ADVANCES IN
BLADDER RESEARCH
ADVANCES IN EXPERIMENTAL MEDICINE AND BIOLOGY

Editorial Board:
NATHAN BACK, State University of New York at Buffalo
IRUN R. COHEN, The Weizmann Institute of Science
DAVID KRITCHEVSKY, Wistar Institute
ABEL LAJTHA, N. S. Kline Institute for Psychiatric Research
RODOLFO PAOLETTI, University of Milan

Recent Volumes in this Series

Volume 454
OXYGEN TRANSPORT TO TISSUE XX
Edited by Antal G. Hudetz and Duane F. Bruley

Volume 455
RHEUMADERM: Current Issues in Rheumatology and Dermatology
Edited by Carmel Mallia and Jouni Uitto

Volume 456
RESOLVING THE ANTIBIOTIC PARADOX:
Progress in Understanding Drug Resistance and Development of New Antibiotics
Edited by Barry P. Rosen and Shahriar Mobashery

Volume 457
DRUG RESISTANCE IN LEUKEMIA AND LYMPHOMA III
Edited by G. J. L. Kaspers, R. Pieters, and A. J. P. Veerman

Volume 458
ANTIVIRAL CHEMOTHERAPY 5: New Directions for Clinical Application and Research
Edited by John Mills, Paul A. Volberding, and Lawrence Corey

Volume 459
IMPACT OF PROCESSING ON FOOD SAFETY
Edited by Lauren S. Jackson, Mark G. Knize, and Jeffrey N. Morgan

Volume 460
MELATONIN AFTER FOUR DECADES
Edited by James Olcese

Volume 461
CYTOKINES, STRESS, AND DEPRESSION
Edited by Robert Dantzer, Emmanuele Wollman, and Raz Yirmiya

Volume 462
ADVANCES IN BLADDER RESEARCH
Edited by Laurence S. Baskin and Simon W. Hayward

Volume 463
ENZYMOL OGY AND MOLECULAR BIOLOGY OF CARBONYL METABOLISM 7
Edited by Henry Weiner, Edmund Maser, David W. Crabb, and Ronald Lindahl

Volume 464
CHEMICALS VIA HIGHER PLANT BIOENGINEERING
Edited by Fereidoon Shahidi, Paul Kolodziejeczyk, John R. Whitaker,
Agustin Lopez Munguia, and Glenn Fuller

A Continuation Order Plan is available for this series. A continuation order will bring delivery of each new volume immediately upon publication. Volumes are billed only upon actual shipment. For further information please contact the publisher.
ADVANCES IN BLADDER RESEARCH

Edited by
Laurence S. Baskin

Springer Science+Business Media, LLC
This book is dedicated to my parents, Fred and Cynthia Baskin
PREFACE

The aim of Bladder Research Congress, San Francisco, California, April 23–25, 1998, was to provide a forum for authoritative investigators who are actively involved in the various disciplines which define the leading edges of bladder research. It is important for such investigators to continue to meet regularly for the purpose of discussing the latest developments in their individual fields, to analyze the significance of current research, to discuss new tactics for unresolved problems, to critically evaluate current theories, and to develop new theories and approaches as needed.

The two and a half day meeting was organized into five half day sessions, with each session encompassing one of five topics: (1) Epithelial-Mesenchymal Interactions; (2) Extracellular Matrix and Muscle; (3) Nerves and Pharmacology; (4) Infection and Immunology; and (5) Oncology. Each session was introduced by a moderator followed by five to six invited expert speakers with time for extensive interaction from the participants. Two late-afternoon poster sessions allowed further interactions between investigators.

This book documents the proceedings of the Bladder Research Congress. It is organized into the five half-day sessions of the meeting with moderators overview and an edited transcription of discussions that followed each presentation.

I would like to thank Sarah Burke and the Office of Continuing Medical Education, USCF; Joanne Hayward, Editorial Assistant; and Miriam Escamilla, Administrative Assistant.

I hope you find this resource useful.

Laurence S. Baskin, M.D.
Program Chair
Chief, Pediatric Urology
UCSF
ACKNOWLEDGMENTS

Support from the following organisations is gratefully acknowledged; without this funding, the meeting would not have taken place.

