TABLE OF CONTENTS

Introduction
P.R. Almeida, B.R. Quintella, M.J. Costa, A. Moore 1–4

HUMAN IMPACTS AND FISHERIES
Efforts to aid downstream migrating brown trout (Salmo trutta L.) kelts and smolts passing a hydroelectric dam and a spillway
J.V. Arnekleiv, M. Kraabøl, J. Museth 5–15
Walking speed and area utilization of red king crab (Paralithodes camtschaticus) introduced to the Barents Sea coastal ecosystem
T. Jørgensen, S. Løkkeborg, A. Fernø, M. Hufthammer 17–24
Movements of undersized spotted grunter (Pomadasys commersonnii) in the Great Fish Estuary, South Africa: implications for fisheries management
Effects of salmon lice infection and salmon lice protection on fjord migrating Atlantic salmon and brown trout post-smolts
R. Sivertsgård, E.B. Thorstad, F. Økland, B. Finstad, P.A. Bjørn, N. Jepsen, T. Nordal, R.S. McKinley 35–42

MIGRATION AND BEHAVIOUR
Upstream migration of adult chum and pink salmon in the Shibetsu River
Y. Makiguchi, H. Nii, K. Nakao, H. Ueda 43–54
Riverine and early ocean migration and mortality patterns of juvenile steelhead trout (Oncorhynchus mykiss) from the Cheakamus River, British Columbia
M.C. Melnychuk, D.W. Welch, C.J. Walters, V. Christensen 55–65
Conventional and EMG telemetry studies of upstream migration and tailrace attraction of adult Atlantic salmon at a hydroelectric installation on the Exploits River, Newfoundland, Canada
D.A. Scruton, R.K. Booth, C.J. Pennell, F. Cubitt, R.S. McKinley, K.D. Clarke 67–79
Mid-winter activity and movement of Atlantic salmon parr during ice formation events in a Norwegian regulated river
M. Stickler, K. Alfredsen, D.A. Scruton, C. Pennell, A. Harby, F. Økland 81–89
Results of satellite tagging of Atlantic bluefin tuna, Thunnus thynnus, off the coast of Ireland
M.J.W. Stokesbury, R. Cosgrove, A. Boustany, D. Browne, S.L.H. Teo, R.K. O’dor, B.A. Block 91–97
Fjord migration and survival of wild and hatchery-reared Atlantic salmon and wild brown trout post-smolts
E.B. Thorstad, F. Økland, B. Finstad, R. Sivertsgård, N. Plantalech, P.A. Bjørn, R.S. McKinley
99–107

Hatchery-reared fish have less consistent behavioral pattern compared to wild individuals, exemplified by red tilefish studied using video observation and acoustic telemetry tracking
109–120

SPECIES CONSERVATION AND HABITAT REHABILITATION
Sea lamprey (*Petromyzon marinus* L.) spawning migration in the Vouga river basin (Portugal): poaching impact, preferential resting sites and spawning grounds
N.O. Andrade, B.R. Quintella, J. Ferreira, S. Pinela, I. Póvoa, S. Pedro, P.R. Almeida
121–132

Habitat use and fish activity of landlocked Atlantic salmon and brook charr in a newly developed habitat compensation facility
E.C. Enders, K.E. Smokorowski, C.J. Pennell, K.D. Clarke, B. Sellars, D.A. Scruton
133–142

Mobility of individual roach *Rutilus rutilus* (L.) in three weir-fragmented Belgian rivers
143–153

Assessment of a retrofitted downstream fish bypass system for wild Atlantic salmon (*Salmo salar*) smolts and kelts at a hydroelectric facility on the Exploits River, Newfoundland, Canada
155–169

PIT telemetry as a method to study the habitat requirements of fish populations: application to native and stocked trout movements
A. Teixeira, R.M.V. Cortes
171–185

METHODOLOGY AND NEW TECHNOLOGY
Introducing a method for extracting horizontal migration patterns from data storage tags
B. Ádlandsvik, G. Huse, K. Michalsen
187–197

Feeding activity and opercular pressure transients in Atlantic salmon (*Salmo salar* L.): application to feeding management in fish farming
J.A. Alfredsen, B. Holand, T. Solvang-Garten, I. Uglem
199–207

Laboratory protocol to calibrate sea lamprey (*Petromyzon marinus* L.) EMG signal output with swimming
P.R. Almeida, I. Póvoa, B.R. Quintella
209–220

Effects of antenna length and material on output power and detection of miniature radio transmitters
J.W. Beeman, N. Bower, S. Juhnke, L. Dingmon, M. van den Tillaart, T. Thomas
221–229

Comparison between PIT and radio telemetry to evaluate winter habitat use and activity patterns of juvenile Atlantic salmon and brown trout
E.C. Enders, K.D. Clarke, C.J. Pennell, L.M.N. Ollerhead, D.A. Scruton
231–242
Assessment of largemouth bass (*Micropterus salmoides*) behaviour and activity at multiple spatial and temporal scales utilizing a whole-lake telemetry array

Techniques for evaluating the spatial behaviour of river fish

Use of muscle activity indices as a relative measure of well-being in cultured sea bass *Dicentrarchus labrax* (Linnaeus, 1758)
G. Lembo, P. Carbonara, M. Scolamacchia, M.T. Spedicato, R.S. McKinley 271–280

Efficacy and accuracy of portable PIT-antennae when locating fish in ice-covered streams

Growth, survival, and tag retention of steelhead trout (*O. mykiss*) surgically implanted with dummy acoustic tags
D.W. Welch, S.D. Batten, B.R. Ward 289–299
