<i>Bibliography</i>	173
<i>Index</i>	189

Figures and Tables

Figures

1.1	Intra-provincial inequality in education finance	14
2.1	A framework of elements and stages in institutional analysis and development	28
4.1	Budgetary revenue and expenditure of the center (1978–2009)	84
4.2	Budgetary revenue and expenditure of local governments (1978–2009)	85
4.3	Fiscal dependency and personnel rules	92
5.1	Effect of educational background on promotion speed	105
5.2	Party age and promotion speed	107
5.3	Promotion speed and age of joining CCP	108
5.4	Promotion speed and divergence of education equalization (Model 2)	122
5.5	Governor's promotion speed and education inequality (Model 2)	122
5.6	Governor's promotion speed and education inequality (Model 2)	123
5.7	Secretary's retirement rule and education inequality (Model 2)	124
5.8	Fiscal dependencies and education inequality (Model 2)	125

Tables

1.1	Regional disparities in financing compulsory education	3
3.1	Education inequality of Jiangsu, Henan and Ningxia (1994–2001)	68
5.1	Descriptive statistics of numeric variables (1994–2007)	94
5.2	Descriptive statistics of dummy variables (1994–2007)	95
5.3	Explaining promotion speed	102
5.4	Data sources	112
5.5	Inequalities in education finance (1994–2007)	113
5.6	Descriptive statistics of retirement rule	114
5.7	Descriptive statistics of fiscal dependency	115
5.8	Heteroskedastic linear regression models	118

Acknowledgments

This book could never have been completed without the help of many people. I would like to thank Professors Yang Ming and Shen Mingming for first sparking my interest in China studies and quantitative methods when I was a student in Peking University's master's program in comparative politics. As I progressed through the PhD program in the Department of Politics and Public Administration, University of Hong Kong, I was truly blessed to have a wonderful and dedicated group of supervisors and dissertation advisors. Professor John Burns, Dr Daniel Lam and Dr Peter Cheung were extremely generous with their time and consistently pushed me to improve. I would like to express my deepest gratitude in particular to Professor Burns for his advice, support and encouragement throughout the course of my research and studies. I enjoyed his style of supervision.

I would also like to thank Professor Gerard Postiglione in the Faculty of Education at the University of Hong Kong, Dr Richard Hu at the University of Hong Kong, Professor Gong Ting at the City University of Hong Kong and Dr Glenn Shive at the Hong Kong American Center for their help at various stages of researching and writing this book.

I am grateful for the financial support that made it possible for me to attend the ICPSR's summer program on quantitative methods at the University of Michigan (2006) and to conduct dissertation research at Harvard University (2007–2008).

Support for this research was provided by the Priority Academic Program Development of Jiangsu Higher Education Institutions, a Research Postgraduate International Travel Grant and the Fulbright (Hong Kong) Scholarship. While in the US, I received inestimable help from Professors Elizabeth Perry, Martin Whyte, Gary King and Ronald Suleski at Harvard University, Shi Tianjian and Emerson Niou at Duke University, and many more academic experts at the Fairbank Center and Harvard-Yenching Institute. I really appreciate all the kindness I experienced in the US.

I would also like to acknowledge my friends in the Department of Politics and Public Administration, who made my stay in HKU not only possible but pleasurable.

Last, but certainly not least, I am also indebted to my family and friends outside academia. I thank my parents for their endless love.

* * *

The author and publisher acknowledge, with thanks, the permission of Taylor & Francis Ltd (<http://www.tandf.co.uk/journals>) to use Tingjin Lin's article entitled "Intra-provincial Inequality in Financing Compulsory Education in China: Exploring the Role of Provincial Leaders (1994–2001)," published in the *Asia Pacific Journal of Education* on September 1, 2009.

A project funded by the Priority Academic Program Development of Jiangsu Higher Education Institutions.

Note on Transliteration

Pinyin, formally Hanyu Pinyin, is the official system used for transcribing Chinese characters into Latin script in Mainland China, Taiwan and Singapore. Developed in the mid-20th century by the Chinese government, the pinyin system has become the internationally recognized standard for transliterating Chinese text. It has also been the standard for the global scholarly community for more than two decades and is the standard used by the United Nations and most of the world's media. It is used throughout the book for transliterating Chinese characters.
