# List of Figures

1.1	Equity risk spreads and default spreads on Baa-rated corporate bonds	3
1.1	Baker-Wurgler series expected return	26
1.2	Analysts' target return Baker-Wurgler index	31
1.3	Covariation between BW and percentage of investment professionals	42
3.1	Distribution of performance (return) from model simulation	80
3.2	Performance and risk-return as a function of the learning rate	82
3.3	Risk-return effects from environmental shifts and major loss events	84
4.1	Distribution of firms across one-digit SIC-code industries in the samples	95
4.2	The development of the S&P 500 index 1991–2010	100
5.1	Hypothesised relationships	124
5.2	Structural equation model	132
7.1	The canaries in the cave	164
7.2	Belief elicitation interface	169
7.3	Number of CRO respondents by month	171
7.4	Subjective beliefs over the return on the Standard & Poors 500 Index in one year	182
7.5	Elicited subjective beliefs of all subjects on the return on the Standard & Poors 500 Index in one year (2)	183
7.6	Which model of equities risk is best?	184
7.7	Which model of equities risk is best? (2)	185
7.8	Which model of equities risk is best? (3)	186
7.9	Which model of equities risk is best? (4)	187
7.10	Longitudinal beliefs	191
8.1	Quarterly and the four-quarter moving average default rate, 1989–2013	205
8.2	S&P Leveraged Loan Index 12-month moving average default rate, 1998–2013	207
8.3	Historical default rates and recession periods in the US high-yield bond market, 1972–2013	207
8.4	Total filings and liabilities of public companies filing for Chapter 11 bankruptcy, 1989–2013	208

8.5	Chapter 11 filings, sample characteristics, 1981–2013 1H	211
8.6	Success vs nonsuccess in Chapter 11 reorganizations (based on known outcomes), 1981–2013 1H	211
8.7	Time in bankruptcy: median, 1981–2013 1H	213
8.8	Time in bankruptcy: average, 1981–2013 1H	213
8.9	Time in bankruptcy: average, prepack vs non-prepack, 1981–2013 1H	214
8.10	Time differential between default and bankruptcy filings, 1981–2013	215
8.11	Distribution of years to default from original issuance date: summary chart, 1991–2013	218
8.12	Recovery rate/default rate association, dollar weighted average recovery rates to dollar weighted average default rates, 1982–2013	224
8.13	Corporate bond default recovery rate	228
8.14	YTM and option-adjusted spreads between high-yield bonds and US Treasury Notes, 1 June 07–31 December 13	234
8.15	Five-year implied probabilities of default (PD) from capital market CDS spreads, January 2009–December 31, 2013	238
8.16	Italy, five-year implied probabilities of default (PD) from sovereign CDS spreads vs 75th percentile corporate PD, 2008–2013	239
8.17	Portugal, five-year implied probabilities of default (PD) from sovereign CDS spreads vs 75th percentile corporate PD, 2008–2013	240
8.18	Spain, five-year implied probabilities of default (PD) from sovereign CDS spreads vs 75th percentile corporate PD, 2008–2013	240
8.19	Brazil, five-year implied probabilities of default (PD) from sovereign CDS spreads vs 75th percentile corporate PD, 2008–2013	241
8.20	Purchase price multiples excluding fees for LBO transactions, 1998–2013	242
8.21	Average total debt leverage ratio for LBOs: Europe and US with EBITDA of €/\$50M or more, 1999–2013	243
8.22	Percentage of new high-yield issues Rated B- or below, 1993–2013	244
8.23	Distressed and defaulted debt, as a percentage of total high-yield plus defaulted debt market, 1990–2013	245
8.24	Market-based annual default rate forecast: default rate(t+1)vs yield-spreads(t), 1990–2012	249

8.25	Distress ratio history, year-end, 2000–2013	251
8.26	Market-based annual default rate forecast: annual default rate (t+1) vs annual distress ratio (t), 1990–2012	252

