

Part V: Pigmented, Pre-Malignant, and Common Malignant Skin Lesions

IMPORTANT ABBREVIATIONS USED IN THIS PART:

AcpN	Acquired “congenital pattern” melanotic nevus/nevi
AK	Actinic keratosis
ALMM	Acral lentiginous mucosal melanoma
ANS	Atypical nevus syndrome
BCC	Basal cell carcinoma (epithelioma)
CMN	Congenital melanotic nevus/nevi
ELND	Elective lymph node dissection
KA	Keratoacanthoma
LCMN	Large congenital melanotic nevus/nevi
LM	Lentigo maligna
LMM	Lentigo maligna melanoma
LN2	Liquid nitrogen
MCMN	Medium congenital melanotic nevus/nevi
MM	Malignant melanoma
NM	Nodular melanoma
SCC	Squamous cell carcinoma
SCMN	Small congenital melanotic nevus/nevi
SK	Seborrheic keratosis
SLNB	Sentinel lymph node biopsy
SPF	Sun protection factor
SSMM	Superficial spreading malignant melanoma
