Trends and Prospects in Metacognition Research
Contents

1 Introduction: The Present and the Future in Metacognition .............. 1
   Anastasia Efklides and Plousia Misailidi

Part I  Basic Research in Metacognition

2 Metacognition in Nonhumans: Methodological and Theoretical Issues in Uncertainty Monitoring .................. 21
   Michael J. Beran, Justin J. Couchman, Mariana V. C. Coutinho,
   Joseph Boomer, and J. David Smith

3 The Metacognitive Role of Familiarity in Artificial Grammar Learning: Transitions from Unconscious to Conscious Knowledge ................................................................. 37
   Ryan Scott and Zoltán Dienes

4 Fringe Consciousness: A Useful Framework for Clarifying the Nature of Experience-Based Metacognitive Feelings .............. 63
   Elisabeth Norman, Mark C. Price, and Simon C. Duff

5 Further Insight into Cognitive and Metacognitive Processes of the Tip-of-the-Tongue State with an Amnesic Drug as Cognitive Tool ......................................................... 81
   Elisabeth Bacon

6 Prospective Memory Failure and the Metacognitive Experience of “Blank in the Mind” ........................................ 105
   Anastasia Efklides and Alexandra Touroutoglou

7 Metamemory in Schizophrenia: Monitoring or Control Deficit? ................................................................. 127
   Marie Izaute and Elisabeth Bacon
