	<i>Index</i>	301

# Figures and Tables

## Figures

1.1	Tier-one capital (\$ million) versus strategy employed (all banking)	21
5.1	Bank CDS market	97
5.2	Time-series graphs	101
6.1	Hypotheses put forward in the literature on the behaviour of ratings	111
7.1	Annual net outlook and watchlist actions for sovereigns during 1995–2009	145
8.1	The long life cycle of risk tolerance	172
10.1	Number of questions in the suitability questionnaire	228
10.2	Completeness of the suitability questionnaires: number of MiFID-suggested items covered	230
10.3	Coverage of MiFID-suggested items	230
10.4	Number of MiFID-suggested items covered	237
11.1	The shift to interoperability	254
11.2	Downward trend of clearing tariffs: past evolution and Celent estimates	268
11.3	CCP market shares of european on-exchange equity trades, 2008–9 (%)	272
12.1	The development of the CNY/USD exchange rate between 1981 and 2010	278

## Tables

1.1	International strategy configurations	17
A1.1	Classification of banks by strategy	22
3.1	Average values per country for the banks in the sample, 1999–2008	53
3.2	Independence of the board, and age of the CEO and chairman of the banks in the sample	53
3.3	Experience of CEOs and chairmen of the banks in the sample	54
3.4	Compensation of CEOs and chairmen	56
3.5	CEO and chairman experience by country	59

3.6	CEO and chairman compensation by country	64
3.7	The components of direct compensation by country	67
4.1	Main statistics of executive total compensation by market index (amounts in thousand euros)	76
4.2	Main statistics of executive variable compensation by market index (amounts in thousand euros)	77
4.3	Main statistics of executive total compensation by industry (amounts in thousand euros)	78
4.4	Main statistics of executive variable compensation by industry (amounts in thousand euros)	79
4.5	Main statistics of executive total compensation by control model (amounts in thousand euros)	80
4.6	Main statistics of executive variable compensation by control model (amounts in thousand euros)	81
4.7	Main statistics of executive compensation and firms' performance (amounts in thousand euros)	82
4.8	Description of the variables used as regressors	85
4.9	Descriptive statistics for regressors	86
4.10	Pooled ordinary least squares regressions	87
4.11	Pooled ordinary least squares regressions	88
4.12	Tobit regressions	89
4.13	Tobit regressions	90
5.1	Summary statistics on CDS spreads for sample banks by geographic area	98
5.2	Financial ratios and predicted relationship with CDS spreads	99
5.3	Summary statistics on eight balance sheet indicators for sample banks	100
5.4	Correlations in the pre-crisis period and during the crisis	105
6.1	Market share of the different CRAs in Spain	114
6.2	Table of frequencies of ratings	114
6.3	Distribution of ratings by categories before and after the subprime crisis	116
6.4	Distribution of changes in rating	117
6.5	Descriptive statistics of the variables according to the rating assigned by Fitch in periods $P(t-1)$ and $P(t)$	124
6.6	Descriptive statistics of the variables according to the rating assigned by Standard and Poor's in periods $P(t-1)$ and $P(t)$	125
6.7	Descriptive statistics of the variables according to the rating assigned by Moody's in periods $P(t-1)$ and $P(t)$	126

6.8	Estimation of coefficients of Rating Change Models (RCMs) for each CRA	127
6.9	Likelihood ratio test RCM DP EF SC (2) VS RCM DP EF CC (3)	130
A6.1	Equivalencies between the rating agencies and the numerical scale defined	130
7.1	Descriptive statistics of the data sample	144
7.2	Distribution of the daily rating changes	146
7.3	Lead and lags between Moody's and S&P	150
8.1	Socio-demographic drivers and risk tolerance	164
8.2	Summary statistics for risk tolerance drivers	169
8.3	Differences in average values for UR and BR	170
8.4	Socio-demographic regularities for UR and BR in a multivariate framework	176
8.5	The real-life asset allocation of individuals	180
8.6	Score for drivers of insurance behaviours	181
8.7	The real-life risk and the individual risk tolerance indicators	183
A8.1	Some socio-demographic features of the sample	187
A8.2	Principal component analysis (PCA) for socio-economic drivers	188
9.1	Questionnaire items for assessing attitudes by component	204
9.2	Questionnaire items for assessing locus of control	205
9.3	Attitudes, locus of control and credit use	206
9.4	Attitudes towards credit by household per capita income	207
9.5	Attitudes towards credit by motivations	208
9.6	Influence of attitude and locus of control on preferred form of credit	209
9.7	Logistic regression analysis of recourse to credit	211
10.1	Suitability obligations: MiFID versus US legislative framework	223
10.2	Set of items suggested by MiFID for the suitability questionnaire	228
10.3	Description of profiles for bank A	234
10.4	Description of profiles for bank B	235
10.5	Description of profiles for bank C	235
10.6	Matching of profiles for banks A, B and C	235
10.7	Percentage of consistency of profiles across questionnaires	236
10.8	Number of questions in the questionnaires	236

