Acknowledgements

There are many people to thank for their input into making of this book possible. Most obviously, we must thank our Commissioning Editor at Palgrave, Laura Pacey, for her support for this project and James Safford (Editorial Assistant) for his very enduring patience. Secondly, we would like to thank our colleagues at the University of Bradford for their comradeship and general support for our research on European economic integration. Finally, we owe a deep sense of gratitude to our families for their forbearance during the preparation of this book. It is to them that this book is dedicated.

Any remaining errors and omissions we gladly attribute to each other.
