About this Series

The series “Advances in Intelligent Systems and Computing” contains publications on theory, applications, and design methods of Intelligent Systems and Intelligent Computing. Virtually all disciplines such as engineering, natural sciences, computer and information science, ICT, economics, business, e-commerce, environment, healthcare, life science are covered. The list of topics spans all the areas of modern intelligent systems and computing.

The publications within “Advances in Intelligent Systems and Computing” are primarily textbooks and proceedings of important conferences, symposia and congresses. They cover significant recent developments in the field, both of a foundational and applicable character. An important characteristic feature of the series is the short publication time and world-wide distribution. This permits a rapid and broad dissemination of research results.

Preface

This book contains a selection of papers accepted for presentation and discussion at The 2014 World Conference on Information Systems and Technologies (WorldCIST’14). This Conference had the cooperative support of AISTI (Iberian Association for Information Systems and Technologies/Associação Ibérica de Sistemas e Tecnologias de Informação) and IEEE Portugal Section. It took place between the 15th and 18th of April in Funchal, Madeira, Portugal.

The World Conference on Information Systems and Technologies (WorldCIST) is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and challenges of modern Information Systems and Technologies research, technological development and applications. One of its main aims is to strengthen the drive towards a holistic symbiosis between academy, society and industry. WorldCIST’14 built on the success of WorldCIST’13, held last year in Olhão, Algarve, Portugal.

The Program Committee of WorldCIST’14 was composed of a multidisciplinary group of experts and those who are intimately concerned with Information Systems and Technologies. They have had the responsibility for evaluating, in a ‘blind review’ process, the papers received for each of the main themes proposed for the Conference: A) Information and Knowledge Management (IKM); B) Organizational Models and Information Systems (OMIS); C) Intelligent and Decision Support Systems (IDSS); D) Software Systems, Architectures, Applications and Tools (SSAAT); E) Computer Networks, Mobility and Pervasive Systems (CNMPS); F) Human-Computer Interaction (HCI); G) Health Informatics (HIS); H) Information Technologies in Education (ITE).

WorldCIST’14 received contributions from 42 countries around the world. The papers accepted for presentation and discussion at the Conference are published by Springer (this book) and by AISTI (another e-book) and will be submitted to be indexed by ISI, EI, SCOPUS, DBLP and/or EBSCO, among others. Extended versions of best selected papers will be published in relevant journals, including SCI/SSCI and Scopus indexed journals, and in a SCI series book.
VI Preface

We acknowledge all those who contributed to the staging of WorldCIST14 (authors, committees and sponsors); their involvement and support is very much appreciated.

## Contents

Software Systems, Architectures, Applications and Tools

**Extending Groovy’s Reification and Closures** .......................................................... 1  
Carlos Cortinhas, Fernando Barros

**The Connective Scheme between the Enterprise Architecture and Organisational Structure** ................................................. 9  
Tiko Iyamu, Leshoto Mphahlele, Suama Hamunyela

**Towards a Flexible and Transparent Database Evolution** ......................... 23  
Rui Humberto Pereira, J. Baltasar García Perez-Schofield

**Virtual Desktop Infrastructure (VDI) Technology: FI4VDI Project** ........ 35  
C. Redondo Gil, P. Vega Prieto, M. Silva, A.M. Teixeira

**Exploring WebRTC Technology for Enhanced Real-Time Services** .......... 43  
Vasco Amaral, Solange Rito Lima, Telma Mota, Paulo Chainho

**Integrating Public Transportation Data: Creation and Editing of GTFS Data** .............................................................. 53  
Mário Braga, Maribel Yasmina Santos, Adriano Moreira

**Model and Application Architecture Indicators of Evaluation the Enterprise Architecture** ...................................................... 63  
Jihane Lakhrouit, Karim Baïna, Khalid Benali

**Software Tools for Project Management – Focus on Collaborative Management** ................................................................. 73  
Maria Ester Ferreira, Anabela Pereira Tereso

**An Adaptable Infrastructure to Generate Training Datasets for Decompilation Issues** .......................................................... 85  
Javier Escalada, Francisco Ortín
Reengineering of Software Requirement Specification ......................... 95
Abeer AlSanad, Azedine Chikh

