

**Lessons in Sustainable Development from
Malaysia and Indonesia**

Comparative Studies of Sustainable Development in Asia

Series Editor: **Sara Hsu**, Assistant Professor, SUNY New Paltz, USA

This series examines sustainable development in various countries in Asia, using a common framework with which to explore social, economic and environmental regulations and practices such as water pollution and consumption, income inequality and healthcare, and biodiversity. In each Palgrave Pivot book of about 30,000 words, we explore the sustainable development frameworks of two countries, laying out their progress in this area and comparing the two to highlight policy recommendations.

The consistent sustainable framework applied to each country allows us to examine and compare sustainable development sub-topics across countries, and to clearly note the gaps in progress among countries. The common framework also allows us to highlight, among countries, which policies and experiments have been most successful.

Titles include:

James Gander, at the University of Utah. (Sara Hsu)*

Contents

List of Figures	vii
List of Tables	viii
Author Biography	ix
Introduction	1
1 Theoretical Framework	3
2 Sustainable Development in Malaysia and Indonesia	7
3 Sustainable Development Programs and Experiments	71
4 Directions for Future Study	76
Conclusion	79
References	81
Index	95

List of Figures

1.1	Components of sustainable development	4
2.1	Motor vehicles per 1,000 people	23
2.2	Income inequality in Malaysia: Gini coefficient	30
2.3	Top 20% versus bottom 40% (1970–2012)	31
2.4	Incidence of poverty and hardcore poverty	32
2.5	World governance indicators	33
2.6	Adjusted savings net energy depletion (% of GNI)	37
2.7	Forest depletion	37
2.8	Adjusted net savings	38
2.9	Particulate matter (PM ₁₀) emissions at the country level (micrograms per cubic meter)	44
2.10	Installed capacity (MW) of state electricity company (PLN) 1995–2011	46
2.11	Unemployment (% of labor force) (national estimate)	56
2.12	Government debt and tax revenues	57
2.13	Health indicators: prevalence of undernourishment, tuberculosis detection rate	60

List of Tables

2.1	Sources of electricity	12
2.2	Energy demand by sector	12
2.3	Existing power generation capacities from renewable energy in peninsular Malaysia (April 2008)	13
2.4	Health statistics (2012)	24
2.5	Health indicators	24
2.6	Health risks	25
2.7	Nine research priorities	28
2.8	Number of poor people, percentage of poor people, 1980–2010 (national poverty line)	64

Author Biography

Sara Hsu is Assistant Professor of Economics at the State University of New York at New Paltz, USA. Hsu specializes in Chinese economic development, informal finance, and shadow banking. She has published the only English language book on the topic of Chinese informal finance, entitled *Informal Finance in China: American and Chinese Perspectives*, as well as the only Chinese-language book on Chinese shadow banking. She has also published a number of articles and books on the topics of sustainable development, financial crises, and trade.

Prior to working at the State University of New York at New Paltz, Hsu was a visiting professor at Trinity University in San Antonio, Texas, and an adjunct professor at the University of Texas at San Antonio and St. Edward's University in Austin, Texas. Hsu also worked in the dot-com industry in New York. She earned her PhD from the University of Utah and her BA from Wellesley College.

Nathan Perry is Assistant Professor of Economics at Colorado Mesa University. Perry earned his PhD from the University of Utah and his BA from Westminster College in Salt Lake City, Utah. Perry specializes in money and banking and inflation issues (the Great Moderation), economic history (the Great Depression), and institutions in economic development. Perry served as a visiting research fellow for Global Development and the Environment (GDAE) from 2012 to 2014, where he published work on deficits and debt.
