EXPLORATIONS OF THE LIFE-WORLD
The purpose of this series is to foster the development of phenomenological philosophy through creative research. Contemporary issues in philosophy, other disciplines and in culture generally, offer opportunities for the application of phenomenological methods that call for creative responses. Although the work of several generations of thinkers has provided phenomenology with many results with which to approach these challenges, a truly successful response to them will require building on this work with new analyses and methodological innovations.

Preface

This anthology originated from three conferences, which were held at Waseda University, Tokyo, Japan, on March 26-28, 1999, at the University of Konstanz, Germany, on May 26-29, 1999 and a session at the SPHS annual meeting at the University of Oregon, USA, on October 5-7, 1999. With one exception the contributions to this volume are revised versions of papers read at these meetings. Each of these conferences took place in order to celebrate the centennial of the birthday of Alfred Schutz, who was born April 13, 1899, and died May 20, 1959.

First of all we would like to thank Evelyn Schutz-Lang, the daughter of Alfred and Ilse Schutz, for her continuing support and encouragement. Moreover, Evelyn Schutz-Lang as well as Claudia Schutz, the granddaughter of Alfred and Ilse Schutz, and the daughter of his son George, gave us the honor of visiting the Konstanz conference in 1999. Evelyn also came to the Oregon conference and sent her personal greetings to those attending the Tokyo conference.

We would like to thank Waseda University, the Waseda Sociological Association, the Waseda University International Conference Center, and the Center for Research in Human Sciences in Japan for their generous financial support, as well as the German Research Council (Deutsche Forschungsgemeinschaft), the University of Konstanz, the Alfred Schutz Memorial Archives in Konstanz, and the Sparkasse Konstanz for their considerable financial assistance in making the conferences possible.

We would like to thank, further, all the participants of the 1999 conferences, especially those whose contributions did not find their way into this volume and who also provided thoughtful and stimulating papers.

Finally, the production of this volume would not have been possible without the assistance of Eva-Maria Walker (Tuebingen) and Gunnar Schwab (Tuebingen).