CONTENTS

Section I. Epithelial-Mesenchymal Interactions in the Bladder

Overview of Epithelial-Mesenchymal Interactions in the Bladder .................. 3
Gerald R. Cunha

1. Uroplakins as Markers of Urothelial Differentiation .............................. 7
   Tung-Tien Sun, Feng-Xia Liang, and Xue-Ru Wu

2. Urothelial Tissue Regulation: Unraveling the Role of the Stroma ............... 19
   Jennifer Southgate, Patricia Harnden, Peter J. Selby, David F. M. Thomas,
   and Ludwik K. Trejdosiewicz

3. Creation of Bladder Tissue in Vitro and in Vivo: A System for Organ
   Replacement ................................................. 31
   Anthony Atala

4. Reconstruction of the Urinary Bladder by Auto-Augmentation,
   Enterocystoplasty, and Composite Enterocystoplasty ............................ 43
   Mary T. Comer, David F. M. Thomas, Ludwik K. Trejdosiewicz, and
   Jennifer Southgate

5. Epithelial-Mesenchymal Interactions in the Bladder: Implications for Bladder
   Augmentation ...................................................................................... 49
   Laurence S. Baskin, Simon W. Hayward, Michael S. DiSandro, Ying Wu Li,
   and Gerald R. Cunha

6. Serosal Thickening, Smooth Muscle Cell Growth, and Phenotypic Changes in
   the Rabbit Bladder Wall during Outflow Obstruction and Regeneration ... 63
   Saverio Sartore, Marleen Roelofs, Angela Chiavegato, Luigi Faggian, and
   Rafaella Franch

7. Replicative Senescence in Human Uroepithelial Cells ............................. 83
   Jairaj A. Puthenveettil, Melissa S. Burger, and Catherine A. Reznikoff
Contents

8. Ultrastructural Smooth Muscle Ontogeny of the Rat Bladder ......................... 93
   Hsi-Yang Wu, Laurence S. Baskin, Carrie Blakey, Joseph Goodman, and
   Gerald R. Cunha

Discussion: Epithelial-Mesenchymal Interactions in the Bladder ....................... 103

Section II. Muscle and Extracellular Matrix in the Bladder

Overview of Muscle and Extracellular Matrix in the Bladder ......................... 117
   Edward J. Macarak

9. Fetal Bladder Physiology ............................................ 121
   Hiep T. Nguyen and Barry A. Kogan

    Intestinal Submucosa Regenerated Urinary Bladder ............................ 129
    Bradley P. Kropp

11. Contractile Protein Changes in Urinary Bladder Smooth Muscle following
    Outlet Obstruction ..................................................................... 137
    Samuel Chacko, Michael DiSanto, Chandrakala Menon, Yongmu Zheng,
    Joseph Hypolite, and Alan J. Wein

12. Calcium Ion Homeostasis in Urinary Bladder Smooth Muscle ...................... 155
    Stephen A. Zderic, Chaoliang Gong, Mike Desanto, Joseph Hypolite,
    Joel Hutcheson, Alan J. Wein, and Samuel Chacko

13. Cyclooxygenase-2: A Key Regulator of Bladder Prostaglandin Formation ......... 171
    John M. Park, Jürgen B. Schnermann, and Josephine P. Briggs

    Earl Y. Cheng, Robert S. Decker, and Chung Lee

15. New Concepts on the Normal and Abnormal Developing Bladder .................. 193
    Ellen Shapiro

16. Biochemical and Physiological Characterization of the Urinary Bladder in
    Ehlers-Danlos Syndrome .................................................................. 201
    Catherine M. Deveaud, William A. Kennedy II, Stephen A. Zderic, and
    Pamela S. Howard

17. The Role of Collagen in Bladder Filling ........................................... 215
    Edward J. Macarak and Pamela S. Howard

Discussion: Muscle and Extracellular Matrix in the Bladder ............................ 225

Section III. Nerves and Pharmacology in the Bladder

Overview of Nerves and Pharmacology in the Bladder .................................... 237
   Robert M. Levin
18. Pathways for Relaxation of Detrusor Smooth Muscle .......................... 241
   Karl-Erik Andersson

