Acknowledgments

I would like to thank my doctoral supervisors, Roberta Pearson and Gianluca Sergi, for their seemingly inexhaustible patience and flexibility when it came to my topic, my writing, and my personal needs. None of this would be possible without the generosity and support of Sharon Monteith, Ann McQueen, and the entire department at the University of Nottingham, including the amazing assistance from the faculty, staff, and my fellow student colleagues. I also want to thank Peter Krämer for help with early drafts. Any errors are my own.
