Great Thinkers in Economics Series

Series Editor: A. P. Thirlwall is Professor of Applied Economics, University of Kent, UK.

Great Thinkers in Economics is designed to illuminate the economics of some of the great historical and contemporary economists by exploring the interactions between their lives and work, and the events surrounding them. The books are brief and written in a style that makes them not only of interest to professional economists, but also intelligible for students of economics and the interested lay person.
