Proceedings of the
TRACE ELEMENTS in DIET, NUTRITION, and HEALTH: ESSENTIALITY and TOXICITY
Proceedings

of the

TRACE ELEMENTS in DIET, NUTRITION, and HEALTH:
ESSENTIALITY and TOXICITY

A Joint Conference Constituting the

VIIIth Conference of the
International Society for Trace Element Research in Humans
(ISTERH)

IXth Conference of the
Nordic Trace Element Society
(NTES)

VIth Conference of the
Hellenic Trace Element Society
(HTES)

Hersonissos
CRETE-GREECE

October 21–26, 2007

Creta Maris Conference Center

Members of Planning Committee

Curtiss Hunt, Ph.D., Chair, Planning Committee; President, ISTERH
Sophie Ermidou-Pollet, Ph.D., President, HTES
Ole Andersen, Ph.D., Representative, NTES
Dorothy Klimis-Zacas, Ph.D., Chair, Local Organizing Committee; Member, ISTERH
Jeanne Freeland-Graves, Ph.D., Chair, Fundraising Committee; Council Member, ISTERH
Monica Nordberg, Ph.D., Chair, Abstract Committee; Vice-President, ISTERH
Hiroko Kodama, Ph.D., Chair, Publicity Committee; Secretary, ISTERH
Serge Pollet, Ph.D., Member at Large; Vice-President, HTES
George Brewer, M.D., Member at Large; Council Member, ISTERH
Harold Sandstead, M.D., Member at Large; Immediate Past-President, ISTERH

ACKNOWLEDGEMENTS

Funding for this conference was made possible in part by 1 R13 DK080637-01 from the National Institutes of Health. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

The project was supported by the National Research Initiative of the USDA Cooperative State Research, Education and Extension Service Grant number 2007-35200-18235.
Cell Biology and Toxicology
An International Journal devoted to research at the cellular level
Official Journal of the Société Pharmaco-Toxicologie Cellulaire

PREFACE
Trace elements in human diets, nutrition, and health: essentiality and toxicity
C.D. Hunt 1

KEY NOTE ADDRESS
Mediterranean diet, traditional foods and health: critical components and mediating mechanisms
A. Trichopoulou · E. Vasilopoulou 2

PLENARY SESSION: TRACE MINERALS AS MODULATORS OF ARTERIAL FUNCTION
Manganese: modulator of arterial function and metabolism
D. Klimis-Zacas · A.Z. Kalea 5
The role of copper in nitric oxide-mediated vasodilation
D.A. Schuschke 9
Selenium status and regulation of vascular homeostasis
L.M. Sordillo 13

ISTERH 2007 RAULIN AWARD LECTURE
The ISTERH Raulin Award lecture: zinc nutrirtue and the fetal origins of disease
H.H. Sandstead 16

PLENARY SESSION: TRACE ELEMENT NUTRITION AND DIETARY RECOMMENDATIONS
The relevance of trace element nutrition in human health
S. Ermidou-Pollet · S. Pollet 19

International dietary standards for trace elements
J.H. Freeland-Graves · J.M. Cahill 23

PLENARY SESSION: TRACE ELEMENT SPECIATION
Salivary arsenic as a biomarker for arsenic exposure
K. Lew · C. Yuan · J.P. Acker · X.C. Le 27

PLENARY SESSION: HEALTH CONSEQUENCES OF TRACE ELEMENT DEFICIENCIES
Studies on the placental and mammary gland transfer of trace elements: Impact of possible trace element deficiencies in infancy
E. Rossipal · M. Krachler 31
An adaptation of the in vitro digestion methodology employed in the prediction of iron bioavailability meets new challenges
K. Argyri · A. Birba · D.D. Miller · M. Komaitis · M. Kapsokefalou 34
Iodine intake, balance and normative requirement of man in Central Europe
M. Anke · B. Groppel · U. Schäfer 37

SYMPOSIUM: COPPER IN NEUROLOGIC AND NEURODEGENERATIVE DISEASES
Overview of the Role of Copper in Neurodegenerative Diseases and Potential Treatment with Tetrathiomolybdate
G.J. Brewer 41
Copper and cognition in Alzheimer’s disease and Parkinson’s disease
D.L. Sparks · C. Ziolkowski · D. Connor · T. Beach · C. Adler · M. Sabbagh · J. Caviness · H. Shill · L. Sue · L. Sparks · J. Lopez · S. Johnson-Traver · G. Stankovic 44
Copper Studies in Alzheimer’s Disease Patients
R. Squitti · P.M. Rossigni 48
Dietary Fat and Copper Effects on Cognition
M.C. Morris 51

