Acute Neuronal Injury
Acute Neuronal Injury

The Role of Excitotoxic Programmed Cell Death Mechanisms
Editor
Denson G. Fujikawa, MD
Department of Veteran Affairs
VA Greater Los Angeles Healthcare System
16111 Plummer St
North Hills, CA 91343
Department of Neurology
David Geffen School of Medicine
University of California, Los Angeles
710 Westwood Plaza
Los Angeles, CA 90095

This book would not have been possible without the pioneering work of John W. Olney, MD, to whom it is dedicated
# Contents

1 **Introduction** ........................................................................................................ 1  
Denson G. Fujikawa  

## Part I  Caspase-Independent Programmed Cell Death: General Considerations  

2 **Caspase-Independent Cell Death Mechanisms in Simple Animal Models** .............................................................................................................. 9  
Matthias Rieckher and Nektarios Tavernarakis  

3 **Programmed Necrosis: A “New” Cell Death Outcome for Injured Adult Neurons?** ......................................................................................... 35  
Slavica Krantic and Santos A. Susin  

4 **Age-Dependence of Neuronal Apoptosis and of Caspase Activation** ............................................................................................................. 67  
Denson G. Fujikawa  

5 **Excitotoxic Programmed Cell Death Involves Caspase-Independent Mechanisms** ......................................................................................... 79  
Ho Chul Kang, Ted M. Dawson, and Valina L. Dawson  

## Part II  Focal Cerebral Ischemia  

6 **Significant Role of Apoptosis-Inducing Factor (AIF) for Brain Damage Following Focal Cerebral Ischemia** ....................................................... 91  
Nikolaus Plesnila and Carsten Culmsee  

7 **The Role of Poly(ADP-Ribose) Polymerase-1 (PARP-1) Activation in Focal Cerebral Ischemia** .......................................................... 103  
Giuseppe Faraco and Alberto Chiarugi
Part III  Transient Global Ischemia

8 Transient Global Cerebral Ischemia Produces Morphologically Necrotic, Not Apoptotic Neurons
Frederick Colbourne and Roland N. Auer

9 Apoptosis-Inducing Factor Translocation to Nuclei After Transient Global Ischemia
Can Liu, Armando P. Signore, Guodong Cao, and Jun Chen

10 Role of μ-Calpain I and Lysosomal Cathepsins in Hippocampal Neuronal Necrosis After Transient Global Ischemia in Primates
Anton B. Tonchev and Tetsumori Yamashima

Part IV  Traumatic Central Nervous System (CNS) Injury

11 Mitochondrial Damage in Traumatic CNS Injury
Laurie M. Davis and Patrick G. Sullivan

12 Programmed Neuronal Cell Death Mechanisms in CNS Injury
Bogdan A. Stoica and Alan I. Faden

Part V  Hypoglycemic Neuronal Death

13 Hypoglycemic Brain Damage
Roland N. Auer

14 Hypoglycemic Neuronal Death
Raymond A. Swanson and Sang Won Suh

Part VI  Seizure-Induced Neuronal Death

15 Tumor Suppressor p53: A Multifunctional Protein Implicated in Seizure-Induced Neuronal Cell Death
Zhiqun Tan and Steven S. Schreiber

16 DNA Damage and Repair in the Brain: Implications for Seizure-Induced Neuronal Injury, Endangerment, and Neuroprotection
Samantha L. Crowe and Alexei D. Kondratyev

17 Activation of Caspase-Independent Programmed Pathways in Seizure-Induced Neuronal Necrosis
Denson G. Fujikawa

Concluding Remarks
Denson G. Fujikawa

Index
Contributors

Roland N. Auer, MD, PhD, FRCP
Department of Pathology & Laboratory Medicine, 3330 Hospital Drive NW, Health Sciences Centre, University of Calgary, Calgary, AB, Canada

Guodong Cao, PhD
Geriatric Research, Educational and Clinical Center, Veterans Affairs Pittsburgh Health Care System, Pittsburgh, Pennsylvania, 15261, USA

Jun Chen, MD
State Key Laboratory of Medical Neurobiology, Fudan University School of Medicine, Shanghai, China 200032, Department of Neurology, University of Pittsburgh School of Medicine, Pittsburgh, Pennsylvania 15261 USA, Geriatric Research, Educational and Clinical Center, Veterans Affairs Pittsburgh Health Care System, Pittsburgh, Pennsylvania, 15261, USA

Alberto Chiarugi, PhD
Department of Preclinical and Clinical Pharmacology, University of Florence, Viale Pieraccini 6, 50139 Firenze, Italy

Frederick Colbourne, PhD
Professor & AHFMR Senior Medical Scholar, P217 Biological Sciences Building, Department of Psychology, University of Alberta, Edmonton, AB, Canada T6G 2E9

Samantha L. Crowe, PhD
National Institute of General Medical Sciences Pharmacology Research Associate (PRAT) Fellow, Mood and Anxiety Disorders Program, National Institute of Mental Health, 15K North Drive, Bldg 15K, Room 300-D, MSC 2670, Bethesda, MD 20892-2670, USA