# List of Tables

1.1	Statistics summary	16
1.2	Mean correlations for the years, 1999–2014	17
1.3	Expected return and characteristics	18
1.4	Risk vs return	19
1.5	CorrQC VLTl	21
1.6	CorrQC and VLTl risk and return	22
1.7	Correlation with BW	27
1.8	Average target return for each calendar year beginning in 2004	29
1.9	Results of year-by-year regressions for these surveys, for VLTl regressed on beta, size, and B/M	32
1.10	Time series of correlation coefficients in survey data	33
1.11	Contrast of regression coefficients from Table 1.9	33
1.12	Statistics summary	38
1.13	Correlation coefficients	38
1.14	Correlations for portfolio managers and analysts	39
1.15	Summary data for correlations	39
1.16	Correlations across responding groups	41
1.17	Correlation between BW and PPSE	42
1.18	Comparative correlations	43
3.1	Six scenarios determined by adaptive process and environmental context	72
3.2	Cross-sectional and longitudinal risk-return relationships, 1991–2000	75
3.3	Simulation results from six adaptive-environmental scenarios	79
4.1	Descriptive data from the firm samples	95
4.2	Descriptive statistics and correlation analysis	102
4.3	Regressions results with Altman’s Z-score as dependent variable	104
4.4	Regression results with beta as dependent variable	104
5.1	Factor loadings and reliabilities	128
5.2	Descriptive statistics and correlations	130
5.3	Structural equation modeling results	131
6.1	Summary of the review process	145

6.2	The functional perspective on risk management systems	148
6.3	The institutional perspective of risk management systems	150
6.4	The practice-based perspective on risk management systems	153
6.5	Implications for strategic risk management	157
7.1	Summary of elicitation results for November 2013	192
8.1	Historical default rates – straight bonds only, not including defaulted issues in par value outstanding, 1971–2013 (dollars in millions)	204
8.2	Historical bankruptcy filings, 1980–2013	209
8.3	Corporate bond defaults by industry (number of companies)	216
8.4	Fallen angels vs original (S&P) issue and all high-yield default rates (in %), 1985–2013	219
8.5	Default rates and losses, 1978–2013	220
8.6	Weighted average (by issue) recovery rates on defaulted debt by seniority per \$100 face amount, 1978–2013	222
8.7	High-yield bond distressed exchange (D/E) default and recovery statistics, 1984–2013	226
8.8	Recovery rates by seniority and original rating, corporate bond defaults	229
8.9	Mortality rates by original rating – all rated corporate bonds, 1971–2013	231
8.10	Annual returns, yields, and spreads on 10-year Treasury and high-yield bonds, 1978–2013	233
8.11	Mortality rate-based forecasts of default and recovery rates in the high-yield bond market, 2008–2014	248
8.12	Distress ratio and default rate comparison, 2000–2013	250
8.13	One-year default and recovery forecasts for 2013: summary of forecast models	252

# Notes on Contributors

**Torben Juul Andersen** is Professor of Strategy and International Management at the Copenhagen Business School (CBS) and Director of Center for Global Strategic Responsiveness. He was the Associate Dean for the CBS Full-time MBA Program from 2008 to 2012. He previously taught financial economics at George Mason University and Johns Hopkins University, and held positions as Vice President at Citibank/Citicorp Investment Bank, Senior Vice President at Unibank, Managing Director of SDS Securities, and Senior Consultant with PHB Hagler-Bailly. He has authored a number of books including *Managing Risk and Opportunity*, *Short Introduction to Strategic Management*, *Strategic Risk Management Practice*, *Perspectives on Strategic Risk Management* and *Global Derivatives: A Strategic Risk Management Perspective*. His scholarly articles have appeared in *Strategic Management Journal*, *Journal of Management Studies*, *Journal of Business Research*, *Long Range Planning* and *Risk Management* among others. He is an Honorary Fellow of the Institute of Risk Management (IRM) in London. His research interests focus on strategy-making processes, strategic responsiveness and strategic risk management issues. He holds a PhD in strategy and financial management from the University of North Carolina at Chapel Hill, an MBA in finance and international business from McGill University, and an MSc in economics from the University of Copenhagen.