10.9	Similarities in the three questionnaires	237
10.10	Differences in the three questionnaires	238
11.1	The main features of European regulation of clearing houses	249
11.2	The characteristics of the main European clearing houses	258
11.3	The main dimensions of the clearing houses annual profit, clearing fees (thousands of euros)	270
12.1	Key macroeconomic indicators: China (2007–11)	278
12.2	International use of a reserve currency	286
12.3	Potential advantages and disadvantages of a reserve currency status	290

# Contributors

**Rasha Alsakka** is a lecturer in banking and finance at Bangor Business School, Bangor University, UK. She holds a doctoral degree in finance from Aberystwyth University, UK. Her research interests include credit risk, credit ratings and emerging markets finance. Her work has appeared in internationally recognized journals, including *Journal of Banking and Finance*, *Emerging Markets Review* and *Finance Research Letters*.

**Pablo de Andrés-Alonso** is Professor of Finance at the University of Valladolid, Spain. His research interests include corporate governance, corporate finance and real options. He has published his research in journals such as the *Journal of Banking and Finance*, *Journal of Business Finance and Accounting*, *Corporate Governance: An International Review*, *Financial Review*, *Universia Business Review* and *Investigaciones Económicas*. He is in charge of the doctoral programme 'New Trends in Business Administration', and he is Executive Editor of *Spanish Journal of Finance and Accounting*. He is a Research Fellow of the Real Colegio Complutense at Harvard University, and was Visiting Researcher at Harvard University in 2009.

**Marcello Bianchi** is the Chairman of the OECD Corporate Governance Committee. He is also Head of the Regulatory Impact Assessment Unit at CONSOB (Italian Financial Markets Authority), where he has been working since 1990. At CONSOB, he has directed several research and regulatory activities concerning corporate governance issues, namely major shareholdings, pyramiding, related party transactions, takeover and board structure.

**Gianni Brighetti** is Associate Professor at the Department of Psychology, University of Bologna, Italy. He is also Director of their Postgraduate School in Health Psychology, as well as BIOLab and the Center for Affective Neuroscience. He has published several contributions in national and international peer-reviewed journals and books.

**Chris Carr** is Professor of Corporate Strategy at the University of Edinburgh, UK, where he has taught for the last 10 years. Previously Chris worked for over 10 years with British Aerospace, followed by GKN, where he helped to take the company global by building plants

in the USA, and then by over a year working in the Middle East. He is a Chartered Mechanical Engineer and also a Chartered Management Accountant. Since 1980, he has authored over 50 journal articles and conference papers on global strategy, strategic investment decisions and comparative approaches worldwide. Articles have been published in journals including the *Strategic Management Journal*, *Management International Review*, *Journal of Management Studies*, *Long Range Planning* and *Management Accounting Review*. He has also published two books, on *Britain's Competitiveness* (1990) and on *Strategic Investment Decisions in Britain and Germany* (1994).

**Barbara Casu** is Reader in Banking and Finance and member of the Centre for Banking Research at Cass Business School, City University, London. Previously, she was a Senior Lecturer in Financial Studies with the University of Wales, Bangor. Barbara's research interests focus on the areas of international banking; bank competition and performance; financial stability; bank regulation and supervision. Her research has been presented at international conferences and published in leading journals. In addition, Barbara is Associate Editor for the *European Journal of Finance*.

**Giusy Chesini** is an Associate Professor of Economics of Financial Intermediaries at the University of Verona, Italy, where she specializes in the structure and regulation of financial markets around the world. She attended, as a PhD student, the MBA in Finance at the City University of London (now Cass University). She teaches Economics of Financial Markets and Economics of Financial Intermediaries, mainly at graduate level. Her main research topics include the stock exchange industry, evolution of financial systems, banking and risk management. She often participates in Italian and international conferences, and she has written numerous papers on these subjects. She was a visiting professor at Baruch College, City University of New York, in 2010.

