

Palgrave Studies in Climate Resilient Societies

Series Editor
Robert C. Brears
Avonhead, Canterbury, New Zealand

The Palgrave Studies in Climate Resilient Societies series provides readers with an understanding of what the terms **resilience and climate resilient** societies mean; the best practices and lessons learnt from various governments, in both non-OECD and OECD countries, implementing climate resilience policies (in other words what is ‘desirable’ or ‘undesirable’ when building climate resilient societies); an understanding of what a resilient society potentially looks like; knowledge of when resilience building requires slow transitions or rapid transformations; and knowledge on how governments can create coherent, forward-looking and flexible policy innovations to build climate resilient societies that: support the conservation of ecosystems; promote the sustainable use of natural resources; encourage sustainable practices and management systems; develop resilient and inclusive communities; ensure economic growth; and protect health and livelihoods from climatic extremes.

*To Leonardo, Sebastian and Nicolas—may we find solutions for you be able
to enjoy living in Miami for many more years to come*

ACKNOWLEDGEMENTS

This book is based on research conducted in 2018 and 2019 in Greater Miami.

Most of all, I am grateful to more than 20 people I interviewed, listed in Appendix 1. These inspiring individuals from various sectors work tirelessly to keep Miami liveable and enjoyable for future generations, despite numerous challenges posed by the political environment, economic constraints, and the changing climate (to name just a few). I can't thank them enough for their openness and dedication.

In Miami-Dade County, I'd like to thank Jim Murley, Jane Gilbert, Susanne Torriente, Commissioner Daniella Levine-Cava, Mayor Phil Stoddard, Charles Lapradd, Dr. Jaap Donath, Irela Bagué, Zelalem Adefris, Thi Squire, James Jiler, Juan Casimiro, Kate Stein, Art Friedrich, and Rebecca Fishman-Lipsey.

In Broward County, I'm grateful to Jennifer Jurado and Jill Horwitz.

In Palm Beach County, I'd like to thank Megan Houston.

Working across (and beyond) county borders, I thank Paco Velez, Gretchen Schmidt, Jeannie Necessary, Yoca Ardití-Rocha, Dr. Janisse Schoepp, Elisa Juarez, Jose Caceres, and Chris Castro.

A special thank you to the people who reviewed early drafts of the manuscript and provided their feedback. I am grateful to you, especially to Kate Stein, Dr. Rachele Hendricks-Sturup, and Jeannie Necessary.

Finally, I want to acknowledge with gratitude the support of my family here and abroad and particularly of my husband, Alvaro, without whose encouragement and help I would likely not have embarked on this

extensive yet exciting project. Thank you to my children, Leo, Sebas, and Nico, who only have enforced my ambition to do my part for the health of our communities and our planet, so they will continue to be able to enjoy Miami as much as we do now.

CONTENTS

1	Prologue: Community Nutrition Resilience—What and Why	1
1.1	<i>Resilience of Social-Ecological Systems</i>	4
1.1.1	<i>Resilience—A New Term for Sustainability?</i>	6
1.1.2	<i>Resilience, Adaptability, and Transformability</i>	7
1.1.3	<i>Urban Resilience</i>	8
1.1.4	<i>Community Resilience</i>	12
1.1.5	<i>Climate Adaptation</i>	14
1.2	<i>Food Security and Climate Change</i>	17
1.3	<i>Food Systems: The Vehicle for Community Nutrition Resilience</i>	21
1.4	<i>Community Nutrition Resilience: Moving from “Survive” to “Thrive”</i>	29
	<i>References</i>	29
2	Resilience Challenges to Community Nutrition Security in Greater Miami	37
2.1	<i>Historical Dynamics</i>	39
2.1.1	<i>Political Support</i>	39
2.1.2	<i>Immigration</i>	41
2.1.3	<i>Community Development</i>	43
2.1.4	<i>Food System</i>	45
2.1.5	<i>Climatic Events</i>	46