Courses:

- Global Strategic Management
- Strategic Risk Management
- Risk Management for Corporate Leaders

**Edward I. Altman** was named to the Max L. Heine endowed professorship at Stern in 1988. Prior to his present position, Professor Altman chaired the Stern MBA Program for 12 years. He is an internationally known expert on corporate bankruptcy, high-yield bonds, distressed debt and credit risk analysis. He has received honorary degrees at the Hautes Etudes Commerciales in Paris, the University of Buenos Aires in Argentina, and Lund University in Sweden. Prof. Altman was listed

among the “100 Most Influential People in Finance” by the Treasury & Risk Management magazine. Among other things, he developed the Altman-Kuehne NYU Salomon Center Defaulted Bond and Defaulted Loan Index, one of the most well-known and respected index benchmarks. He and his colleagues are the only analysts providing statistics on the estimated size of defaulted and distressed debt markets. He was a founder and Executive Editor of the *Journal of Banking and Finance* and Advisory Editor of the John Wiley Frontiers in Finance Series. He has published and edited almost two-dozen books and more than 130 articles in scholarly journals. His works have appeared in many languages including French, German, Italian, Japanese, Korean, Portuguese and Spanish. His primary areas of research include bankruptcy analysis and prediction, credit and lending policies, risk management and regulation in banking, corporate finance and capital markets. Professor Altman received a PhD in finance from the University of California at Los Angeles (UCLA), an MBA in business finance from University of California at Los Angeles (UCLA) and a BA in economics from City College of New York.

Courses:

- Bankruptcy and Reorganization
- Corporate Finance

**Richard A. Bettis** holds the Ellison Distinguished Professor of Strategy and Entrepreneurship chair at the Kenan-Flagler Business School, UNC-Chapel Hill. His research has been published in the *Academy of Management Journal*, *Academy of Management Review*, *California Management Review*, *Journal of Management*, *Long Range Planning*, *Management Science*, *Organization Science*, *Strategic Management Journal* and the *Journal of World Business*. He is recipient of the Strategic Management Journal Best Paper Prize and has been an Associate Editor of the Strategic Management Journal for a decade. He was elected fellow of the Strategic Management Society, serving on its board of directors to become President Elect in 2002. He also served on the Board of Governors of the Academy of Management from 1989–1992. He consults for several firms and is a frequent speaker in management development programs. Recent clients include Bank of America, Dell Computers, General Electric, Johnson & Johnson, Merck, Motorola and Monsanto. Prior to his academic career he worked at General Motors as a product development engineer. His research focuses on strategic management issues, where his expertise extends to corporate strategy, global business

strategy and technology management. He received his PhD and MBA degrees from the University of Michigan.

Courses:

Corporate Strategy  
Managing Uncertainty

**Philip Bromiley** joined the Merage faculty during Fall 2005, after holding the Curtis L. Carlson Chair in Strategic Management and chairing the department of Strategic Management and Organization at the University of Minnesota's Carlson School of Management. He is the author of over 70 journal articles and book chapters as well as the two books: *Behavioral Foundations of Strategic Management* and *Corporate Capital Investment – A Behavioral Approach*. He serves on the editorial boards of *Strategic Management Journal*, *Journal of Management Studies* and *Journal of Management & Strategy*. He previously served on the editorial boards of *Strategic Organization*, *Organization Science*, *Journal of Management* and *Academy of Management Journal*. His research-based commentaries have appeared in the National Association for Corporate Director's blog, Minneapolis Star-Tribune and St. Paul Pioneer-Press. He is frequently quoted in newspapers and magazines, including the Wall Street Journal and The New Yorker, also regularly appearing on television and radio. His research takes a behavioral approach to a variety of strategic management topics including risk assessment, temporal leadership orientations, corporate risk-taking, capital investments and strategic decision processes. In addition to a PhD from Carnegie-Mellon University he holds a BA from Johns Hopkins University.