ClassIN: A Class Inheritance Metric Tool ............................... 113
B. Ramachandra Reddy, Aparajita Ojha

Discrimination of Class Inheritance Hierarchies – A Vector Approach .... 121
B. Ramachandra Reddy, Aparajita Ojha

Transformation of Coloured Petri Nets to UML 2 Diagrams .................. 131
Ayman Yassin, Hoda Hassan

mEMR: A Secure Mobile Platform Integrated with Electronic Medical
Records ........................................................... 143
Waqar Haque, Dan Horvat, Leon Verhelst

Mobile Botnet Attacks: A Thematic Taxonomy ............................ 153
Ahmad Karim, Syed Adeel Ali Shah, Rosli Salleh

Evaluation of an Integrated Mobile Payment, Ticketing and Couponing
Solution Based on NFC ............................................ 165
Marta Campos Ferreira, João Falcão e Cunha, Rui José, Helena Rodrigues,
Miguel Pimenta Monteiro, Carlos Ribeiro

Augmented Reality Mobile Tourism Application ............................ 175
Flávio Pereira, Daniel Castro Silva, Pedro Henriques Abreu, António Pinho

MusE Central: A Data Aggregation System for Music Events ............... 187
Delfim Simões, Pedro Henriques Abreu, Daniel Castro Silva

An Approach for Graphical User Interface External Bad Smells
Detection .................................................................. 199
J.C. Silva, J.C. Campos, J. Saraiva, J.L. Silva

Improving High Availability and Reliability of Health Interoperability
Systems ............................................................... 207
Fernando Marins, Luciana Cardoso, Filipe Portela, Manuel F. Santos,
António Abelha, José Machado

Developing a Learning Objects Recommender System Based
on Competences to Education: Experience Report .......................... 217
Silvio César Cazella, Patrícia Alejandra Behar, Daisy Schneider,
Ketia Kellen da Silva, Rodrigo Freitas

Developing a Multi-purpose E-Learning Application for Speech
and Language Therapy Students and Professionals Using a Design
Science Research Approach ........................................... 227
Miguel Baptista Nunes, Linhao Fang, Guochao Peng, Jingchao Zhou,
Judy Clegg, Carla Ce Rohde, Sarah Spencer
Current Issues on Enterprise Architecture Implementation Methodology . . . 239
Babak Darvish Rouhani, Mohd Nazri Mahrin, Fatemeh Nikpay,
Bita Darvish Rouhani

Computer Networks, Mobility and Pervasive Systems

User Behavior Detection Based on Statistical Traffic Analysis for Thin
Client Services ................................................................. 247
Mirko Suznjevic, Lea Skorin-Kapov, Iztok Humar

Using Individual Interactions to Infer Group Interests and to Recommend
Content for Groups in Public Spaces .................................. 257
Fernando Reinaldo Ribeiro, Patrick Santos, José Metrôlho

A Distributed Architecture for Remote Validation of Software Licenses
Using USB/IP Protocol ......................................................... 269
Mário J. Antunes, Albano Afonso, Filipe Mota Pinto

Bandwidth Optimization for Real-Time Online and Mobile Applications . . 281
Ahmed Mokhtar A. Mansour, Mona A.M. Fouad

Human-Computer Interaction

An Evaluation on the Usability of E-Commerce Website Using Think
Aloud Method ................................................................. 289
Rogayah Abdul Majid, Mardziah Hashim, Nurul A’syida Abdul Jaabar

Towards a Structured Electronic Patient Record for Supporting Clinical
Decision-Making ............................................................... 297
Bente Christensen, Gunnar Ellingsen

Architecture for Serious Games in Health Rehabilitation .................. 307
Paula Alexandra Rego, Pedro Miguel Moreira, Luís Paulo Reis

A Simple Movement Classification System for Smartphones
with Accelerometer ........................................................... 319
Micael Costa, Paulo Fazendeiro

Intelligent Wheelchair Driving: A Comparative Study of Cerebral Palsy
Adults with Distinct Boccia Experience .................................. 329
Brígida Mónica Faria, Ana Silva, Joaquim Faias, Luís Paulo Reis, Nuno Lau

Health Informatics

The Process-Oriented Implications in the Development of Health
Informatics Curriculum for Teaching and Learning ....................... 341
Suama Hamunyela, Tiko Iyamu
