

Palgrave Studies in the History of Science
and Technology

Series Editors

James Fleming
Colby College
China, Maine, USA

Roger Launius
Washington, D.C., USA

Designed to bridge the gap between the history of science and the history of technology, this series publishes the best new work by promising and accomplished authors in both areas. In particular, it offers historical perspectives on issues of current and ongoing concern, provides international and global perspectives on scientific issues, and encourages productive communication between historians and practicing scientists.