**Laura Chiaramonte** holds a BSc in Business Economics and a PhD in Business Administration from the University of Verona. Her research interests include hedge fund strategies, the evolution of financial systems, the drivers and effects of bank acquisitions, domestic and cross-border banking consolidation in Europe, the causes and consequences of the subprime crisis, and the role of bank CDSs in the recent financial crisis.

**Angela Ciavarella** is an economist at the Department of Economic Studies of CONSOB (Italian Financial Markets Authority). She holds

a PhD in Economics from the University of Naples 'Federico II' and a Master's in Mathematical Economics and Econometrics from the University of Toulouse. Her research interests include corporate governance, regulatory impact assessment and institutional economics.

**Stefano Cosma** is Professor of Banking at the University of Modena and Reggio Emilia, Italy. He holds a PhD in Business Administration from University Cà Foscari, Venice, and a Master's degree in Organization and Management of Human Resources. He is a member of CEFIN (Centro Studi in Banca e Finanza).

**Juan Francisco Fernández de Guevara** is an Assistant Professor at the Universitat de València, where he graduated in Economics in 1995 and received his PhD with special honours in 2005. From 1997 to 2008 he was a member of the technical staff at the Instituto Valenciano de Investigaciones Económicas (Ivie). Currently he is also a regular collaborator at the Ivie. His research interests are financial economics, banking and social capital. He has jointly published more than five books and several articles in Spanish and international journals such as *Journal of Banking and Finance*, *Regional Studies*, *Journal of International Money and Finance*, *The Manchester School*, *Revista de Economía Aplicada* and *Revista de Economía Financiera*, among others. He has collaborated in more than 20 research projects for firms and institutions. He has also been an associate researcher for several projects of the Spanish National R+D+I Plan.

**Owain ap Gwilym** is a Professor of Finance at Bangor Business School, Bangor University, UK. His research interests are in credit risk, market microstructure and investment management. He has published widely in international journals, including *Journal of Banking and Finance*, *Journal of Futures Markets*, *Journal of Derivatives* and *Financial Analysts Journal*. He is a co-editor of InteractiveData publications on credit ratings.

**Barry Howcroft** is Professor and Deputy Dean of the Business and Economics School at Loughborough University. After graduating from Bangor University with a BA in Economics and an MSc in Financial Economics, Barry worked in private industry and was subsequently employed by NatWest in their commercial lending arm. He eventually moved into academia and was appointed Deputy Director of Loughborough University Banking Centre in 1985. He became the Director of the Banking Centre in 1992 and held this position for 11 years. In 1997 he was appointed to a personal chair in Retail Banking.

Barry's main research interests are in the area of strategies in retail banking, and within this field he has published extensively on delivery channels, quality of service, customer retention branch efficiency and the internationalization of banks. He was joint editor of *The Service Industries Journal* from 1992 to 2009 and has written and contributed to over 30 books on banking and finance. In 1992 he received the Literati Club award for excellence and the most outstanding paper award in 1997. In 2003 he obtained an entry in *Who's Who in the World* and in 2005 was appointed a Fellow of the Institute of Bankers.

**Caterina Lucarelli** is Associate Professor at the Department of Economics, Polytechnic University of Marche, Italy. She is the national coordinator of research on risk tolerance in investment and debt decision, supported by the Italian Ministry of University and Research. She has published several contributions in national and international peer-reviewed journals and books.

**Nicoletta Marinelli** is a Research Fellow in Financial Intermediation at the Faculty of Economics, University of Rome 'La Sapienza', Rome, Italy. She teaches financial intermediation and insurance. Her research interests involve market microstructure, behavioural finance and pension funds management.

**Camilla Mazzoli** is an Assistant Professor of Financial Intermediation at the Faculty of Economics, Università Politecnica delle Marche, Ancona, Italy. She teaches financial intermediation, trading and bank management. Her research interests involve market microstructure, behavioural finance and private equity.

**Philip Molyneux** is currently Professor in Banking and Finance and Head of Bangor Business School at Bangor University. He has published widely in the banking and financial services area, including articles in *European Economic Review*, *Journal of Banking and Finance*, *Journal of Money, Credit and Banking*, *Economics Letters* and *Economica*. Between 2002 and 2005 he acted as a member of the ECON Financial Services expert panel for the European Parliament. His most recent co-authored texts are: *Thirty Years of Islamic Banking* (Palgrave Macmillan, 2005), *Introduction to Banking* (FT Prentice Hall, 2006) and *Introduction to Global Financial Markets* (Palgrave Macmillan, 2010). He recently (2010) co-edited (with Berger and Wilson) the *Oxford Handbook of Banking* (OUP).

