

Growth and Structural Change

ECONOMICS TODAY

Edited by Andrew Leake

The *Economics Today* series surveys contemporary headline topics in applied economics. Each book in the series is written by an expert in the field in a style that is fluently readable. It serves the student of introductory economic principles while also making the subject accessible to a more general reader. The series embraces the problem-solving skills of the new generation of students and stresses the importance of real-world issues and the significance of economic ideas.

Published

Andrew Leake: **The Economic Question**

Contents

List of Tables and Figures ix

1 Britain's Economic Growth Record 1

Economic Growth Defined 2

Britain's Economic Record 4

Explanations of Britain's Growth Record 8

Fiscal Policy 10

The Balance of Payments Constraint 11

Productivity Growth and the Structure of
Employment 11

Supply-side Problems 12

The Thatcher Miracle? 12

The UK – the First Post-industrial Nation? 16

2 Growth and Structural Change in the British Economy 18

An Overview of Structural Change 18

Structural Change in the UK 21

North Sea Oil and its Impact on the UK Economy 30

The Stages of Growth Argument 34

Low Wage Competition 35

The Role of Multinationals 36

Crowding-out Revisited 37

Do Structural Changes Matter? 39

3 Does Deindustrialisation Matter? 40

- Definitions of Deindustrialisation 40
- Bacon and Eltis's theory of Deindustrialisation 42
- The OECD Definitions 42
- Positive and Negative Impacts of Deindustrialisation 48
- The Regional Dimension of Deindustrialisation 49
- Growth and the Manufacturing Sector 53
- Balance of Payments Constrained Growth 55
- Manufacturing's Future Return? 57

4 Does Slow Growth Matter? 59

- The Benefits of Growth 59
- Growth and the External Constraint 60
- The Trading Patterns and Commodity Composition of the UK's Visible Trade 63
- The Trade in Manufactures 63
- Factors Responsible for the Change in Export and Import Performance 67
- Non-price Competitiveness 69
- Why the Need for a Manufacturing Sector? 70
- Britain as a Low-wage, Low-productivity Economy 72
- The Costs of Growth 75
- The Limits to Growth 77
- The Social Limits to Growth 78
- Can Britain Escape Slow Growth? 79
- The UK's Attempts to Stimulate Growth 81

5 Explaining Economic Growth 83

- The Aggregate Production Function 84
- Total Factor Productivity 87
- Economic Growth in the Aggregate Supply and Demand Model 88
- The Role of the Labour Market 91
- The Short-run Aggregate Supply Schedule 91
- The Long-run Aggregate Supply Schedule 95
- Economic Growth and Long-run Aggregate Supply 95

Underlying Factors and Stimuli for Growth 98
Appendix 1: Economic Growth and the Business Cycle 99
Appendix 2: The Aggregate Production Function 103

6 Keynesian Prescriptions for Economic Growth 106

The 45° Line Model 106
The Implications of the 45° Line Model for Economic Growth 108
Market Failure and Externalities 111
Information and Economic Co-ordination 114
The Keynesian Prescription for Economic Growth 116
An Assessment of Keynesian Growth policies 121

7 New Classical Prescriptions for Economic Growth 123

Keynesian versus the new Classical Economics 123
The rationale of new Classical Growth Policies 124
Privatisation 125
The Deregulation of Goods and Financial Markets 128
Tax and Social Security Reforms 129
Labour Market Reform 131
Government Spending, Budget Deficits and Crowding Out 131
Synthesising the New Classical Debate 134

8 Capital Accumulation and Technological Progress 136

Britain's Record on Capital Investment 136
Research and Development 138
The Decision to Invest 139
The Role of Taxation and Subsidies 141
The Importance of Risk 142
Policies to Promote Investment 144
Investment and the Capital Market 151
Getting the Investment Climate Right 152

9 Labour Market Flexibility and Human Capital 154

- Aggregate Supply and the Labour Market 154
- Trade Unions, Structural Change and Economic Growth 156
- Other Obstacles to Labour Market Flexibility 157
- Trade Union Legislation 158
- The Effect of Taxes and Social Security on Labour Supply 162
- Training and Education: the Key to Higher Productivity 168
- Quality and Flexibility in the Labour Market 171

10 The Role of the European Union 173

- State Aids to Industry 173
- Mergers 175
- Regional Policy 176
- Social Policies 177
- Increased Competition from Newly Industrialised Countries 178
- Multinationals and Foreign Direct Investment 180
- Employment and Trade Effects 183
- Technology Transfer 184
- The UK's Educated Labour Force 186
- The Exhaustion of North Sea Oil 187
- Growth Policies for the Twenty-first Century 189
- Can the UK Achieve a Permanently High Growth Rate? 192

Index 195

List of Tables and Figures

Tables

- 1.1 Growth Rates of Real Output per Worker Employed (% per annum) 5
- 1.2 Manufacturing Productivity Growth – Annual per cent Change in Real Value Added per Person Employed 6
- 1.3 Real GDP per Hour Worked: Comparisons with the UK in Selected Years 7
- 1.4 Productivity in the Business Sector (Percentage Changes at Annual Rates) 9
- 1.5 Performance Indicators (Output per Worker, % p.a.) 13
- 2.1 Index Numbers of Output at Constant Factor Cost, (1980 = 100) 22
- 2.2 Percentage Shares of GDP at Factor Cost 24
- 2.3a World Trade Shares and Deindustrialisation (%) 26
- 2.3b Deployment of the Labour Force (%) 26
- 2.4 The Shift in Employment (GB thousands) 28
- 2.5 Components of the UK Current Account (£m) 31
- 2.6 Net External Assets of Selected Countries (\$bn) 33
- 2.7 The Long-run Relationship of the Marketed and Non-marketed Sectors (% of Marketed Output) 38
- 3.1 Employees in Employment, by Industry (UK, 000) 43
- 3.2 Changes in the Labour Force – Selected Countries (%) 44
- 3.3 Growth of Financial Services (GB) 45
- 3.4 Share of Manufacturing in GDP 46
- 3.5 World Trade Shares and Deindustrialisation (%) 47
- 3.6 Uneven Geography of Economic Restructuring, 1971–9 and 1979–88 52

x *List of Tables and Figures*

- 4.1 The UK's Balance of Trade 62
- 4.2 Area Composition of UK Visible Exports (*X*) and Imports (*M*) (% totals) 64
- 4.3 Commodity Composition of UK Visible Exports (*X*) and Imports (*M*) (% totals) 65
- 4.4 Share of World Trade in Manufactures (%) 66
- 4.5 Import Penetration in Manufactures for the UK (%) 67
- 4.6 Productivity Growth in the Business Sector of OECD Countries (% per year) 72
- 4.7 Hourly Wage Costs including Wage and Non-wage Costs (\$, 1993) 74
- 5.1 Average Annual Growth Rates, 1870–1992 83
- 5.2 The Aggregate Production Function 85
- 5.3 Estimated Output Elasticities for Selected Industries 85
- 5.4 Annual Average Growth of Productive Capital Stock (%) 86
- 5.5 Annual Average Growth of Labour Input (% , 1900–87) 86