2.2	<i>Climatic Stresses and Shocks</i>	47
2.2.1	<i>Threats to Economy</i>	47
2.2.2	<i>Human Impacts</i>	50
2.3	<i>Status Quo</i>	51
2.3.1	<i>Community Resilience</i>	51
2.3.2	<i>Food Security</i>	55
2.3.3	<i>Health Implications</i>	59
2.4	<i>Threats to Community Nutrition Resilience in Miami</i>	60
2.4.1	<i>Lack of Focus, Policy, and Planning</i>	60
2.4.2	<i>Threats Related to the Food System</i>	62
2.4.3	<i>Health Literacy and Education</i>	67
2.4.4	<i>Adaptive Capacity</i>	68
	<i>References</i>	69
3	Taking (Community Nutrition) Resilience Action	75
3.1	<i>Political Action</i>	77
3.1.1	<i>Federal</i>	77
3.1.2	<i>State</i>	79
3.1.3	<i>Greater Miami</i>	79
3.2	<i>Regional Resilience Action</i>	80
3.2.1	<i>Southeast Florida Regional Climate Change Compact</i>	80
3.2.2	<i>100 Resilient Cities (100RC)</i>	82
3.2.3	<i>Resilient305</i>	83
3.3	<i>Miami-Dade County</i>	84
3.3.1	<i>City of Miami</i>	86
3.3.2	<i>City of Miami Beach</i>	88
3.3.3	<i>Miami Gardens</i>	89
3.3.4	<i>South Miami</i>	90
3.4	<i>Broward County</i>	90
3.4.1	<i>Fort Lauderdale</i>	95
3.4.2	<i>Other Major Cities in Broward County</i>	96
3.5	<i>Palm Beach County</i>	97
3.5.1	<i>West Palm Beach</i>	97
3.5.2	<i>Boca Raton</i>	98
3.6	<i>Community Engagement and Other Key Initiatives</i>	98
3.6.1	<i>Key Nonprofit Organizations</i>	99
3.6.2	<i>Community Foundations</i>	102

3.6.3	<i>Academia</i>	103
3.6.4	<i>Private Sector</i>	103
3.6.5	<i>Media</i>	105
3.6.6	<i>Civil Sector</i>	105
	<i>References</i>	106
4	Designing Nutrition Resilient Communities: Learnings from Other Cities	111
4.1	<i>Boston</i>	112
4.2	<i>New York City</i>	115
4.3	<i>Baltimore</i>	116
4.4	<i>Orlando</i>	118
4.5	<i>Los Angeles</i>	120
4.6	<i>Other Cities</i>	121
4.7	<i>Food Waste and Recovery</i>	123
	<i>References</i>	124
5	Conclusions—Making Greater Miami’s Communities Nutrition Resilient	127
5.1	<i>Recommendations Related to Planning and Policy</i>	128
5.1.1	<i>Form a Central Entity Responsible for Community Nutrition Resilience</i>	128
5.1.2	<i>Conduct Assessment of the Status Quo of Community Nutrition Resilience</i>	130
5.1.3	<i>Map the Food System, Identify Health Disparities, and Support the Business Case</i>	131
5.1.4	<i>Conduct Food System Resilience Assessments</i>	134
5.1.5	<i>Develop a Vision, Strategy, and Aims for Community Nutrition Resilience</i>	135
5.1.6	<i>Incorporate Food Systems and Community Nutrition Resilience into Resilience Planning</i>	136
5.1.7	<i>Co-create Neighborhood Nutrition Resilience Plans</i>	137
5.1.8	<i>Develop Government Policies and Practices that Help the Food System Quickly Return to Normal Operations</i>	138
5.2	<i>Recommendations to Strengthen Food System Resilience</i>	140
5.2.1	<i>Food Production</i>	141

5.2.2	<i>Food Processing and Distribution</i>	145
5.2.3	<i>Food Access</i>	146
5.2.4	<i>Health Literacy and Community Education</i>	149
5.2.5	<i>Cultural Relevance</i>	150
5.2.6	<i>Food Waste and Recovery</i>	150
5.3	<i>The Way Forward: From Fun in the Sun to Resilience Excellence</i>	151
5.4	<i>Areas for Further Research</i>	153
5.5	<i>Conclusions</i>	154
	<i>References</i>	156

