225
Young, 33
De Rham sequence, 140
Derivative
exterior, 141
Lie, 219
Differential form contact, 117
Differential group, 107
Direct image, 239

Variational, 129

Einstein equations, 196, 274
tensor, 279

Electromagnetic Lagrangian, 280
Energy Lagrangian, 33
Energy-momentum tensor, 209, 281

Equation Einstein, 196, 274
Euler–Lagrange, 2, 5, 57, 134
Euler–Poisson, 84
Mathisson–Papapetrou, 86
Noether, 135, 265
Noether–Bessel–Hagen, 268
Poincaré-invariant, 80

Euler formula, 157
Euler–Lagrange class, 131, 242
equation, 2, 5, 57, 134
expressions, 4, 131, 150, 164, 235, 274
form, 176, 234, 274
mapping, 151, 242, 255
morphism, 242

Euler–Poisson equation, 84
expressions, 87

Exact sequence, 141

Expressions Euler–Lagrange, 150, 164
Euler–Poisson, 87
Helmholtz, 150
Maxwell, 281

Exterior derivative, 141
Exterior algebra morphism, 228
Extremal, 130, 138, 238, 266, 274

Faraday tensor, 280

F

Fibre chart, 218
homotopy operator, 230
manifold, 218
product, 280

Field metric, 272
Finsler
Lagrangian, 35
metric, 195
First variation, 237
First variation formula
infinitesimal, 133, 238, 273
integral, 133, 238
Force, 59
conservative, 187
Lorentz, 187
variational, 191

Form contact, 174
dynamical, 82
Euler–Lagrange, 176
Helmholtz, 82
Hilbert, 127, 138
horizontal, 125
invariant, 134
Lepage, 125, 232
locally variational, 152, 275
source, 180, 258
strongly contact, 228

Formal derivative, 222

Formal derivative morphism, 109, 110

Formula Cartan, 220
Euler, 157
first variation, 133, 273

Frobenius integrability, 37, 154, 276

Function homogeneous, 157
Lagrange, 57
level-set, 139
Rayleigh dissipation, 190

Functional integral variational, 128, 237

Generator of invariance transformation, 264, 268

Geodesics, 72, 138

Globally variational form, 180

Grassmann fibration, 114
prolongation, 114

Grassmannian, 114

Grassmann prolongation, 117

Group differential of \( \mathbb{R} \), 107
Poincaré, 84
### H
- **Helmholtz**: 1
  - class, 242
  - conditions, 4, 39, 41, 152, 181, 275
  - expressions, 150, 262, 274
  - form, 82, 262, 274
  - mapping, 151
- **Hilbert**
  - form, 127
  - Lagrangian, 198, 273
- **Hilbert form**, 138
- **Homogeneous function**, 157
- **Homotopy operator**, 230
- **Horizontal component**
  - of differential form, 228
  - of tangent vector, 122, 223
- **Horizontalization**, 221

### I
- **Ideal**
  - contact, 119
- **Image**
  - of Euler–Lagrange mapping, 258
  - of variational projector, 247
- **Immersed**
  - submanifold, 116
- **Integrability conditions**, 37, 249, 275
- **Integral**
  - variational, 128
- **Interaction Lagrangian**, 280
- **Interior Euler–Lagrange operator**, 245
- **Invariance transformation**, 135, 263, 264, 268
- **Invariant**
  - form, 135, 263
  - Lagrangian, 264
- **Inverse variational problem**, 31, 152, 258
- **Isomorphism**
  - local, 218
  - of fibred manifolds, 218

### J
- **Jet**, 220
  - projection, 220
  - prolongation, 109, 220, 222

### K
- **Kernel**
  - of Euler–Lagrange mapping, 256
  - of variational projector, 247

### L
- **Lagrange**
  - class, 126
  - differential, 81
  - function, 57, 126, 274
  - local function, 150
- **Lagrangian**, 126, 175, 235, 237, 242
  - associated with Lepage form, 235
  - controlled, 8
  - electromagnetic, 280
  - energy, 33
  - Finsler, 35
  - Hilbert, 198, 273
  - natural, 176
  - null, 256
  - quadratic, 24, 25
  - Vainberg–Tonti, 5, 39, 181, 260
- **Lepage**
  - equivalent, 177, 235
  - form, 125, 232
  - Lepagean equivalent, 83
  - Level-set function, 139
  - Levi-Civita symbol, 219
  - Lie
    - bracket, 220
    - derivative, 219
  - Local
    - isomorphism, 218
  - Local Lagrangian, 126
  - Locally variational form, 152, 180, 275
  - Lorentz force, 187

### M
- **Manifold**
  - fibred, 218
  - Lorentzian, 196
  - of contact elements, 114
  - of metric fields, 272
  - of velocities, 107
  - Riemannian, 192
- **Mapping**
  - Euler–Lagrange, 151, 242
  - Helmholtz, 151
  - Matching assumptions, 9
    - simplified, 10
  - Mathisson-Papapetrou equations, 86
  - Mathisson–Pirani condition, 86
  - Maxwell expressions, 281
- **Metric**
  - field, 272
  - Metric fields, 272
- **Morphism**
  - of fibred manifolds, 218
Multipliers
   variational, 6, 59

N
Noether
   current, 139, 178
   equation, 135, 265
   theorem, 136
Noether–Bessel–Hagen equation, 268
Null Lagrangian, 256

O
Operator
   exterior derivative, 141
   interior Euler–Lagrange, 245
Oscillations, 189

P
Parametrization, 116, 161
Poincaré
   group, 84
   invariant equation, 80
   lemma, 141, 240
   symmetry, 76
Positive homogeneous system, 163
Potential, 187
Principal
   Lepage equivalent, 235, 273
Product
   fibred, 280
Projection
   jet, 220
   of morphism, 218
   of vector field, 218
Projector
   variational, 245, 246
Prolongation
   Grassmann, 114
   jet, 109, 220, 222
Pull-back, 220

Q
Quotient
   sequence, 141, 242
   space, 111
Quotient projection, 113

R
Rayleigh function, 190

Representative
   of class of forms, 242
Ricci tensor, 272
Riemann volume element, 272

S
Scalar curvature, 272
Section, 218
Sequence
   de Rham, 140
   exact, 141
   variational, 142, 242
Set of sections, 220
Set-solution, 163
Shaping
   kinetic, 3, 7
   potential, 2
Sonin–Douglas problem, 59
Sonin’s problem, 57
Source
   form, 180, 249, 258
   of jet, 220
Space
   configuration, 4
   quotient, 111
   shape, 7
   state, 7
Space-time, 272
Spherical coordinates, 137
Strongly contact form, 228
Structure
   associated, 107
   smooth, 107
Submanifold
   immersed, 116
Subordinate chart, 112
Symmetry
   contact, 264
   Poincaré, 76
System
   variational, 39, 164

T
Tangent vector
   horizontal, 218
   vertical, 218
Tensor
   Cartan, 33
   Einstein, 198, 279
   energy-momentum, 202, 209, 281
   Faraday, 280
Index

Theorem
  Euler–Zermelo, 158