**Andy Mullineux** is Professor of Global Finance and Director of the Global Finance Research Group and the Finance Group of the

Department of Accounting and Finance in the Birmingham Business School at the University of Birmingham. He has published extensively on monetary policy and business cycles as well as financial restructuring and regulatory and supervisory reform in developed and emerging market economies. More recently he has been working on financial exclusion, access to finance, micro and small enterprise financing and the corporate governance of banks.

**Carlos Salvador Muñoz** is a Spanish PhD Candidate at the University of Valencia pursuing the specialization in Banking, holding a 'V Segles programme' Scholarship. He holds a five-year degree in Economics from the University of Valencia and a two-year Master's in Banking and Quantitative Finance from the Universities of Valencia and Complutense (Madrid). Before joining the Doctoral Programme, he served for one year as a collaborator in the Department of Economic Analysis of his University and worked for three months in the Bank of Valencia as a risk manager. He has also gained practical experience through his internships at the Investment Department of the Bancaja Group – Saving Bank (two years) and at the Insurance Division of the regional government in Valencia (six months). He hopes to publish his thesis about the role of rating in the solvency of financial entities in the next two years.

**Valerio Novembre** is an economist at the Department of Economic Studies of CONSOB (Italian Financial Markets Authority). He holds a PhD in Economics, Markets and Institutions from the IMT Institute for Advanced Studies in Lucca and an MSc in Finance and Regulation from the London School of Economics and Political Science. His research interests include financial regulation, regulatory impact assessment and institutional economics.

**José Manuel Pastor** holds a PhD (Econ) from the University of Valencia. He is currently a lecturer at the University of Valencia and a researcher at the Ivie. He has been a visiting scholar at Florida State University and external consultant at the World Bank. He has published several books and articles in academic journals on topics such as banking, education and regional economics.

**Francesco Pattarin** is Professor of Banking and Finance at the University of Modena and Reggio Emilia, Italy. He holds an MSc in Finance from Birkbeck College (UK) and a PhD in Economics from the University of Rome 'La Sapienza', and is a member of CEFIN (Centro Studi in Banca e Finanza).

**Rossella Signoretti** is an economist at the Department of Economic Studies of CONSOB (Italian Financial Markets Authority). She holds a PhD in Banking and Finance from the University of Roma 'Tor Vergata'. Before joining CONSOB, she was a research assistant in finance at the University of Roma III. Her research interests include corporate governance, regulatory impact assessment and institutional economics.

**Rehan ul-Haq** is a Lecturer in Strategic Management (US Eq. Assistant Professor) and Director of CIBOR (Centre of International Business and Organisation Research) at the Birmingham Business School, University of Birmingham. Dr ul-Haq's main contribution to knowledge concerns alliances in banking, with two books published by Palgrave Macmillan, *International Banking Strategic Alliances: Reflections on BNP/Dresdner* and *Alliances and Co-Evolution: Insights from the Banking Sector*. He holds a MBA from Henley and previously held an ESRC Fellowship at Loughborough University Business School/Banking Centre. Dr ul-Haq has previous practitioner experience as a corporate lending banker in an emerging markets-orientated bank in the City of London.

**Eleuterio Vallelado-González** is Professor of Finance at Universidad de Valladolid. He obtained his BA in Economics and Business and his PhD at the University of Valladolid (Spain) and MBA from Stern School of Business, New York University (USA). He has published widely in the areas of corporate finance, banking and behavioural finance. He is the author of several books, and his articles can be found in *Journal of Banking and Finance*, *Applied Economics*, *Financial Review*, *Abante*, *Spanish Review of Finance and Accounting*, *Universia Business Review* and *Cuadernos de Economía y Dirección de Empresas*, among others. His research interests include corporate finance, corporate governance in banks and behavioural finance. He was a visiting researcher at UC Berkeley in 2010.

**René W.H. van der Linden** studied economics at the University of Amsterdam and is currently lecturer in Economics and Banking and Finance at the InHolland University of Applied Sciences in Amsterdam/Diemen, the Netherlands. He was previously with the Erasmus University Rotterdam and the Amsterdam Academy for Banking and Finance, a collaborative venture between InHolland and the Free University of Amsterdam. He has published several papers on the Chinese economy and banking system and is co-author of the textbook *European Business Environment: Doing business in EU* (Noordhoff, 2010).