**Ulrik Christiansen** is a PhD Candidate at the Department of Operation Management, Copenhagen Business School and works in the Internal Audit Department of the Danish Ministry of Defense and remains attached to the Ministry while completing his PhD studies in risk management-related topics based on experiences from the central administration. He has published his research in numerous working papers and an article in the *Scandinavian Journal of Management*. Before joining the Ministry of Defense, he worked as a Research Assistant at the Institute for Leadership and Organization at the Royal Danish Defense College. Prior to that, Ulrik Christiansen was a Navy Special Operation Soldier ('navy seal') and Team Leader at the Royal Danish Frogman Corps. He holds a Bachelor of Business Administration in Industrial and Organizational Psychology from the Copenhagen Business School.

**Anders Østergaard Hansen** holds an MSc in Finance and Strategic Management from the Copenhagen Business School (CBS) as well as a BSc in Economics and Business Administration. He was a teaching assistant in managerial economics for BSc students at CBS during his graduate studies with professional experience from Bain & Company and Handelsbanken Capital Markets as a corporate finance analyst doing company valuation and financial modeling. He also worked for media agency Adhost, building their business in the wider Copenhagen region.

**Glenn Harrison** is the C.V. Starr Chair of Risk Management & Insurance, and Director of the Center for the Economic Analysis of Risk (CEAR) in the Department of Risk Management & Insurance, J. Mack Robinson College of Business, Georgia State University. He has over 160 academic publications, including in general journals such as *Econometrica*, *American Economic Review*, *Journal of Political Economy*, the *Economic Journal*, the *Journal of Economic Literature*, *Journal of the American Statistical Association*, and the *American Journal of Public Health*, and in specialist journals such as the *World Bank Economic Review*, *Journal of Development Economics*, *Journal of African Economies*, *Journal of Environmental Economics & Management*, *Journal of Health Economics*, *Journal of Law & Economics*, *Experimental Economics* and *Journal of Economic Methodology*. His current research interests include risk and uncertainty, time preferences, subjective beliefs, experimental economics, and development economics. He has been a consultant for numerous government agencies and private bodies. These include the World Bank, the Swedish government and the United States Environmental Protection Agency, the Danish government, and counsel representing parties suing for economic damages. His research interests include experimental economics, law and economics, international trade policy and environmental policy. He received a PhD in economics and an MA Degree from the University of California, Los Angeles (UCLA).

Courses:

- Experimental Economics
- Environmental and Resource Economics
- International Trade Policy

**Brenda Kuehne** is an experienced Research Associate within the Credit and Debt Markets Research Program at the Salomon Center of the NYU Stern School of Business, where she has worked with Ed Altman con-

ducting analyses on high-yield defaults and recoveries, corporate bankruptcies and distressed debt. She has 12 years of fixed income product experience, having been previously employed by institutions such as TD Securities and Greenwich Natwest/Natwest Capital Markets as an analyst in credit and structured derivative products.

**Stefan Linder** is the author or co-author of a number of books including *Investitionskontrolle*, *Verhaltensorientiertes* and *Better Budgeting or Beyond Budgeting?* His research has been published in *Corporate Finance Review*, *European Accounting Review*, *International Journal of Strategic Change Management*, *Journal of Cost Management*, *Journal of Management & Governance*, *Risk, Compliance & Audit* and *Zeitschrift für Planung und Unternehmenssteuerung*. He is a frequent contributor to magazines and newspapers such as *CFO aktuell*, *Controller Magazin*, *ControllerNews* and *Frankfurter Allgemeine Zeitung*. His research areas comprise strategic and operational planning and budgeting processes, autonomous strategic action and bottom-up strategic entrepreneurship, and the motivational and behavioral impacts of management control systems. He received his PhD at the Copenhagen Business School. Before his academic career Dr. Linder was a management consultant with CTcon GmbH in Bonn, Germany.