ABBREVIATIONS AND ACRONYMS

&	And
100RC	100 Resilient Cities
A/C	Air Conditioning
A/S	Aksjeselskap (Norwegian term for a stock-based company)
AI	Artificial Intelligence
AIA	The Miami Chapter of American Institute of Architects
ALICE	Asset Limited, Income Constrained, Employed
AMA	American Medical Association
BFPI	Baltimore Food Policy Initiative
BMI	Body Mass Index
CCE	(Office of) Civic and Community Engagement
CDC	Centers for Disease Control and Prevention
CGIAR	Consortium of International Agricultural Research Centers
CO ₂	Carbon dioxide
CRO	Chief Resilience Officer
CSA	Community-Supported Agriculture
CSN	Corporate Sustainability Network
D.C.	District of Columbia/Federal District
D-Snap	Disaster Supplemental Nutrition Assistance Program
e.g.	Exempli gratia (lat.)/for example
EMD	Emergency Management Department
EOC	Emergency Operations Center
EPA	United States Environmental Protection Agency
ERS	Economic Research Services
et al.	Et alia (lat.)/and others
FAB	Fresh Access Bucks program

FANM	Family Action Network Movement
FAO	Food and Agriculture Organization of the United Nations
FDA	Food and Drug Administration (of the USA)
FEMA	Federal Emergency Management Agency
FIU	Florida International University
FLIC	Florida Immigrant Coalition
FMI	Food Marketing Institute
FPL	Florida Power & Light
FRAC	Food Research and Action Center
GHG	Greenhouse Gases
GIS	Geographic Information System
GM&B	Greater Miami and the Beaches
Gov.	Governor
HOLC	Home Owners Loan Corporation
HUD	United States Department of Housing and Urban Development
i.e.	Id est (lat.)/in other words
ICIC	Initiative for a Competitive Inner City
IFAS	Institute of Food and Agricultural Sciences
IISD	International Institute for Sustainable Development
IPCC	Intergovernmental Panel on Climate Change
IWRA	International Water Resources Association
LED	Light-Emitting Diode
M	Million
MCA	Miami Climate Alliance
MDC	Miami-Dade County
MHA	Miami Housing Authority
MIT	Massachusetts Institute of Technology
MWC	Miami Workers Center
NAFTA	North American Free Trade Agreement
NIFA	National Institute of Food and Agriculture
OFI	Office of Food Initiatives
PBC	Palm Beach County
Ph.D.	Doctor of Philosophy
RCAP	Regional Climate Action Plan
SAP	Sustainable Action Plan
SES	Socio-Ecological System
SFWMD	South Florida Water Management District
SLR	Sea-Level Rise
SNAP	Supplemental Nutrition Assistance Program
SNAP-Ed	Supplemental Nutrition Assistance Program Education
SR	State Road
SSB	Sustainability Stewards of Broward

U.S.	United States (of America)
UF	University of Florida
UGW	Urban Green Works
UK	United Kingdom
ULI	Urban Land Institute
UM	University of Miami
UN	United Nations
US\$	US Dollar
USA	United States of America
USC	University of South Carolina
USDA	United States Department of Agriculture
WHO	World Health Organization
WIC	Special Supplemental Nutrition Assistance Program for Women, Infants and Children

LIST OF FIGURES

Fig. 1.1	Dimensions of community food security (Adapted from Frayne et al. 2010)	18
Fig. 1.2	The food system (Adapted from Zeuli and Nijhuis 2017)	24
Fig. 2.1	How sea level rise could affect South Florida in 2100 (Climate Central 2018)	47
Fig. 2.2	Miami-Dade county 2014. Residents living below poverty (data analysis and mapping by FIU Metropolitan Center 2016)	52
Fig. 2.3	Low supermarket sales and low income (The Food Trust 2012)	58
Fig. 5.1	Areas with greatest need (The Food Trust 2012)	133
