Preface

This volume contains the papers presented at ICADL 2014, the 16th International Conference on Asia-Pacific Digital Libraries, held during November 5–7, 2014 in Chiang Mai, Thailand. The International Conference on Asia-Pacific Digital Libraries (ICADL) constitutes a forum that brings together researchers, developers, content providers, and users in the field of digital libraries to share their research and practice. The organizers were Chiang Mai University with Khon Kaen University, Suranaree University of Technology, and Thammasat University in Thailand.

ICADL welcomes submissions in any area related to aspects of digital libraries. This year the conference theme was “The Emergence of Digital Libraries Research and Practices.” The topics of the conference were divided into five areas, of which “Digital Humanities” was specifically highlighted as it is an emerging issue and the aspect of Asia-Pacific’s digital humanities is quite unique and exclusive. The other topic areas included: “Services,” “Contents,” “Infrastructures,” and “Foundations.”

We were delighted to present a strong technical program at the conference as a result of the hard work by authors, reviewers, and conference organizers. We received 114 submissions of which 79 qualified for review. During the review process, each paper was evaluated by at least three different Program Committee (PC) members. On average each paper had 3.73 reviews. After careful evaluation we accepted 20 full-length papers (23.5% acceptance rate), 19 short papers, and 12 poster papers.

This year the conference included two pre-conference workshops: the Digital Meets Cultural Workshop and the Doctoral Consortium and International Workshop on Global Collaboration of Information Schools (DC-WIS2014). We are also pleased to have invited Dr. Jieh Hsiang and Dr. Akihiro Shibayama to give exciting keynote talks.

We would like to thank the authors of submitted papers and presenters as well as the conference participants for making this conference a success. We express our gratitude to the PC members and reviewers for their hard and dedicated work. We also thank the workshop and tutorial chairs and the local Organizing Committee for managing the workshops and tutorials. Lastly, this conference would not be possible without the generous help of our sponsors and supporters and the efforts of the financial chairs.

We hope that you will find these proceedings interesting and thought-provoking.

August 2014