19. Maturation of Bladder Reflex Pathways during Postnatal Development .... 253
   William C. de Groat and Isao Araki

20. Subcellular Distribution of Free Fatty Acids, Phospholipids, and Endogenous
    Lipase Activity of Rabbit Urinary Bladder Smooth Muscle and Mucosa .. 265
   Laura J. O’Connor, Tamar Nicholas, and Robert M. Levin

21. Effects of Glutamate Receptor Antagonists on Lower Urinary Tract Function in
    Conscious Unanesthetized Rats .................................. 275
   Oamu Nishizawa, Yasuhiko Igawa, Tomoya Satoh, Seiji Yamashiro, and
   Kimio Sugaya

22. Observations from the Spontaneously Hypertensive Rat: Insight into NGF
    Regulation and Noradrenergic Hyper-Innervation in the Lower Urinary
    Tract .......................................................... 283
   William D. Steers, David B. Clemow, Katarina Persson, Todd Sherer,
   Karl-Erik Andersson, and J. B. Tuttl

23. Role of Na⁺-K⁺-ATPase Activity in Regulation of Detrusor Contractility and
    Diabetic Bladder Dysfunction ................................... 293
   Sandeep Gupta and Alan J. Wein

24. Restoration of Bladder Function in Spastic Neropathic Bladder Using Sacral
    Deafferentation and Different Techniques of Neurostimulation .......... 303
   Stefan Schumacher, Stephan Bross, Jeroen R. Scheepe, Peter Alken, and
   Klaus-Peter Jüinemann

Discussion: Nerves and Pharmacology ........................................ 311

Section IV. Infection, Immunology, and Interstitial Cystitis in the Bladder

Overview of Infection, Immunology, and Interstitial Cystitis in the Bladder .. 323
   Timothy L. Ratliff

25. Pathophysiology of Bacterial Cystitis ....................................... 325
    James A. Roberts

26. Role of Vaginal Colonization in Urinary Tract Infections (UTIs) .......... 339
    Anthony J. Schaeffer, Nithya Rajan, E. Thorburn Wright, James L. Duncan,
    and Byron E. Anderson

27. Host Factors in Susceptibility to Urinary Tract Infections ................. 351
    Ann Stapleton

28. Induction of Nitric Oxide Synthase with Urinary Tract Infections .......... 359
    Marcia A. Wheeler, Shannon D. Smith, and Robert M. Weiss
29. Interferon Alpha for the Treatment of Superficial Bladder Cancer
   John Naitoh, John Franklin, Michael A. O'Donnell, and Arie S. Belldegrun
   Discussion: Infection, Immunology, and Interstitial Cystitis in the Bladder

Section V. Cancer of the Bladder

Overview of Cancer of the Bladder
   S. W. Hayward

30. Urokinase (u-PA) and the u-PA Receptor: Modulation of in Vitro Invasiveness of
    Human Bladder Cancer Cell Lines
    M'Liss A. Hudson and L. Michelle McReynold

31. The Role of Matrix Metalloproteinases in an in Vitro Model of Bladder Tumor
    Invasion
    Catherine Booth, Patricia Harnden, Peter J. Selby, Ludwik K. Trejosiewicz, and
    Jennifer Southgate

32. DNA Methylation in Development of Bladder Cancer
    Peter A. Jones

33. Cellular Proliferation and Cell-Cell Cycle Regulatory Proteins as Prognostic
    Markers for Transitional Cell Carcinoma of the Bladder
    Gary D. Grossfeld, Michael Muscheck, John P. Stein, Karen Chew, Richard J. Cote,
    David A. Ginsberg, Frederic M. Waldman, and Peter R. Carroll

34. Urothelial Differentiation and Bladder Cancer
    Monica Liebert, Daniel Gebhardt, Christopher Wood, I-Ling Lee Chen, Jeffrey Ellard,
    Daniel Amancio, and H. Barton Grossman

35. Complexity, Retinoid-Responsive Gene Networks, and Bladder Carcinogenesis
    Robert E. Hurst, Przemyslaw Waliszewski, Miroslawa Waliszewska, Rebeca B.
    Bonner, Doris M. Benbrook, Arindam Dar, and George P. Hemstreet, III

36. Tumor Cell Motility: A Novel Therapeutic Target in Bladder Carcinoma,
    Experimental and Clinical Results
    T. Otto, G. Lümmen, A. Be, H. Rübben, and A. Raz

Discussion: Cancer of the Bladder