Courses:

- Management Control
- Strategic Cost Management
- Management Systems Research

**Richard D. Phillips** conducts research in the financial risk management practices of insurers, use of financial pricing models of insurance, and various regulatory issues pertaining to the insurance industry. He has been advisor to the Federal Government and major US actuarial consulting firms, modeling property/liability insurer cash flows. He is a member of the American Risk and Insurance Association, American Finance Association and the Risk Theory Society. Dr. Phillips was named chair of the Risk Management and Insurance Department in July of 2006. His research has been widely published in the *Journal of Banking and Finance*, *Journal of Financial Economics*, *Journal of Financial Services Research*, *Journal of Insurance Regulation*, *Journal of Risk and Insurance*, *Journal of Risk and Insurance Regulation and Risk Management* and *Insurance Review*. He is the CEO and chairman of Risk Index Partners, a senior consultant with Charles River Associates, and a board member of

Munich American Reinsurance Corporation. He is a fellow of the Wharton Financial Institutions Center. He received a PhD and MA in Insurance and Finance from the University of Pennsylvania. His research interests focus on the areas of financial risk management, financial and insurance economics, and regulation of US insurance markets.

**Devaki Rau's** primary research interests focus on strategic decision-making, top management teams and management of expertise. Her research has been published in *Information Systems Frontiers*, *the International Journal of Management*, *Journal of Applied Psychology*, *Journal of Business and Management*, *Journal of Business Research*, *Journal of Management*, *Small Group Research*, and *Group and Organization Management*. She has also contributed to the *APA Handbook of Industrial and Organizational Psychology*, *Handbook of Decision Making*, *Handbook of Organizational Learning and Knowledge*, and the *Blackwell Handbook of Strategic Management*. She has prior business experience as a Senior Business Development Executive with CMC Ltd in Bangalore, India. She received her PhD in Business Administration at the Carlson School of Management, University of Minnesota.

Courses:

- Strategic Management
- Managing Organizations in Competitive Environments
- Business Policy: Strategy Formulation and Implementation

**Hersh Shefrin** is a pioneer of behavioral finance. He has published several books, including *Beyond Greed and Fear: Understanding Behavioral Finance and the Psychology of Investing*, recognized by J.P Morgan Chase as one of the top ten books used around the world as a textbook in behavioral finance. He has edited three volumes on Behavioral Finance: (1) *Behavioral Corporate Finance* analyzes the impact of behavioral phenomena on corporate finance, (2) *A Behavioral Approach to Asset Pricing* was the first book to systematically analyze how behavior affects modern asset pricing theory, and (3) *Ending the Management Illusion: How to Drive Business Results Using the Principles of Behavioral Finance* describes how to build organizational culture in order to mitigate vulnerability to behavioral traps that typically ensnare managers. Professor Shefrin's scholarly articles have appeared in *Discrete Mathematics*, *Economica*, *Economic Inquiry*, *the Journal of Finance*, *Journal of Financial Economics*, *Review of Financial Studies*, *Journal of Financial and Quantitative Analysis*,

*Financial Management, Financial Analysts Journal, Journal of Investment Management, International Economic Review, Journal of Investment Consulting, Journal of Portfolio Management, Journal of Political Economy, Review of Economic Studies, Journal of Economic Theory, Journal of Econometrics, Quarterly Journal of Economics and the Quarterly Journal of Finance.* He is frequently interviewed by the media on financial matters and the CFO Magazine listed him among the Academic Stars of Finance. He is a recipient of the IMCA Journalism Award from the Investment Management Consultants' Association. With colleague Meir Statman he received a Graham and Dodd award in 1994, and the 2000 William Sharpe Award for the best paper published in the *Journal of Finance and Quantitative Analysis*. Professor Shefrin holds an honorary doctorate from the University of Oulu in Finland. Areas of current research include behavioral risk management, and the application of behavioral ideas to the practice of risk management and financial decisions made by individuals. He completed his PhD at the London School of Economics. He earned an MSc in mathematics from the University of Waterloo and a BS (honors) in economics from the University of Manitoba.

Courses:

- Corporate Finance
- Behavioral Finance
- Behavioral Risk Management

**Simon S. Torp** is Associate Professor at Aarhus University, Denmark. He received his PhD from Copenhagen Business School and holds an MSc in Accounting from Aarhus University. His research interests cover strategic risk management, motivation and incentives and the interplay between management, finance and organizational structures. His current research has been published in the *International Journal of Strategic Change Management* and in *Economic and Industrial Democracy*.
