*To my parents, Louis and Polly, who fired  
my interest in astronomy by buying me my  
first telescope when I was 13.*

# Acknowledgements

I would like to thank Dr. Mike Dworetsky and Stephen Boyle, University of London Observatory, Dr. Robert Lombourne Open University, Professor Emeritus Jim Kaler University of Illinois, Dr. John Fisher, Valerie Desnoux, Christian Buil, Martin Peston, Charles Munton and Ed Palmer for their advice and encouragement in producing this book. And finally thanks to Jim Badura, producer of the Rainbow Optics Star Spectroscope, who said in the owner's manual, "This seems to be a golden opportunity for amateur spectroscopists to create their own atlas of stellar spectra." Well, Jim, here it is.

# Contents

Dedication .....	v
Acknowledgements .....	vii
Part I	
1. Introduction.....	3
2. The Greek Alphabet.....	11
3. The Periodic Table of Elements .....	13
4. The Spectral Sequence .....	15
Part II	
5. The Star Atlas.....	25
6. Star Atlas Index .....	171
7. Stars By Right Ascension.....	177
8. Other Examples of Stellar Spectra .....	181
Glossary of Terms .....	189
Further Reading.....	199
Index .....	201
