Atlas of Dermatology in Internal Medicine

Springer
This book is dedicated to my loving family, especially to my wife, Nelly, my children, Dara, Fitz and Vannesa, and to my grandchildren, Diego, Hugo, Néstor, Gustavo, Natalia, and Marco. Furthermore, to the families of all the contributing authors and associate editors who illuminated this book with knowledge and wisdom.
Preface

Dermatology is a fascinating field based in the skills of clinical observation and clinicopathologic correlation to diagnose diseases. We wish to bring the art and science of dermatology into a practical resource. In this spirit, we created Atlas of Dermatology in Internal Medicine.

Skin reflects the health of the body and its diseases are often a manifestation of systemic conditions. To know skin disorders is of paramount importance for other specialties. We are committed to creating an excellent tool to assist in the diagnosis and management of common cutaneous manifestations of systemic diseases.

Atlas of Dermatology in Internal Medicine is organized to reflect current knowledge in dermatology relevant to Internal Medicine. It provides a comprehensive review and updated information on the diagnosis and treatment of common cutaneous manifestations of systemic diseases. To facilitate the diagnosis of frequently encountered skin diseases, a gallery of illustrations combined with disease descriptions and their current therapeutic information are included. This book welcomes internists and other specialists in medicine interested in learning more about clinical dermatology.

We are proud to present our work. We hope this text will provide a timely addition to the field of Internal Medicine.

We would like to thank the authors who contributed in this book.

Néstor P. Sánchez
Adisbeth Morales
Acknowledgments

I was extremely fortunate to have extraordinary teachers who enlightened the path of my training in Dermatology and Dermatopathology.

**Dr. Rodolph L. Baer** – Master of Dermatology, Professor Emeritus of NYU Skin and Cancer. My late Professor and mentor during my Residency in NYU.

**Dr. A. B. Ackerman** – Master of Dermatology and Dermatopathology. My early inspiration in the jungle of Dermatology. A spectacular human being.

**Dr. Alfred Kopf** – Master of Dermatology and role model.

**Dr. Thomas B. Fitzpatrick** – Master of Dermatology and innovator. My late mentor while at Harvard. Source of knowledge, inspiration and leadership.

**Dr. Martin Charles Mihm** – Master of Dermatology and Dermatopathology. My dear teacher, friend and role model. Physician by excellence and humanitarian.

**Dr. Harold Perry** – Master of Dermatology. Great inspiration for me while at Mayo Clinic.

**Dr. Richard Winkelmann** – Master of Dermatology and Dermatopathology. My mentor and innovator. Great physician and thinker.

**Dr. Arnold Schroeter** – Master of Dermatology and Dermatopathology, who trusted me during my early years in dermatology. A great mentor.

**Dr. Mark Pittelkow** – Master of Dermatology. Friend, extraordinary thinker and exceptional human being.

**Dr. Jorge L. Sánchez** – Master of Dermatology and Dermatopathology. Role model, who first inspired me.
Contents

Cutaneous Manifestations of Connective Tissue Diseases .......................................................... 1
Leslie E. Castro-Santana, José González Chávez, Jennifer Rullán, and Rachelle E. Seijo-Montes

Cutaneous Manifestations of Pulmonary Disease ................................................................. 17
Jennifer Rullán, Rachelle E. Seijo-Montes, Annie Vailant, and Néstor P. Sánchez

Cutaneous Manifestations of Renal Disease ...................................................................... 31
Lilliam S. Chiqués Colón and Rosbel González Rivera

Cutaneous Manifestations of Gastrointestinal Diseases ................................................... 41
María I. Vázquez-Roque and Wilfredo E. De Jesús-Monge

Cutaneous Manifestations of Common Endocrine Disease .......................................... 53
Inés M. Hernández and Yanira Marrero

Cutaneous Manifestations of Internal Malignancy and Paraneoplastic Syndromes .............. 59
Zelma C. Chiesa-Fuxench, Liliana Ramírez, and Néstor P. Sánchez

Cutaneous Manifestations of Infectious Diseases ............................................................... 77
Elena Montalván Miró and Néstor P. Sánchez

Cutaneous Manifestations of HIV Disease ......................................................................... 121
Humberto M. Guiot, Carlos G. Sánchez Sergenton, Carlos J. Sánchez Rivera, and Rosbel González Rivera

Cutaneous Disorders in the Intensive Care Unit ................................................................. 129
