Milne (University of Glasgow), Christopher McCabe (University of Sheffield), Douglas McCulloch (University of Ulster at Jordanstown), John W. Posnett (University of York), Adrian Towse (Office of Health Economics) and Sara Twaddle (Greater Glasgow Health Board).

Notes on the Contributors

Paul Anand is Reader in Decision Theory at De Montfort University. He is managing editor of *Risk Decision and Policy*, has held posts at Oxford, Cambridge and York Universities and has acted as consultant to a number of organisations, including the OECD, the NHS and Arthur Andersen. Current research interests include foundations of decision theory, health policy, government management of risk and the economic/social/organisational implications of the internet.

Cam Donaldson is Professor of Health Economics at the University of Aberdeen. His current interests are in willingness to pay for health care, health care financing and health care priority setting. Recent publications include *Can We Afford the NHS?*, published by the Institute for Public Policy Research.

Lesley Griffiths is Lecturer in Health Policy and Medical Sociology in the Department of Nursing, Midwifery and Health Care at the University of Wales, Swansea. Her current interests include the organisation of community mental health services, NHS contracts and inter-professional working.

David Hughes is Reader in Health Policy in the Department of Nursing, Midwifery and Health Care at the University of Wales, Swansea. His current research interests include NHS contracts, management discourses, rationing and evidence-based purchasing.

David Hunter is Director of the Nuffield Institute for Health and Professor of Health Policy and Management at the University of Leeds. He is also a non-executive director of Leeds Health Authority. His interests are in rationing healthcare, accountability, the limits to evidence-based medicine and European health systems reform.

Duncan Keeley is a General Practitioner in Thame, Oxfordshire, and a member of the General Practice and Primary Care Advisory Committee of Oxfordshire Health Authority.

Alistair McGuire is Professor of Health Economics at City University, London, and a Research Associate in the Oxford Health Economics

Group. Prior to this he was at the Centre for Socio-Legal Studies, Wolfson College, and taught at Pembroke College, Oxford. He is co-ordinator of the MSc in Economic and Quantitative Methods in Health Care at City University. He has acted as an adviser to the UK Cabinet Office, the World Health Organisation and a number of pharmaceutical companies on health economics. He has written widely in the area, and his current interests are in contracts, hospital economics and economic evaluation.

Jean McHale is Lecturer in the Faculty of Law and a director of the Centre for Social Ethics and Policy at the University of Manchester. Her current and recent research interests include NHS contracts, medical confidentiality and whistle-blowing, ethical and legal issues in rationing, and nursing law.

Russell Mannion is Department of Health Research Fellow in the Centre for Health Economics at the University of York. His principal research interests are the financing of health care and the evaluation of health and social care markets.

Annabelle Mark is Lecturer at South Bank and Middlesex Universities. Her teaching, writing and research interests include organisational behaviour and health care management. She spent ten years as a manager in the NHS.

Gavin Mooney is Professor of Health Economics at the University of Sydney. His current research interests include health care priority setting, aboriginal health, community values and equity. He is currently co-editing a book on the economics of Australian health policy.

Penelope Mullen is Senior Lecturer in the Health Services Management Centre, University of Birmingham. Her teaching and research interests include health policy, planning, rationing, priority setting, information and quantitative analysis.

Peter Smith is Professor in the Department of Economics and the Centre for Health Economics at the University of York. His principal research interests are the financing of health care and the measurement of efficiency in the public sector.