Carsten Culmsee, PhD
Clinical Pharmacy–Pharmacology and Toxicology, Philipps-University of Marburg, Germany

Laurie M. Davis, PhD
The Spinal Cord & Brain Injury Research Center, The University of Kentucky, Chandler College of Medicine, 741 South Limestone Street, Lexington, KY, USA
Valina L. Dawson, PhD
Neuroregeneration and Stem Cell Programs, Institute for Cell Engineering, Johns Hopkins University School of Medicine, 733 North Broadway, Suite 711, Baltimore, MD 21205, USA

Ted M. Dawson, MD, PhD
Institute for Cell Engineering, Johns Hopkins University School of Medicine, 733 North Broadway, BRB731, Baltimore, MD 21205, USA

Alan I. Faden, MD
Department of Neuroscience, Georgetown University Medical Center, 3970, Reservoir Road NW, Room EP-12, Washington, DC 20057, USA

Giuseppe Faraco, PhD
Department of Preclinical and Clinical Pharmacology, University of Florence, Viale Pieraccini 6, 50139 Firenze, Italy

Denson G. Fujikawa, MD
Neurology Department, VA Greater Los Angeles Healthcare System, North Hills, CA 91343, USA and Department of Neurology and Brain Research Institute, David Geffen School of Medicine, University of California, Los Angeles, Los Angeles, CA 90095, USA

Ho Chul Kang, PhD
Institute for Cell Engineering, Johns Hopkins University School of Medicine, 733 North Broadway, BRB731, Baltimore, MD 21205, USA

Alexei Kondratyev, PhD
Assistant Professor, Departments of Pediatrics and Pharmacology, Georgetown University, W208 Research Bldg, 3970 Reservoir Road, N.W., Washington, DC 20057, USA

Slavica Krantic, PhD
Douglas Mental Health University Institute, Department of Psychiatry, McGill University, 6875 LaSalle Boulevard, Verdun, Montréal, QC, Canada H4H 1R3

Can Liu, BS
State Key Laboratory of Medical Neurobiology, Fudan University School of Medicine, Shanghai, China 200032

Nikolaus Plesnila, MD, PhD
Departments of Neurodegeneration and Physiology, Royal College of Surgeons in Ireland (RCSI), Dublin 2, Ireland

Matthias Rieckher, PhD
Institute of Molecular Biology and Biotechnology, Foundation for Research and Technology – Hellas (FORTH), N. Plastira 100, Vassilika Vouton, PO Box 1385, Heraklion 70013, Crete, Greece
Contributors

Steven S. Schreiber, MD
Departments of Neurology and Anatomy and Neurobiology, Institute for Brain Aging and Dementia, University of California Irvine School of Medicine, Irvine, CA 92697 USA and VA Long Beach Healthcare System, Long Beach, CA 90822, USA

Armando P. Signore, PhD
Department of Neurology, University of Pittsburgh School of Medicine, Pittsburgh, Pennsylvania 15261, USA

Bogdan A. Stoica, PhD
Department of Neuroscience, Georgetown University Medical Center, Washington, DC 20057, USA

Patrick Sullivan, PhD
Associate Professor of Anatomy & Neurobiology, Endowed Chair and Associate Director of The Spinal Cord & Brain Injury Research Center (SCoBIRC), The University of Kentucky Chandler College of Medicine, 475 BBSRB, 741 South Limestone Street, Lexington, KY 40536-0509, USA

Santos A. Susin, PhD
INSERM, U872, Team 19, Centre de Recherche des Cordeliers, Paris, France

Sang Won Suh, PhD
(127) Neurology, San Francisco Veterans Affairs Medical Center, 4150 Clement Street, San Francisco, CA 94121, USA

Raymond A. Swanson, MD
(127) Neurology, San Francisco Veterans Affairs Medical Center, 4150 Clement St., San Francisco, CA 94121, USA

Zhiquin Tan, PhD
Department of Neurology and Institute for Brain Aging and Dementia, University of California Irvine School of Medicine, Irvine, CA 92697, USA

Nektarios Tavernarakis, PhD
Research Director, Institute of Molecular Biology and Biotechnology, Foundation for Research and Technology – Hellas (FORTH), N. Plastira 100, Vassilika Vouton, PO Box 1385, Heraklion 70013, Crete, Greece

Anton B. Tonchev, PhD
Department of Restorative Neurosurgery, Kanazawa University Graduate School of Medical Science, Takara-machi 13-1, Kanazawa 920-8641, Japan, Laboratory of Cell Biology, Medical University of Varna, Marin Drinov 55 street, Varna 9002, Bulgaria

Tetsumori Yamashima, MD, PhD
Department of Restorative Neurosurgery, Kanazawa University Graduate School of Medical Science, Takara-machi 13-1, Kanazawa 920-8641, Japan