SYMPOSIUM: HEALTH EFFECTS OF LOW DOSE EXPOSURE TO TOXIC METALS
Health effects of low dose exposure to toxic metals: introduction and research recommendations
G. Nordberg · S. Skerfving 56
Proteomic and metabolomic biomarkers for assessing low dose toxic trace element interactions: an overview
B.A. Fowler · E.A. Conner · H. Yamauchi · G. Wang · M.H. Whittaker 58

Neuropsychological and renal effects of low dose exposure to elemental mercury exposure from amalgam in children
L. Barregard 60

Manganese exposure as a determinant of Parkinsonian damage
R. Lucchini · R. Squitti · E. Albini · L. Benedetti · S. Borghesi · E. Nan · F. Draicchio · R. Coccaglio · L. Alessio 63

Kidney and bone effects of low dose cadmium exposure in Sweden
A. Åkesson 66

Factors influencing dose–response relationships of cadmium in humans—diabetes, metallothionein and metallothionein antibodies
T. Jin · L. Chen · L. Lei · M. Nordberg · G.F. Nordberg 69

SYMPOSIUM: ENVIRONMENTAL STRESS AND MINERAL HOMEOSTASIS
Overview of human physiological responses to environmental extremes
A.J. Young 73

Iron Homeostasis and Environmental Extremes: Focus on Physical Activity
J.P. McClung 77

Calcium Metabolism during Space Flight
S.M. Smith · S.R. Zwart 80

Mineral Losses During Extreme Environmental Conditions
H.C. Lukaski 84

SYMPOSIUM: MOLECULAR MECHANISMS OF METAL INDUCED DISEASE
Changes in dietary iron levels affect brain manganese accumulation and distribution
V.A. Fitsanakis · Y. Finkelstein · M. Aschner 89

Reprogramming of histone marks by chromium
A. Puga · Y-D. Wei · A. Maier · L. Peng · M. Schnekenburger 93

SYMPOSIUM: ADVANCES IN ANALYTICAL DETECTION OF TRACE ELEMENTS IN BIOLOGICAL TISSUES
Ion and electron beams methods for biological trace elements characterisation at bioceramics/cells interface
E. Jallot 98

X-ray fluorescence technique on trace element determination in biological samples
M.L. Carvalho · A. Marques 101

SYMPOSIUM: MINERAL ELEMENTS AND MOLECULAR SIGNALING AS IT RELATES TO HUMAN DISEASE
Role of zinc in endothelial cell function: implications in atherosclerosis
B. Hennig · M. Toborek 104

Oxidative stress in tumor progression: Intervention by selenium
B. Cat · P. Brenneisen 108

Influence of zinc on oxidative stress, DNA integrity and cancer risk
E. Ho · Y. Song 112

Maintaining copper balance: roles of copper transporters and chaperones
J. Bertinato · M.R. L’Abbé 116

SYMPOSIUM: IS COPPER INVOLVED IN CARCINOGENESIS/CARCINOSTATICS?
Possible association of Wilson’s disease with hepatocellular carcinoma
Y-H. Gu · H. Kodama · T. Kato · C. Fujisawa · F. Kaga 121

Carcinogenesis in LEC rat and patients with Wilson disease
N. Shimizu · T. Aoki 124

The effects of hepatic copper overload on development of hepatocellular carcinoma in hepatitis C virus -positive patients with chronic liver disease
M. Ebara 126

Copper transports and carcinostatics: copper transporters regulate the cellular pharmacology of cisplatin
R. Safaei · S.B. Howell 129
SYMPOSIUM: ZINC AND THE COMMON COLD

Zinc and the common cold
G.A. Eby 132

Treatment of the common cold with zinc: effect on pro-inflammatory cytokine (Soluble Interleukin-1 receptor antagonist) and ICAM-1
A.S. Prasad · F.W.J. Beck · B. Bao · D. Snell · J.T. Fitzgerald 136

SYMPOSIUM: THE ROLE MICRONUTRIENTS (IODINE, IRON AND ZINC) IN INTELLECTUAL DEVELOPMENT

Essentiality of zinc for human neuropsychological performance
H.H. Sandstead · J.G. Penland 140

Recent developments on WHO recommendations for the prevention and control of iron, iodine, and zinc deficiencies
L.M. Rogers 143

Iodine deficiency and intellectual development: the role of The International Council for the Control of Iodine Deficiency Disorders (ICCIDD) in the global push to eliminate iodine deficiency
M.B. Zimmermann 147
