Formulating Research Methods for Information Systems

Volume 2

Edited by

Leslie P. Willcocks

London School of Economics and Political Science, UK

Chris Sauer

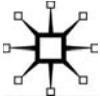

University of Oxford, UK

and

Mary C. Lacity

University of Missouri, USA

palgrave
macmillan

Selection, introduction and editorial matter © Leslie P. Willcocks,
Chris Sauer and Mary C. Lacity 2015

Individual chapters © Journal of Information Technology (JIT) 2015
Softcover reprint of the hardcover 1st edition 2015 978-1-137-50986-4

First published 2015 by
PALGRAVE MACMILLAN

Palgrave Macmillan in the UK is an imprint of Macmillan Publishers Limited,
registered in England, company number 785998, of Houndmills, Basingstoke,
Hampshire RG21 6XS.

Palgrave Macmillan in the US is a division of St Martin's Press LLC,
175 Fifth Avenue, New York, NY 10010.

Palgrave Macmillan is the global academic imprint of the above companies
and has companies and representatives throughout the world.

Palgrave® and Macmillan® are registered trademarks in the United States,
the United Kingdom, Europe and other countries.

ISBN 978-1-349-56110-0 ISBN 978-1-137-50988-8 (eBook)
DOI 10.1057/9781137509888

This book is printed on paper suitable for recycling and made from fully
managed and sustained forest sources. Logging, pulping and manufacturing
processes are expected to conform to the environmental regulations of the
country of origin.

A catalogue record for this book is available from the British Library.

A catalog record for this book is available from the Library of Congress.

Contents

<i>List of Figures</i>	vi
<i>List of Tables</i>	vii
Introduction <i>Leslie P. Willcocks, Chris Sauer and Mary C. Lacity</i>	1
V Critical Literature Reviews of Information Systems Research	
10 Research in information systems: a study of diversity and inter-disciplinary discourse in the AIS basket journals between 1995 and 2011 <i>Edward WN Bernroider, Alan Pilkington and José-Rodrigo Córdoba</i>	11
11 On being 'systematic' in literature reviews <i>Sebastian K. Boell and Dubravka Cecez-Kecmanovic</i>	48
12 Positioning the institutional perspective in information systems research <i>Muriel Mignerat and Suzanne Rivard</i>	79
13 A critical analysis of decision support systems research <i>David Arnott and Graham Pervan</i>	127
14 Business process outsourcing studies: a critical review and research directions <i>Mary C. Lacity, Stan Solomon, Aihua Yan and Leslie P. Willcocks</i>	169
VI The Craft of Case Study Research	
15 Writing case studies in information systems research <i>Heico Van Der Blonk</i>	255
16 The effect of social network structures at the business/IT interface on IT application change effectiveness <i>Katja Zolper, Daniel Beimborn and Tim Weitzel</i>	271
17 Everything counts in large amounts: a critical realist case study on data-based production <i>Aleksi Aaltonen and Niccolo Tempini</i>	325

List of Figures

10.1	Contribution of journals from each ABS field over the period	26
10.2	Percentage point change in citations by field over the periods	27
10.3	Co-citation graph of subject fields (EARLY: 1995–2000)	30
10.4	Co-citation graph of subject fields (MIDDLE: 2001–2006)	32
10.5	Co-citation graph of subject fields (LATE: 2007–2011)	35
11.1	An illustration of the increasing number of papers referring to SLR in Information Systems	50
11.2	Overview of the SLR process	53
12.1	A conceptual framework of institutional effects	82
12.2	Institutionalization process (based on Tolbert and Zucker, 1996; Greenwood et al., 2002; Devereaux Jennings and Greenwood, 2003)	85
13.1	Evolution of the DSS field	131
13.2	Keen’s adaptive design framework	132
13.3	Framework for GSS research (Nunamaker et al., 1991)	133
13.4	DSS publishing 1990–2003	144
13.5	Publication in classes of journal	145
13.6	DSS type publication by year	147
14.1	The model of findings on BPO decisions and BPO outcomes	186
14.2	Findings from ITO review (Lacity et al., 2010)	199
15.1	Typology of writing case studies	262
16.1	Focus of this research	275
16.2	Schematic illustration of structural characteristics	286
16.3	Research model	287
16.4	Network sections for S1 and S2	292
16.5	Overview of cases	295
16.6	Extended research model	306
17.A1	The cascade of information actualization	354

List of Tables

10.1	Statistical information on the AIS journal basket	23
10.2	Top 25 cited publications over all periods	24
10.3	Distribution of all citations over fields	27
10.4	Co-citation statistical information of IS on ABS subject fields for all periods	29
10.5	Co-citation statistical information on ABS subject fields (EARLY: 1995–2000)	29
10.6	Co-citation statistical information on ABS subject fields (MIDDLE: 2001–2006)	33
10.7	Co-citation statistical information on ABS subject fields (LATE: 2007–2011)	34
10.A1	Subject fields from the ABS Journal Quality Guide 2010 (Harvey et al., 2010)	41
11.1	Comparison of SLR and traditional narrative reviews	55
11.2	Criteria for good literature review practice	64
11.3	Overview of SLR articles in IS journals	68
12.1	Topics studied with an institutional approach	88
12.2	Effects per innovation phases	92
12.3	Comprehension	95
12.4	Adoption	100
12.5	Implementation	103
12.6	Assimilation	106
12.7	Institutionalization process	112
13.1	Alter's taxonomy of DSS	133
13.2	DSS 2004 papers by DSS type	139
13.3	Article sample by journal	142
13.4	Sample by journal	143
13.5	Journal classification	145
13.6	Sample by journal classification	145
13.7	Sample by DSS type	146
13.8	Empirical articles by research paradigm	148
13.9	DSS types by research paradigm	149
13.10	Sample by dominant research stage	150
13.11	Sample by article type	151
13.12	Sample by decision support focus	152
13.13	Sample by practical relevance	153

13.14	Practical relevance of DSS types	154
13.15	Sample by primary client and primary user	155
13.16	Use of judgement and decision-making reference theory	156
13.17	Number of cited judgement and decision-making references by DSS type	157
13.A1	Article coding protocol	160
14.1	Empirical BPO articles included in this review by journal, year, and study method	174
14.2	Relationship coding scheme	178
14.3	Dependent variables used in BPO research	180
14.4	Independent variables used in BPO research	182
14.5	BPO review findings compared to ITO review findings	200
14.6	Functions studied in BPO review	212
14.B1	Coding table, descriptions of variables, and detailed explanation (if needed) of coding scheme follow	234
14.C1	Relationships between independent variables and BPO decisions and BPO outcomes	235
15.1	Four forms of writing case studies	264
16.1	Overview of cases	291
16.2	Overview of case results	297
16.3	Rival explanations	304
16.C1	Procedures for high quality data collection (based on Yin (2009))	315
16.E1	Descriptive SNA statistics	317
17.1	The types and amount of empirical evidence	333
17.2	Applications used to monitor network subscribers as an audience	341
17.3	Mechanisms	346
17.4	The properties of data pool structure	349
